Growing Within Psychology Of Inner Development:

Growing Within Sri Aurobindo, Mother, 1992 In essence evolution is the progressive emergence of higher levels of consciousness With the appearance of man evolution has become an increasingly more conscious and accelerated process in contrast to the pre human stages Inner growth is the rapid process of conscious evolution Readings in Growing Within: The Psychology of Inner Development Santosh Krinsky, 2024-01-01 In Growing Within Dr A S Dalal bridges the gap between Western psychology and Eastern spirituality as he explores the detailed inner workings of human life and provides at the same time a way of understanding based on the ground breaking work of Sri Aurobindo and The Mother which puts the human potential for self exceeding front and center Dr Dalal has compiled this book from the writings of Sri Aurobindo and the Mother after first providing a detailed introduction and outline of their approach to the awakening and the growth of consciousness He calls upon the principles of yogic psychology to show us the way to move from our current state of human awareness to a new psychological status and a reversal of consciousness which brings about a sense of joy fulfillment and purpose in life Dr Dalal writes This book aims at shedding some light on the meaning nature and processes of inner development Its purpose is to help seekers in understanding and recognising the processes and experiences of inner growth so as to serve in some measure as a guide to those who may not have yet found a personal teacher and mentor The Readings in Growing Within systematically takes up each subject area covered in Dr Dalal s compilation with commentary to help the reader relate to and appreciate the depth and breadth of the yogic psychology described within the text **Readings in Living Within: The Yoga Approach to Psychological Health and Growth** Santosh Krinsky, 2023-10-10 What is psychological health and growth Western psychology tends to define psychological health as the absence of various forms of extreme disturbance or disruption Normal levels of dissatisfaction upset ness are considered to be both acceptable and part of everyday life It is only when someone experiences a psychological state that drifts into total disorientation violence suicidal thoughts or disassociation from the expectations of society that psychology labels the behavior as unhealthy or harmful There is however another way to look at the issue of psychological health and growth and that is to affirm the development of positive attributes as representing health Thus the individual can find and implement measures to create forward looking and positive directions in his life and contextualize the obstacles or issues that arise as challenges to be met and overcome along the way Western psychology has a very rudimentary view of human psychology perhaps due to the fact that as a science it has been around for a very short period of time and has not yet had the opportunity to look into the vast ranges of human psychology and the complexity of the various aspects of our being and their interaction with one another Nowadays as Western psychology has developed more emphasis is being placed on the wider field of human growth and empowerment and thus Western psychology is entering a field long known to the yogic practitioners of India who long ago codified the actions of mind life and body and found ways to enhance the developmental powers of existence Patanjali s Yoga

Sutras set forth a systematic approach to psychological development for instance Many yogic practices are based in a deep understanding of human psychology In the present volume Dr A S Dalal bridges the gap between Western psychology and Eastern spirituality as he explores the detailed inner workings of human life and provides at the same time a way of understanding based on the ground breaking work of Sri Aurobindo and The Mother which puts the human potential for self exceeding front and center Dr Dalal has compiled this book from the writings of Sri Aurobindo and the Mother after first providing a detailed introduction and outline of their approach to facing issues overcoming disturbances and enhancing peace creativity growth and satisfaction in life He calls upon the principles of yogic psychology to show us the way beyond reactions of anger fear anxiety and depression as well as how to achieve positive mental health and psychological growth from the Introduction

Looking from Within Sri Aurobindo, Mother, 1995 Three chief categories of seekers have been kept in view in selecting passages for this compilation those who wish to obtain a greater life mastery those who while pursuing the common goals of life also aim at something beyond the ordinary life and seek to grow towards a higher or spiritual state of being and those for whom spiritual growth is the primary purpose and occupation of life

Readings in Our Many Selves: Practical Yogic Psychology Santosh Krinsky, 2024-01-01 Who are we Why are we alive What are we here to do What is the meaning and significance of our lives These questions nag at us at times in our everyday lives until finally we take them up and try to unravel the mystery of our existence and the existence of the universal creation Sri Aurobindo and the Mother have taken up these questions and provided a way of understanding and a method for progress in finding and applying the solutions we find They do so by showing us the complex and multiple different selves that make up what we believe to be a unified external personality In fact we are not so simple and not so unified in our being There are conflicting drives and forces at work which create internal conflict and in many cases defeat us in the achievement of our highest goals and aspirations By understanding this complex makeup of our being we are able to find a path to liberation from this bondage without at the same time having to totally abandon all action in the world Our Many Selves Practical Yogic Psychology compiled by Dr A S Dalal from the writings of Sri Aurobindo and the Mother is an extremely useful text to aid us in the process of self discovery and self actualization It is a benefit to spiritual seekers regardless of the specific path followed as it is not based on any particular religious or philosophical dogma At the same time the deeper understanding provided by this text can aid even those who are not actively

