Kpim of Environment Fr. Pantaleon Foundation, 2024-10-08 *Kpim of Environment* is a superb book crafted from assembled and peer reviewed articles focusing on the fundamental issues that build sustain or degrade the environment. There is no doubt the modern world is seriously faced with diverse challenges especially that of having a healthy environment. What is it that causes the environment to become a threat? The focus of this book is to interrogate what ought to be the core issues and expectations of making our environment our world a better and safer place in the contemporary time or in the era of global heating. Established scholars have explored the various aspects of the complex environment in development and highlighted what the underlying issues are through integral reflection, intersectionality theory and practice, resilience and sustainability in the changing world. By working out the issues in their fields of specialization and interest, the authors very insightfully offered instances and strategies to manage the environment in ways that will allow faith, reason and action in discerning policy and outcomes of environmental intelligence and care. The unique voices of the authors are not only revealing but also irresistible to be ignored on the question of reason, faith and environment. You will discover how philosophical, theological and applied scientific knowledge crisscrossed the weaving of the essays together to strike a meaningful outcome. The book is organized in three sections with running chapters for each article including a book review on cutting to the resilience and general conclusion. By scrutinizing the meaning of environment for adaptation and growth through technology, reason and faith, this book offers a glimpse and in depth analysis of what the competing issues are and will keep readers and systematic policy work busy for many years ahead.

Insurgency and War in Nigeria Akali Omeni, 2019-12-12 Boko Haram is the major threat to the Nigerian state and has emerged as a destabilizing factor across sub-Saharan Africa. This is now a major focus of global policy making as between 2013 and 2014 insurgency related deaths in Nigeria exceeded those in Iraq and Afghanistan. This book is the first to focus on the military nature of Boko Haram, the reasons for its success in those specific regions of the Chad basin it operates in and a detailed history of the Nigerian army's counter insurgency with whom uniquely the author has spent research time. The book identifies and analyses the battles and skirmishes on the front line as well as unearthing a wider explanation for Boko Haram's military success and the causes of the instability in the region.

Movers and Shakers Stephen Ellis, Ineke van Kessel, 2009-11-15 Mobilization against apartheid, the campaign against blood diamonds, the women's movement in Liberia where Africa's first female head of state was elected in 2005, these are all examples of socially based movements that have had a major effect on Africa's recent history. Yet the most influential theories concerning social movements worldwide have paid little heed to Africa, basing themselves more often on cases drawn from other continents. This volume draws together contributions from some leading writers on social movements in Africa, setting empirical studies alongside a couple of theoretical chapters. Africa's social movements have distinctive features that are related to the continent's specific history.
