This book argues that translation regularly involves transmediation: the telling of a story across media and vice versa, and that transmediation is a specific form of translation. Beyond the classic examples, the book also takes the reader on a worldwide tour and examines, among other things, the role of Soviet science fiction in North Korea, the ethical uses of *Lego Star Wars* in a Brazilian context, and the history of Latin translation in children's literature. Bringing together scholars from more than a dozen countries and language backgrounds, these cross-disciplinary essays focus on regularly overlooked transmediation practices and terminology such as book cover art, trans-sensory storytelling, cartoon freakment, foreignizing
