Political Pamphlets and Sermons from Wales 1790-1806 Marion Löffler, 2014-10-15 Pamphleteering was a vital component of the popular political discussion opened up by the French Revolution of 1789 but while the English pamphlet wars have been exhaustively explored Welsh pamphlet literature has been ignored During the fifteen years following the French Revolution of 1789 over 100 Welsh pamphlets and sermons engaged in a public discourse which discussed the larger issues raised by the Revolution and the war against the French Republic This pioneering volume seeks to capture the excitement of the period by demonstrating how radicals and loyalists Dissenters Methodists and Churchmen pacifists and warmongers engaged in a lively argument in their published works An in depth essay reviews and interprets texts written by artisans Dissenting ministers country curates and Anglican bishops who all used religion as politics promoted war or peace argued over republicanism and loyalism and utilized the law as a stage for political ideas All texts are fully translated and thus made accessible to an English speaking audience for the first time

The Little Book of Wales Mark Lawson-Jones, 2013-05-01 Did You Know Wales is the only nation in the United Kingdom not to be represented on the Union Jack During the First World War Cardiff was the largest coal port in the world Guglielmo Marconi sent the first ever wireless communication over open sea from Wales The Little Book of Wales is an intriguing fast paced fact packed compendium of places people and history in Wales Here we find out about the country's food sports eccentric inhabitants famous sons and daughters and literally hundreds of wacky facts plus some authentically bizarre bits of historic trivia A reference book and a quirky guide this can be dipped into time and again to reveal something new about the people the heritage the secrets and the enduring fascination of Wales A remarkably engaging little book this is essential reading for visitors and locals alike

Remembering the Cultural Geographies of a Childhood Home Peter Hughes Jachimiak, 2016-04-08 Using an innovative auto ethnographic approach to investigate the otherness of the places that make up the childhood home and its neighbourhood in relation to memory derived and memory imbued cultural geographies *Remembering the Cultural Geographies of a Childhood Home* is concerned with childhood spaces and children's perspectives of those spaces and

The Mystery of Doggerland Graham Phillips, 2023-07-25 A scientific exploration of the advanced ancient civilization known as Doggerland or Fairland that disappeared 5 000 years ago Looks at the latest archaeological and scientific evidence preserved beneath the North Sea and on the tiny island of Fair Isle Examines Doggerland's sophisticated technology including how its people were able to melt solid rock to create vitrified structures far stronger than concrete Shows how the survivors of the destruction of Doggerland sailed to the British Isles and established the megalithic culture that built Stonehenge New marine archaeological evidence has revealed the remains of a large landmass to the north of Britain that hosted an advanced civilization 1 000 years before the recognized first civilizations of ancient Egypt Mesopotamia or India Remembered in Celtic legends as Tu lay and referred to by geologists as Doggerland or Fairland this civilization began at least as early as 4000 BCE but was ultimately destroyed by rising sea levels huge tsunamis and a terrible viral epidemic released from melting permafrost during a cataclysmic period of global warming Exploring the latest archaeological findings and recent scientific analysis of Doggerland's underwater remains Graham Phillips shows that this ancient culture had sophisticated technology and advanced medical knowledge He looks at evidence detected with remote sensing and seismic profiling of many artificial structures complex settlements gigantic earthworks epic monoliths and huge stone circles dated to more than 5 500 years ago preserved beneath the ground and on the ocean floor He also looks at the small part of the Fairland landmass that still exists Fair Isle a tiny island some 45 miles north of the Orkney Islands of Scotland Phillips shows how when Fairland sank beneath the waves around 3100 BCE its last survivors traveled by boat to settle in the British Isles where they established the megalithic culture that built Stonehenge Revealing the vast archaeological evidence in support of the existence of Doggerland as well as its threads of influence in early cultures around the world Phillips also shows how the fate of this sophisticated ancient culture is a warning from history the cataclysmic events that happened to the first civilizations could happen again as the world heats up

Wisdomkeepers of Stonehenge Graham Phillips, 2019-06-18

Reveals how Stonehenge was an extraordinary astronomical calendar used in the cultivation of ingredients for long forgotten botanical cures Explores how Stonehenge and other stone circles were ancient healing sanctuaries and celestial calculators for the preparation of natural medicines Explains how the megalithic priesthood and their successors the Druids developed astonishing memory techniques to preserve knowledge over generations Draws upon the very latest discoveries from recent archaeological excavations and overlooked historical source material Stonehenge is just one of thousands of stone circles erected throughout Britain and Ireland for over three millennia from 3 000 BC on How did this building tradition survive for so long over such a large area and with such complexity and uniformity when the people of the British Isles lived in separate isolated communities and left no evidence of a central leadership or obvious communication network Graham Phillips argues that these stone circles are evidence of an astonishing system of healthcare and preservation of ancient medical knowledge that held together a society scattered across the British Isles With stones aligned to the sun moon and certain stars these ancient monuments enabled the precise timings necessary for the cultivation of medicinal plants He explains how the megalithic priesthood possessed medical knowledge well beyond their time and may even have discovered a cure for cancer Furthermore because they had no form of writing the megalithic people developed phenomenal memory techniques to preserve their knowledge over many generations resulting in a class of wisdomkeepers that were not only healers but the living libraries of their culture Drawing upon the latest discoveries from recent archaeological excavations and overlooked historical source material Phillips reveals that the megalithic culture survived far longer than previously thought and that the people who held it together were an enigmatic shamanic sect ultimately called the Druids Uncovering the secrets of ancient megalithic culture and the purpose of their enigmatic stone circles Phillips contends that all the evidence has now been gathered to unlock the secrets encoded in the stones and perhaps discover remedies for diseases still uncured by modern medicine today
