Watsuji Tetsurô's Global

Ethics of Emptiness Anton Luis Sevilla, 2017-08-31 This book is a rethinking of ethics and socio political life through the ideas of Watsuji Tetsur. Can we build a systematic philosophy of morality, society and politics not on the basis of identity and ego but rather on the basis of selflessness? This book explores such an attempt by the leading ethicist of modern Japan. Using concrete examples and contemporary comparisons and with careful reference to both English and Japanese sources it guides the reader through Watsuji's ideas. It engages three contemporary issues in depth: First, how do we approach the moral agent as an autonomous being or as a fundamentally relational being? Second, is it the individual or the community that is the starting point for politics? And finally, is ethics something that is globally shared or something fundamentally local? This book aims to be an informative and inspiring resource for researchers, students and laypersons interested in Buddhist thought.

Anthropology Matters, Third Edition Shirley A. Fedorak, 2017-04-05 The third edition of this bestselling book introduces readers to anthropology and the world around it by connecting important concepts to current global issues. A question-based approach encourages readers to understand specific issues in a broader cross-cultural context while building an appreciation for anthropology's role in developing global citizenship. This edition has been updated and revised throughout, including discussion of technology, design, anthropology and the effects of social media on cultural change. As well, two new chapters, one on global responsibility for refugees and the other on human trafficking as a form of modern-day slavery, make the text particularly relevant. *The SAGE Handbook of Evolutionary Psychology* Todd K.

Shackelford, 2021-08-04 Evolutionary psychology is an important and rapidly expanding area in the life, social and behavioral sciences, and this Handbook represents the most comprehensive and up-to-date reference text in the field today. Over three volumes, the Handbook provides a rich overview of the most important theoretical and empirical work in the field. Chapters cover a broad range of topics, including theoretical foundations, the integration of evolutionary psychology with other life, social and behavioral sciences, as well as with the arts and the humanities, and the increasing power of evolutionary psychology to inform applied fields including medicine, psychiatry, law and education. Each of the volumes has been carefully curated to have a strong thematic focus: covering the foundations of evolutionary psychology, the integration of evolutionary psychology with other disciplines, and the applications of evolutionary psychology. *The SAGE Handbook of Evolutionary Psychology* is an essential resource for researchers, graduate students and advanced undergraduate students in all areas of psychology and in related disciplines across the life, social and behavioral sciences. *Essentials of Global Health* Richard Skolnik, 2008-07-03 From the Publisher *Essentials of Global Health* is just one offering in Jones and Bartlett's new Essential Public Health series. Read This to Get Smarter Blair Imani, 2021-10-26 An approachable guide to being an informed compassionate and socially conscious person today from discussions of race gender and sexual orientation to disability class and beyond from critically acclaimed historian educator and author Blair Imani Blair answers the questions that so many of us are asking Layla F Saad author of *Me and White Supremacy* We live in a time where it has never been more important to be knowledgeable about a host of social issues and to be confident and appropriate in how to talk about them What s the best way to ask someone what their pronouns are How do you talk about racism with someone who doesn t seem to get it What is intersectionality and why do you need to understand it While it can seem intimidating or overwhelming to learn and talk about such issues it s never been easier thanks to educator and historian Blair Imani creator of the viral sensation Smarter in Seconds videos Accessible to learners of all levels from those just getting started on the journey to those already versed in social justice Read This to Get Smarter covers a range of topics including race gender class disability relationships family power dynamics oppression and beyond This essential guide is a radical but warm and non judgmental call to arms structured in such a way that you can read it cover to cover or start with any topic you want to learn more about With Blair Imani as your teacher you ll get smarter in no time and be equipped to intelligently and empathetically process discuss and educate others on the crucial issues we must tackle to achieve a liberated equitable world [An Echo of Silence](#) Kameel Ahmady, 2021, ۱۳۹۹ ۱۳۹۹ An Echo of Silence A Comprehensive Research Study on Early Child Marriage ECM in Iran Kameel Ahmady Whilst working on the issue of female genital mutilation in Iran In the Name of Tradition in this book Kameel Ahmady also brought a focus to the early marriage of children and high rates of this harmful phenomenon in Iran He conducted a two year study on child marriage in the seven provinces of Khorasan Razavi East Azerbaijan Khuzestan Sistan and Baluchistan West Azerbaijan Hormozgan and Isfahan drawing on official country statistics The results of this research have been published in Farsi Kurdish and English languages According to the religious structure of Iran maturity for girls begins with the first monthly menstruation considered as the threshold of transition from childhood to adulthood which happens around age of 9 This physical and biological threshold means being able to marry regardless of the actual age and ability to govern your marital life Although early marriage applies to both young girls and boys in fact the bitter reality of the society indicates that the consequences and effects of the phenomenon of child marriage on girls are far more serious and dangerous Undoubtedly social investment in girls expanding their social and economic capital and ensuring their access to education and health services is a clear driver towards gender equality to provide for stronger communities but child marriage does the contrary A lack of independent and credible studies on child marriage in Iran means there is little

