

7 WAYS TO EAT TO DEFEAT CANCER

1. BE PICKY

Red Delicious and Granny Smith apples have twice as many cancer fighters as Fuji or Golden Delicious apples.

2. EAT YOUR SPROUTS

Broccoli sprouts can contain more cancer-fighting properties than regular broccoli.

3. DUNK YOUR TEA BAG

Dunking a tea bag up and down releases more cancer-fighting molecules than letting the bag just sit in the cup.

4. COOK TOMATOES

Raw tomatoes are good, but cooking them with a source of fat is even better.

5. CHEW YOUR GREENS

Chewing leafy greens helps to release enzymes that activate cancer-fighting molecules embedded deep in the leaves.

6. GO SOY

Fermented soy, like the kind used in miso soup, contains four times more cancer fighters than regular soybeans.

7. CHOOSE ONE CANCER-FIGHTING FOOD FOR EACH MEAL.

At 3 meals each day, that adds up to more than a thousand cancer-fighting food choices each year.

How Beat Cancer Fighting Alternative:

My Journey, A Victory Over Cancer Through Alternative Methods Valarie Hendriks, 2017-09-21 This book is a story about one courageous woman's journey and victory over cancer through alternative methods. This is a book that will make you laugh, make you cry, inspire you, motivate you; however, most of all, it will help you in battling one of the most dreaded diseases plaguing mankind: cancer. Valarie Hendriks grew up in the Midwest part of the United States. After college, she got a job in the Optical field and is currently working as a Manager and ABO Certified Optician. Along the way, she got married to her spouse of twenty-five years. Her hobbies are tennis, horseback riding, and Ball Room Dancing. She competed in Ball Room Dancing and won several competitions over her career. Then one day she was diagnosed with cancer. At this point in her life, she thought her entire world was falling apart. However, she was determined to defeat this dreaded disease. Her book *My Journey A Victory Over Cancer Through Alternative Methods* is a book that Valarie wrote that outlines how she beat cancer. In her book, she provides all of the information that she learned through two years of research so that she could help other people in their battle against cancer without going through the trauma of traditional cancer treatments. Her book is uplifting, inspiring, and motivational. It will make you laugh, and it will make you cry, but most of all, it will help you to defeat one of the most dreaded diseases in the world: the disease that we call cancer. *Fighting Cancer with Knowledge and Hope* Richard C.

Frank, 2013-06-11 **DIVA** leading oncologist demystifies cancer with accurate, accessible, and honest information. **Help Your Dog Fight Cancer** Laurie Kaplan, 2004 50% of our dogs will have cancer in their lifetimes. This book is a crash course

for caretakers by medical animal writer Laurie Kaplan. Composed during her Siberian Husky Bullet's triumphant battle against lymphoma, written to educate all caretakers and to help those who have dogs with cancer. Battling and Beating Cancer Scott Seaman, Charlene Seaman, 2009-07-08 *Battling And Beating Cancer* The Cancer Survival Book is an inspiring story of a couple fighting cancer together. It provides a poignant look at cancer from the perspectives of patient and caregiver, covering the highs and lows from diagnosis to surgery to chemotherapy to radiation to follow up to fighting back for people impacted by cancer. It also serves as an important survival resource for patients and families battling cancer, loaded with checklists, information, tips, and insights. It even outlines a strategy and national call to action for curing cancer. This is a compelling story of general interest and a must-read for the millions of Americans impacted by cancer. **Slowing**

Metaphor Down Gerard J. Steen, 2023-06-15 If thinking can be fast or slow, metaphorical thinking can be fast and slow too. But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think. Slow metaphorical thinking does mean, however, that we can exert more control over metaphor than has previously been acknowledged. We can even offer resistance to metaphor. *Deliberate Metaphor Theory* DMT claims that there is an essential processing difference between non-deliberate and deliberate metaphor use, which can explain all this. This book is the first full account of the DMT model for metaphor comprehension. It presents explicit conceptualization and formal

operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics
