Home Improvement Series Volume Two Femi Awodele, 2012-05-14 **Introducing Christian Theologies, Volume Two** Victor I. Ezigbo, 2015-12-31 Should Christianity's theological face remain largely European and North American in the twenty first century in the wake of the expansion of Christianity in sub Saharan Africa Asia and Latin America The question about the theological face of Christianity cannot be ignored For too long African Asian and Latin American theologians have been left out of mainstream theological discussions Few standard textbooks on Christian theology acknowledge the unique contributions theologians from these continents have made to global Christianity **Introducing Christian Theologies** Voices from Global Christian Communities is a two volume textbook that alters the predominantly European and North American theological face of Christianity by interacting with voices of Christian communities from across the globe **Introducing Christian Theologies** explores the works of key theologians from around the world highlighting their unique contributions to Christian theology and doctrine **Christian Theology, Volume Two** Thomas N. Finger, 2020-03-09 This is one of the first systematic theologies written from a believer's church chiefly an Anabaptist Mennonite perspective Dr Finger develops his themes throughout the volume in careful dialogue with Reformed Lutheran Roman Catholic and other historic approaches The eschatological approach taken by Finger does not represent a fixation on future events Rather it represents a method of inquiry based on the early Christian conviction that the last things had already occurred through Jesus even though their effects were not yet fully realized Chief among these were the resurrection of the dead the outpouring of the Spirit the coming of God's kingdom and the defeat of the powers of evil After outlining this vantage point Volume I considered eschatology revelation and the work of Christ in its light Volume II begins with anthropology Jesus human work provides the norm for authentic human being Justification comes next and is considered as the eschatological revelation and actualization of God's righteousness through the faithfulness of Jesus Christ After treating the dynamics of personal sanctification Dr Finger explores the context within which it is pursued the church His ecclesiology begins with mission including its approach to non Christian religions and the sociopolitical realm Volume II ends where most systematic theologies begin with God including the humanity and deity of Jesus Christ Thomas N Finger has undertaken an important task that is rarely attempted the production of a constructive systematic theology informed by judicious dialogue with current biblical scholarship Finger's

methodological decision to adopt an eschatological approach enables him to work formally as well as materially from within a perspective shaped by the NT writers his innovative organization of the loci of Christian doctrine with its emphasis on the church as a community of believers living out the tensions between Christ's resurrection and Parousia is a direct result of taking the NT seriously Particularly noteworthy is his exposition of the doctrine of justification in the light of recent paradigm shifts in Pauline studies Finger's book is a productive and edifying work for all who care about the ongoing conversation between Scripture and systematics Richard Hays Duke Divinity School Thomas N Finger has chosen an approach to the systematic presentation of Christian Theology which I also have taken since the publication of my Theology of Hope in 1964 He begins with the goal with eschatology With that goal in mind a new light is cast on every single doctrine of Christian theology the light of redemption and the work of the theologian becomes a labor of hope This is a theology of the way With the kingdom of God kept steadily in view it becomes an invitation to walk the way of Jesus Tom Finger's theological prospectus makes a brilliant contribution to ecumenical theological dialogue from the Anabaptist tradition He offers an eschatologically oriented theology for which I can only congratulate him Jurgen Moltmann Professor of Theology University of Tübingen This volume is not only a contribution to the contemporary discussions in systematic theology It is also an important ecumenical breakthrough The Anabaptist tradition stands as an important dialogue partner in the quest for a common ground in the Christian faith Finger approaches the biblical faith from an eschatological viewpoint that is faithful to the Anabaptist tradition but in dialogue with Roman Catholic classical Protestant and contemporary scholars in both of these traditions He has begun a substantive conversation that will be important into the twenty first century Jeffrey Gros Former Director of the Commission on Faith Order National Council of Christian Churches USA

