

What

In order to configure and load funds into your mailing machine, you must first set up a connection between the mailing machine and the server. This document shows you the steps required to manually configure your mailing machine's LAN connection settings.

A LAN connection allows software updates to be performed remotely and automatically as well as postage rates updates and funds download.

Why

If your mailing machine cannot connect through your LAN using the default LAN connection settings, it will be necessary to manually configure the settings.

How

The instructions below will walk you through manually configure the LAN connection settings in the mailing machine.

You will be performing the following steps:

1. Removing the PSD.
2. Configuring your network settings.
3. Inputting your proxy information if applicable.

Before you begin, your network administrator will need to supply you with the following information:

- IP Address
- Subnet Mask
- Default Gateway IP Address
- Preferred DNS IP Address
- Alternate DNS IP Address
- Proxy URL
- Proxy Port Number
- Proxy Login Name
- Proxy Login Password
