Growing Up and Getting By John Horton, Helena Pimlott-Wilson, Sarah Marie Hall, 2022-10 This book explores how children young people and families cope with situations of socio economic poverty and precarity in diverse international contexts and looks at the evidence of the harms and inequalities caused by these processes **Childhood in a Global Perspective** Karen Wells, 2021-03-11 This popular book provides a compelling introduction to thinking about childhood in rigorous and critical ways Karen Wells offers a unique global perspective on children s lives showing how the notion of childhood varies widely and is continuously being radically re shaped Taking children seriously as active participants in society the book explores key social issues such as how children are constituted as raced classed and gendered subjects how school and work operate as sites for the governing of childhood and how children both shape and are shaped by politics culture and the economy Taking an engaging historical and comparative approach the book discusses wide ranging topics including children s rights the family play labour migration and trafficking In addition to updated literature throughout this revised third edition includes extensive new material on children s activism politics and war and a whole new chapter on juvenile justice The book will continue to be of great value to students and scholars in the fields of sociology geography social policy and development studies It will also be a valuable companion to practitioners whose work involves or impacts children as well as to anyone interested in childhood in the contemporary world **Global Childhoods** Stuart Aitken, 2013-09-13 This astute book initiates a broad discussion from a variety of different disciplines about how we place children nationally globally and within development discourses Unlike other books of its kind it does not seek to dwell solely on the abiding complexities of local comparisons Rather it elaborates larger concerns about the changing nature of childhood young people s experiences their citizenship and the embodiment of their political identities as they are embedded in the processes of national development and globalization In particular this book concentrates on three main issues nation building and developing children child participation and activism in the context of development and globalization and children s live in the context of what has been called the end of development These are relatively broad research perspectives that find focus in what the authors term reproducing and developing children as a key issue of national and global concern They further argue that understanding children and reproduction is key to understanding globalization *Children and Young People's Relationships* Samantha Punch, Kay Tisdall, 2016-04-08 This book challenges the current state of childhood studies by exploring children and young people s agency and relationships It considers how recent theorisations of relationships and relational processes can move childhood studies forward particularly in relation to re thinking claims of children and young people s agency and uncritical assertions around children and young people s participation and voice It does this by bringing together case studies of children s inter generational and intra generational relationships from both the Majority and

Minority Worlds The main themes include negotiated power agency across contexts and negotiations of identity The chapters show both the heritage of childhood studies particularly within the UK and where it may be going One of the key aims of the book is to add to the limited but growing cross world dialogue that encourages cross cultural learning from research and practice in both Majority and Minority World contexts leading towards a more integrated global approach to childhood studies This book was published as a special issue of Children s Geographies

Diverse Spaces of Childhood and Youth Ruth Evans,Louise Holt,2016-04-08

Diverse Spaces of Childhood and

Youth focuses on the diverse spaces and discourses of children and youth globally. The chapters explore the influence of gender, age and other socio-cultural differences such as race, ethnicity and migration trajectories on the everyday lives of children and youth in a range of international contexts. These include the diverse urban environments of Istanbul, Copenhagen, Helsinki, Toronto, London and Bratislava and the contrasting rural settings of Ghana and England. The analyses of children's young people's parents and professionals' experiences and discourses provide critical insights into how gender and other socio-cultural differences intersect. The importance of everyday practices and performances in the formation of children's and young people's identities is revealed through, for example, friendships and everyday sociality, mobilities and movements across space in both rural and urban environments. The volume shows how discourses of childhood, particularly those associated with risk, intersect with difference. The recognition of young people's agency and participation is central to many of the chapters whilst also raising methodological questions about how discourses of childhood and youth are researched. Overall, the book provides an original contribution to geographies of children, youth and families and research on diversity and difference in global contexts. This book was published as a special issue of *Children's Geographies*. [The SAGE Encyclopedia of Children and Childhood Studies](#) Daniel Thomas Cook, 2020-04-20. The SAGE Encyclopedia of Children and Childhood Studies navigates our understanding of the historical, political, social and cultural dimensions of childhood. Transdisciplinary and transnational in content and scope, the Encyclopedia both reflects and enables the wide range of approaches, fields and understandings that have been brought to bear on the ever-transforming problem of the child over the last four decades. This four-volume encyclopedia covers a wide range of themes and topics including Social Constructions of Childhood, Children's Rights, Politics, Representations, Geographies, Child-specific Research Methods, Histories of Childhood, Transnational Childhoods, Sociology, Anthropology of Childhood, Theories and Theorists, Key Concepts. This interdisciplinary encyclopedia will be of interest to students and researchers in Childhood Studies, Sociology, Anthropology, Psychology, Education, Social Welfare, Cultural Studies, Gender Studies, Disability Studies. *The Bloomsbury Handbook of Theories in Childhood Studies* Sarada Balagopalan, John Wall, Karen Wells, 2023-11-02. The Bloomsbury Handbook of Theories in Childhood Studies brings together an international group of childhood studies scholars who work with a range of critical theories. It speaks to both scholars and students by addressing questions such as how childhoods are diversely constructed and how children's experiences can be better understood. The volume draws together a diversity of theoretical perspectives from the social sciences and humanities such as critical race studies, disability studies, posthumanism, feminism, politics, decolonialism, queer theory and postcolonialism to generate a much-needed conversation about how to move childhood studies forward as a grounded field of research. The volume is subdivided into three sections: subjectivities, relationalities and structures, each of which addresses different but interrelated approaches to childhood studies theorization. This handbook will be an essential text not just for childhood studies researchers but for all those interested in theorizing what childhood is, what