To Will & To Do, Volume Two Jacques Ellul, 2021-04-28 To Will To Do presents one of the most significant theological contributions of the dynamic twentieth century thinker Jacques Ellul Benefiting from recent scholarship on Ellul and a discovery of a lost manuscript this new edition renders the full text available in English for the first time combining a fresh translation of volume I with a first English translation of volume II Together the two volumes constitute the introductory first part of Ellul's planned four part treatment of Christian ethics Volume I examines the origin of the problem of good and evil outlines the contemporary morality of Western society and provocatively sketches the paradox of an impossible and yet necessary Christian ethics Volume II carries this discussion forward outlining the characteristics and conditions of Christian ethics It then treats the relationship between ethics and the legal texts of the Bible the relationship between ethics and dogmatic theology and

concludes by reimagining the theological use of the analogy of faith for scriptural interpretation In constant dialogue with Karl Barth Dietrich Bonhoeffer Paul Ricoeur and many other theologians and philosophers To Will To Do constitutes a major intervention in twentieth century theological ethics *The Oxford History of Anglicanism, Volume II* Jeremy Gregory, 2017-09-29 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non western societies today The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research The series forms an invaluable reference for both scholars and interested non specialists Volume two of The Oxford History of Anglicanism explores the period between 1662 and 1829 when its defining features were arguably its establishment status which gave the Church of England a political and social position greater than before or since The contributors explore the consequences for the Anglican Church of its establishment position and the effects of being the established Church of an emerging global power The volume examines the ways in which the Anglican Church engaged with Evangelicalism and the Enlightenment outlines the constitutional position and main challenges and opportunities facing the Church considers the Anglican Church in the regions and parts of the growing British Empire and includes a number of thematic chapters assessing continuity and change **The Works of Jonathan Edwards: Volume II - I** Jonathan Edwards, 2017-03-29 Mainly a collection of sermons and discourses on various theological subjects Edwards continues his monumental work on the topics of the Bible that explain simple things such as God's love to more complicated manner of salvation These topics will be an enlightening read for anyone who wishes to study theology in any formal way

Philosophical Foundations Friedrich Julius Stahl, 2022-01-12 Philosophical Foundations is an introduction to the philosophy of law but it also furnishes the foundations for a Christian philosophy In this ethically discombobulated time it provides us with the metaphysical and ethical tools to slash our way through the wilderness of ideologies and power craving opinions which threaten to overwhelm civilization Indeed a solid metaphysical and ethical framework is the crying need of our age and the indispensable presupposition for the various arts and sciences that make up the encyclopedia circle of learning The most basic datum such a framework can provide is very simply the either/or of a personal God from Whom all things originated or an ultimate reality that is impersonal That is the starting point for inquiry And it cannot be the case that the decision for an impersonal ultimate reality is a requirement for science Functional atheism can be no requirement for participation either in academia or in public life and policymaking Is science truly science that ignores the most basic fact of

existence the existence of God It cannot be so If there were a God and He created the world should that not be accepted because it is unscientific If reason really did not carry the world in itself and could not find the world out by itself would it nevertheless have to remove the world from itself because that alone would be scientific One might just as well require on the basis of science that man should not be born but rather should exist from eternity or that man should feed himself from himself without food or that the eye should see of itself without objects and their impressions from outside Scientificness demands that you be gods but the fact is that you are only human do you have to comply with scientificness Is it the trick to explain the world without God in and for itself regardless of whether the explanation is sufficient is this the essence and the glory of the scientific character It is no subjection of science to authority if one expects of it that its knowledge should correspond to the object No natural scientist will want to avoid the fact that his teaching must pass the test of the phenomena of nature and yet the philosopher should have the privilege of his teaching merely being seen as logically consistent in order to be considered true even if contradicted by all the facts even if it leaves the great object it is supposed to solve untouched The proof of the pudding is in the eating for the Christian worldview is the only key that unlocks the riddle of life the only explanation of the otherwise unfathomable reality in which we live