information and data but according to the legal adviser of the Iranian Judiciary the official and state statistics suggest that between 500 to 600 thousand children per year Iran are getting married and these are only the statistics for marriages that officially registered without including those outside the formal marriage process Now there are around 14 000 child widows in the country and according to estimates from the United Nations 17 percent of all marriages in Iran are under the age of 18 Further some men who have more than one spouse in Iran do not register their child marriages and hide them This comprehensive research first attempts to analyse the prevalence of child marriage in Iran with an emphasis on socio cultural factors that reflect the profound and deep rooted inequalities which have contributed to the persistence of child marriage in Iran The scientific reason for doing this research is to explain the evidence and prevalence of this traumatic practice in Iran and to assist government decision makers in focusing on the immediate protection of these children s human rights This book as an effort to expose and deepen understandings of the issue of child marriage in Iran has attracted the attention of civil activists government policymakers and some parliamentary representatives and MPs It has provided the background to proposals for raising the minimum age for child marriage amending Article 1041 of the Civil Code This proposal was approved by the House of Representatives in an emergency and with a majority of votes but unanimously rejected by the Majlis Legal and Judicial Commission As the only fieldwork study these research findings were predicated on producing civil society advocacy and the need for parliament to amend the law In the community level the research has raised a wave of public awareness leading to a serious civil society demand for a ban on child marriage and raising the age of marriage from 13 to 16 for girls and from 15 to 18 for boys [early_child_marriage](#) [child_marriage_in_Islam](#) [age_of_marriage_in_Iran](#) [cohabitation_in_Iran](#) [white_marriage](#) [white_marriage_in_Iran](#) [female_gentle_mutilation_or_cutting](#) [female_gentle_mutilation_in_iran](#) [female_gentle_cutting_in_iran](#) [FGM_in_Iran](#) [Human_rights_in_Iran](#) [feminization_and_poverty_in_Iran](#) [divorce_rates_in_Iran](#) [divorce_laws_in_Iran](#) [marriage_laws_in_Iran](#) [virginity_in_Iran](#) [Creativity — A Sociological Approach](#) Monika E. Reuter,2015-09-17 Introducing the first macro sociological perspective on the concept of creativity this book includes a review of ten domains which have studied creativity It also explores the results of a six year on going research project comparing students ideas on creativity with employers and industry professionals views *The Modernization of the Western World* John McGrath,Kathleen Callanan Martin,2024-08-01 Covering Western history from the ancient world to the current era of globalization The Modernization of the Western World describes the forces of social change and what they have meant to the lives of the people caught up in them The volume presents the history of Western civilization from a historical sociology perspective introducing readers to the analyses of thinkers like mile Durkheim Karl Marx Adam Smith Ferdinand T nnies and Max Weber in order to provide tools for understanding how societies function and change This application of modernization theory argues not that what has happened in the West should or even must happen in non Western societies but that understanding modernization as a process of social change affords a better understanding of why

and how life has changed over the past millennium The interactions of Western and non Western societies have had a profound effect on each other this is the story of the development of a truly global economy This new edition has been updated to include a final chapter which addresses recent developments economic disturbances in the global marketplace cyberwarfare and the rise of populist movements testing the relevance of classic modernization theory for today Featuring a glossary maps and illustrations boxed features and an extensive index this book will be of particular interest to students looking to understand world history as well as those interested in historical sociology and modernization theory *The Kula* Martha MacIntyre,1983-05-19

introdutivă presupune în esență o formă de contract cu cititorul. Acesta se așteaptă ca autorul să dezvolte răspunsuri la principalele întrebări pe care un novice și le poate adresa. Cu siguranță lucrările introductive de antropologie culturală nu trebuie să constituie o excepție. În primul rând autorul unei asemenea cărți trebuie să prezinte clar ce este antropologia generală care sunt principalele domenii ale sale și care sunt subiectele tratate în fiecare domeniu. Apreciez că este totodată necesară prezentarea unor aspecte ce țin de istoria și filosofia antropologiei. Fără a cunoaște trecutul disciplinei nu se poate înțelege utilitatea și evoluția ei. În al doilea rând autorul trebuie să evidențieze aparatul teoretic și să prezinte terminologia specifică antropologiei. În al treilea rând este necesară expunerea detaliată a metodelor și tehnicilor intrinseci antropologiei.

The Naturally Good Man Rod E. Keays, 2013-03-13 Men inherit definitions about manhood but many of these definitions no longer fit. A society that was once based on power assumptions and stereotypes is changing. Few people take time to learn about the history of male oppression, the foundations of male masculinity and the evolution of the modern man. Join author Rod E. Keays as he examines these important topics and more including why boys and men accept certain roles, why men bully each other, why it's important to deal with emotions and why it's so hard for men to talk about sexuality. Keays explores his own experiences coping with the twists and turns that come with being a man. One thing he learns early on is that most men don't talk about their emotional highs and lows. As someone who likes to talk openly and frankly, he feels isolated but he continues living life on his terms. Discover what good men have been doing for thousands of years and how men's groups can help men achieve their goals. The world may have its share of problems but The Naturally Good Man continues to contribute to society.

Communication Between Cultures Larry A. Samovar, Richard E. Porter, 1995 This text gives students an understanding and appreciation of different cultures and provides them with the practical skills for improving their communication with people from other cultures. It provides excellent motivation for students through compelling and numerous examples that force them to examine their own assumptions and cultural biases. The text is organized into three parts: the first defines both communication and culture and then makes the argument that intercultural communication is behavior that can be learned. The second part takes the elements of communication such as perception, listening, verbal and non-verbal communication and shows how those elements vary among different cultures. The authors then focus on these elements within contexts of business and education. The final part addresses the future of intercultural communication.
