innovations      **EBOOK: Critical Theories of Mass Media: Then and Now** Paul Taylor, Jan Harris, 2007-12-16 This is a welcome critical corrective to complacent mainstream accounts of the media's cultural impact Prof Slavoj Žižek International Director of the Birkbeck Institute for the Humanities at Birkbeck University of London A powerful and highly engaging reassessment of past critical thinkers including those not normally thought of as critical in the light of today's mediascape Jorge Reina Schement Distinguished Professor of Communications Penn State University With the exception of occasional moral panics about the coarsening of public discourse and the impact of advertising and television violence upon children mass media tend to be viewed as a largely neutral or benign part of contemporary life Even when criticisms are voiced the media chooses how and when to discuss its own inadequacies More radical external critiques are often excluded and media theorists are frequently more optimistic than realistic about the negative aspects of mass culture This book reassesses this situation in the light of both early and contemporary critical scholarship and explores the intimate relationship between the mass media and the disempowering nature of commodity culture The authors cast a fresh perspective on contemporary mass culture by comparing past and present critiques They Outline the key criticisms of mass culture from past critical thinkers Reassess past critical thought in the changed circumstances of today Evaluate the significance of new critical thinkers for today's mass culture The book begins by introducing the critical insights from major theorists from the past Walter Benjamin Siegfried Kracauer Theodor Adorno Marshall McLuhan and Guy Debord Paul Taylor and Jan Harris then apply these insights to recent provocative writers such as Jean Baudrillard and Slavoj Žižek and discuss the links between such otherwise apparently unrelated contemporary events as the Iraqi Abu Ghraib controversy and the rise of reality television *Critical Theories of Mass Media* is a key text for students of cultural studies communications and media studies and sociology

*EBOOK: Using Visual Evidence* Richard Howells, Robert Matson, 2009-05-16 What do we mean by visual evidence How should we interpret visual texts and what can they tell us Why is visual literacy so important and what benefits does it offer Visual evidence encompasses a diverse range of media from painting cartoons and photography to film television and documentary The central argument of this book is that visual evidence is a key to understanding both history and the present day and should not be relegated to a supporting role as merely illustrating the written word The book shows students scholars and researchers how to read the visual media to elicit meaning As primary sources visual texts can be studied not only for what is directly depicted in the painting or film but also for what it tells us about the people cultures and societies that made them Each chapter features fascinating case studies and examples which situate theory in real life A major appeal of the book is the wealth of illustrations and photographs of visual texts which are included throughout The authors make detailed reference to these examples to illustrate the theory surrounding visual evidence An intriguing case study of an unknown girl's photo album is just one of many examples offered showing how we can analyze and learn from the visual text This comprehensive and insightful edited collection brings together international media and cultural theorists historians and

art historians to demonstrate the value of visual evidence not only to media and cultural studies but also to history the general humanities and the social sciences
