Harmattan A Philosophical Fiction Insurrections Critical Studies In Religion Politics And Culture:

Harmattan Michael D. Jackson, 2015-04-21 We all experience qualms and anxieties when we move from the known to the unknown Though our fulfillment in life may depend on testing limits our faintheartedness is a reminder of our need for security and our awareness of the risks of venturing into alien worlds Evoking the hot dust filled Harmattan winds that blow from the Sahara to the Gulf of Guinea this book creatively explores what it means to be buffeted by the unforeseen and the unknown Celebrating the life giving potential of people places and powers that lie beyond our established worlds Harmattan connects existential vitality to the act of resisting prescribed customs and questioning received notions of truth At the book's heart is the fictional story of Tom Lannon a graduate student from Cambridge University who remains ambivalent about pursuing a conventional life After traveling to Sierra Leone in the aftermath of its devastating civil war Tom meets a writer who helps him explore the possibilities of renewal Illustrating the fact that certain aspects of human existence are common to all people regardless of culture and history Harmattan remakes the distinction between home and world and the relationship between knowledge and life

Infinite Greed Adrian Johnston, 2024-05-14 Selfishness is essential to capitalism or so both advocates and opponents claim In *Infinite Greed* Adrian Johnston argues that this consensus is mistaken Through a novel synthesis of Marxism and psychoanalysis he reveals how the relentless pursuit of profits is not fundamentally animated by human acquisitiveness Instead capitalism's strange infinite greed demands that individuals sacrifice their pleasures their well being and even themselves to serve inhuman capital Johnston traces the mechanisms that compel capitalist subjects to obey the cold imperative to accumulate in perpetuity and without limits and also without regard for the consequences for everyone and everything else Facing crises such as spiraling wealth inequality and the profit driven prospect of a looming ecological apocalypse the rational self interest of the majority would seem to dictate putting a stop to capitalist accumulation By bringing together the Marxian critique of political economy with psychoanalytic metapsychology Johnston shows why and how capitalism rather than being responsive to people's rationally selfish interests disregards and overrides them instead Unlike previous syntheses of Marxism and psychoanalysis *Infinite Greed* pairs Freudian and Lacanian concepts with the economic heart of Marx's historical materialism In so doing Johnston brings to light the complex intertwining of political and libidinal economies keeping us invested and complicit in perpetuating capitalism and its ills

Energy and Change Clayton Crockett, 2022-09-27 As humanity continues to consume planetary resources at an unsustainable rate we require not only new and renewable forms of energy but also new ways of understanding energy itself Clayton Crockett offers an innovative philosophy of energy that cuts across a number of leading edge disciplines Drawing from contemporary philosophies of New Materialism non Western traditions and the sciences he develops a comprehensive vision of energy as a material process spanning physics biology politics ecology and religion Crockett argues that change is foundational to material reality which is ceaselessly self organizing We can observe energy's effects in the operations of natural selection as well as those at work in

human societies Matter and energy are not an oppositional binary rather they are expressions of how change functions in the universe Ultimately Crockett argues we can conceive of God neither as a deity nor as a being but as the principle of change Informed by cutting edge theoretical discourses in thermodynamics science studies energy humanities systems theory continental philosophy and radical theology Energy and Change draws on theorists such as Gilles Deleuze Catherine Malabou Slavoj Žižek Karen Barad Bruno Latour and Kojin Karatani as well as ideas about spirituality society and nature from Amerindian Vodou and Neo Confucian traditions A foundational work in New Materialist philosophy of religion this book offers compelling new insights into the structure of the cosmos and our place in it **The Work of Art** Michael D. Jackson, 2016-10-25 How are we to think of works of art Rather than treat art as an expression of individual genius market forces or aesthetic principles Michael Jackson focuses on how art effects transformations in our lives Art opens up transitional ritual or utopian spaces that enable us to reconcile inward imperatives and outward constraints thereby making our lives more manageable and meaningful Art allows us to strike a balance between being actors and being acted upon Drawing on his ethnographic fieldwork in Aboriginal Australia and West Africa as well as insights from psychoanalysis religious studies literature and the philosophy of art Jackson deploys an extraordinary range of references from Bruegel to Beuys Paleolithic art to performance art Michelangelo to Munch to explore the symbolic labor whereby human beings make themselves both individually and socially out of the environmental biographical and physical materials that affect them a process that connects art with gestation storytelling and dreaming and illuminates the elementary forms of religious life