Northern Magill, 1958 **Systematic Theology Volume II** Charles Hodge D.D., 2016-11-09 The next volume in Hodge's monumental work in theology this work focuses on the state of humanity and the person of the Saviour Jesus Christ Outlining the biblical and philosophical arguments for topics such as the state of sin of all humanity and the person and work of Christ Hodge uses a well inclusive and thoughtful system of arguments for the theological thinking that he has in these topics

Systematic Theology: Volume II - The Doctrine of Man Augustus Hopkins Strong, 2017-04-09 This volume starts off by ending the last part of the first volume and then going into the human doctrine that is taught in the Bible Such topics such as the nature of humanity the nature of sin and what makes up the image of God within us is the bulk of the topics that are covered within this work Finishing off is some talk on the doctrine of the work and office of Christ and the topic of salvation and how that works out theologically Commentary on the Book of the Prophet Isaiah Volume II John Calvin, History

Kuan, 2019-05-20 For more than half a century the Anglican Diocese of Melbourne was unquestionably the most rigorously evangelical and missions oriented diocese in Australia The Diocese of Sydney in that same period was decidedly broader in theological and liturgical practice How and why did Melbourne move in one direction while Sydney in the other This study suggests that the answers are to be found in four vital contributors local churches evangelical societies theological colleges and diocesan bishops For three broad periods of history between 1847 and 1937 the presence of these four contributors is uncovered described and evaluated for the Diocese of Melbourne Evangelical activism theological reflection and leadership

are each shown in their contemporary contexts to help us understand how people with gospel passion sought to respond faithfully to their times This is the question of vision leadership and strategy at the heart of this study What makes for long term evangelical continuity over a hundred year period *The Works of Jonathan Edwards: Volume II - II* Jonathan Edwards, 2017-03-29 Bringing together a collection of letters between two theologians along with other observations and reflections this volume continues to open the mind of any person wishing to be a serious theologian While many know about the big names such as Calvin or Luther many do not give credence to some of the important landmark works that writers such as Edwards helped to promote **To Will & To Do** Jacques Ellul, 2021-04-28 To Will To Do presents one of the most significant theological contributions of the dynamic twentieth century thinker Jacques Ellul Benefiting from recent scholarship on Ellul and a discovery of a lost manuscript this new edition renders the full text available in English for the first time combining a fresh translation of volume I with a first English translation of volume II Together the two volumes constitute the introductory first part of Ellul s planned four part treatment of Christian ethics Volume I examines the origin of the problem of good and evil outlines the contemporary morality of Western society and provocatively sketches the paradox of an impossible and yet necessary Christian ethics Volume II carries this discussion forward outlining the characteristics and conditions of Christian ethics It then treats the relationship between ethics and the legal texts of the Bible the relationship between ethics and dogmatic theology and concludes by reimagining the theological use of the analogy of faith for scriptural interpretation In constant dialogue with Karl Barth Dietrich Bonhoeffer Paul Ricoeur and many other theologians and philosophers To Will To Do constitutes a major intervention in twentieth century theological ethics **Philosophical Foundations for a Christian Worldview** J. P. Moreland, William Lane Craig, 2003-03-31 Arguments are clearly presented and rival theories are presented with fairness and accuracy **BOOK JACKET Pneumatologia Or, A Discourse Concerning the Holy Spirit Volume II** John Owen, **The Reform of Christian Doctrine in the Catechisms of Peter Canisius** Thomas Flowers, S.J., 2023-07-03 The catechisms of Peter Canisius reveal the contours of the struggle within the Catholic Church to reframe Christian identity in response to the Protestant Reformation Canisius published his first catechism in 1555 and immediately achieved phenomenal publishing success Yet his catechisms received neither endorsement nor approbation from Rome Canisius s catechesis proposed a confident vision of Christian identity grounded in the practice of Catholic piety The Roman Curia increasingly conceived of catechesis as a defensive bulwark against Protestant assault Although Canisius s catechisms often appear in scholarship as representatives of a combative post Reformation style of defending Catholic orthodoxy the combat in which they actually engaged was internal to the Catholic Church over how to reframe post Reformation Catholic identity