and consciously practicing yoga for the sake of self knowledge or self realization as it will help each individual work through the pressures the internal debates and inner conflicts that frequently impact the individual's ability to act and succeed in their intended goals even when they are purely based on fulfilling the external personality. If we can understand the forces that bring us to feeding addictions procrastinating living an unhealthy and imbalanced lifestyle sabotaging our relations with others then we can begin to achieve a more harmonious and successful life however we choose to define success. Dr Dala states This book is meant to bear out Sri Aurobindo's oft quoted statement Yoga is nothing but practical psychology. Generally yoga is viewed as made up of certain set practices and certain rules and norms pertaining to one's outer life. In contrast to this view Our Many Selves present Yoga as consisting essentially in inner psychological work aimed at the transformation of consciousness.

Powers Within Sri Aurobindo, The Mother, 1999 The book throws light on the nature of various inner powers which we already possess and use more or less unconsciously as well as with latent powers within which are as yet undeveloped. The book is of interest to the general reader as well as to the spiritual seeker.

The Yoga of Sleep and Dreams Sri Aurobindo, Mother, 2004 The Yoga of Sleep and Dreams The Night School of Sadhana The practice of yoga continues day and night. This book aids the seeker in becoming conscious and turning sleep and dreams into the opportunity for real and substantial progress on the path of yoga. Introduced and compiled by Dr A S Dalal.

Our Many Selves Sri Aurobindo, Mother, 2003 Many of us face the difficulty of trying to change something in our nature only to find that it is either difficult or virtually impossible. The key to solving this problem actually lies in a deeper understanding of the true nature of our psychological being. We are actually composed of various different parts or planes of action that combine together interact with one another and impinge upon one another. This understanding allows us to differentiate between a mental idea a force of will an emotional movement a vital energy or a physical structure and thereby more clearly understand the results of our psychological efforts and growth activities.

How I came to Sri Aurobindo Sivakumar Elambooran, This memoir details the story of a sadhak practitioner of spirituality once a dyed in the wool agnostic who came to the practice of the Integral Yoga after a life altering spiritual experience in his twenty fourth year. Ignorant of spiritual literature at that time he accepted conventional medical wisdom that put down the experience to a psychosomatic disorder. He continued to coast along as an agnostic for about a decade after this experience believing all the while that medical attention was enough to

manage the condition It was the contact with the Integral Yoga of Sri Aurobindo that awoke him to the reality of the goings on within Until this first exposure to Aurobindonian philosophy and psychology he had rejected the subjective truth of the realities of his inner experiences This was simply because these realities did not fit into the scheme of things that his rational mind could then construct This book begins with a brief description of the spiritual experience alluded to and goes on to explore the tensions between interpretations of it as a medical problem and as a turning point in a life appropriated for a larger purpose It is the author's hope that this book will be of use to those considering taking up a spiritual life Moreover it is for those diagnosed with psychosomatic disorders The author would have achieved one of his main aims if the work throws new light on people with psychosomatic disorders

Readings in The Hidden Forces of Life Santosh Krinsky, 2024-01-01 We tend to live our lives in the belief that we are separate and isolated from one another We struggle to survive and thrive in a world where every other being is competing with us for their own survival and self aggrandisement In such a world we suffer from self doubt anxiety fear and pressure We subject ourselves to internal judgment when we fail to meet the standards we believe govern our lives and we project our desires needs thoughts and concerns onto others and judge them on that standard as well What we fail to recognise is that we are actually united with all other beings in an interactive fully unified reality and that what we think what we feel what we experience what we suffer and what we enjoy all is the result of forces active in the world that vibrate within us when we are receptive to them and thereby create the reactions we experience We are receiving and transmitting stations for these universal forces Dr Dalal points out in the Preface to this compilation Dealt with herein are the diverse forces which act on us determining the course of events influencing our thoughts feelings and actions affecting our moods health and level of energy pulling the human being to nether depths or beckoning him towards lofty heights Spoken of in this book are also the hidden forces behind evolution and beneficent forces which man can learn more and more to draw upon Many of the passages in the book not only explain the nature of the various forces but also provide practical guidance in relation to both helpful as well as deleterious forces The systematic review of The Hidden Forces of Life reveals much that is hidden and occult from our normal daily view provides us considerable food for reflection and inner growth and helps us to overcome the limitations we set upon ourselves through the inaccurate view of our separation and isolation from the rest of the creation
