 paradigm is based on the idea that states deal with bad people or those pursuing their own self interests with laws that exact
 a price for misbehavior through sanctions and punishment At the same time by contrast behavioral ethics posits that good
 people are guided by cognitive processes and biases that enable them to bend the laws within the confines of their
 conscience In this illuminating book Yuval Feldman analyzes these paradigms and provides a broad theoretical and empirical
 comparison of traditional and non traditional enforcement mechanisms to advance our understanding of how states can
 better deal with misdeeds committed by normative citizens blinded by cognitive biases regarding their own ethicality By
 bridging the gap between new findings of behavioral ethics and traditional methods used to modify behavior Feldman
 proposes a law of good people that should be read by scholars and policymakers around the world *Learning From the*