work it does and who children are *The Palgrave Handbook of Childhood Studies* J. Qvortrup, W. Corsaro, M. Honig, 2016-04-30 A landmark publication in the field this state of the art reference work with contributions from leading thinkers across a range of disciplines is an essential guide to the study of children and childhood and sets out future research agendas for the subject **Young People, Place and Identity** Peter E. Hopkins, 2013-05-13 *Young People Place and Identity* offers a series of rich insights into young people's everyday lives What places do young people engage with on a daily basis How do they use these places How do their identities influence these contexts By working through common sense understandings of young people's behaviours and the places they occupy the author seeks to answer these and other questions In doing so the book challenges and re-shapes understandings of young people's relationships with different places and identities The textbook is one of the first books to map out the scales themes and sites engaged with by young people on a daily basis as they construct their multiple identities The scales explored here include the body neighbourhood and community mobilities and transitions and urban rural settings and how these all shape and are shaped by young people's identities Each chapter explores how social identities such as race gender sexuality class disability and religion are constructed within particular contexts and influenced by multiple processes of inclusion and exclusion These discussions are supported by details of the research methods and ethical issues involved in researching young people's lives Drawing upon research from a range of contexts including Europe North America and Australasia this book demonstrates the complex ways in which young people creatively shape contest and resist their engagements with different places and identities The range of issues topics and case studies explored include ethical and methodological issues in youth research youth subcultures experiences of home territorialism youth and crime political engagement and participation responses to global issues engagements with different institutional contexts negotiating public space the transition to adulthood drinking cultures The author explores these issues through blending together original empirical research theory and policy Individual chapters are supported by key themes project ideas and suggested further reading Details of key authors journals and research centres and organisations are also included at the end of the book This textbook will be pertinent for undergraduate and postgraduate students and academic researchers interested in better understanding the relationships between young people places and identities **Begging As a Path to Progress** Kate Swanson, 2010-07-01 In 1992 Calhuas an isolated Andean town got its first road Newly connected to Ecuador's large cities Calhuas experienced rapid social spatial change which Kate Swanson richly describes in *Begging as a Path to Progress* Based on nineteen months of fieldwork Swanson's study pays particular attention to the ideas and practices surrounding youth While begging seems to be inconsistent with or even an affront to ideas about childhood in the developed world Swanson demonstrates that the majority of income earned from begging goes toward funding Ecuadorian children's educations in hopes of securing more prosperous futures Examining beggars organized migration networks as well as the degree to which children can express agency and fulfill personal

ambitions through begging Swanson argues that Calhuas s beggars are capable of canny engagement with the forces of change She also shows how frequent movement between rural and urban Ecuador has altered both masculinizing the countryside and complicating the Ecuadorian conflation of whiteness and cities Finally her study unpacks ongoing conflicts over programs to clean up Quito and other major cities noting that revanchist efforts have had multiple effects spurring more dangerous transnational migration for example while also providing some women and children with tourist friendly local spaces in which to sell a notion of Andean authenticity

Society and Social Changes through the Prism of Childhood

Hanne Warming,2023-09-19 This book presents a new childhood studies research program namely Childhood Prism Research and offers unique childhood research contributions to the wider scholarly field Bringing together cutting edge childhood studies scholars from various disciplines including philosophy psychology feminism anthropology sociology and literature the book demonstrates the rich potential of this program and offers an introduction to the childhood prism theoretical framework as well as examples of childhood prism research Childhood prism research is underpinned by a distinct childhood studies approach that involves re thinking the generational order perspective and combining this with a relational ontology and a flat non adultist epistemology The key assumption is that the study of children s lives can offer not only insights into adults lives and vice versa but in some cases may even offer a privileged lens onto broader societal issues The program embraces a number of seemingly oppositional positions in an ongoing debate within childhood studies and children s geographies about how to reinvigorate theoretical thinking within these fields Featuring leading childhood studies scholars from various disciplines including philosophy psychology feminism anthropology sociology and literature this book demonstrates the rich potential of the program and shows how researching children s and young people s lives using this approach holds great promise for significant theoretical development beyond the field of children s geographies and childhood studies as well as for empirical exploration of broader societal issues Society and Social Changes Through the Prism of Childhood will be a key resource for academics researchers and advanced students of Childhood Studies Sociology Human Geography Social Sciences and Psychology The chapters included in this book were originally published as a special issue of Children s Geographies
