Rapid Weight Loss Hypnosis For Women Mary Pegson, Many people don t believe in hypnosis and faced with irrefutable results try to rationalize They are right That is the hypnotist does not have a magic wand that will make for example the extra pounds disappear Sometimes those who turn to him have already done a part of the path have already become aware of their problem and have decided to solve it Why does hypnosis work Certainly not because the therapist has some strange paranormal powers but on the contrary because the mind of each of us has unlimited resources Your mind has immense potential and hypnosis can be the button that turns on the right light bulb And this works extremely well when you have weight to lose hypnosis can make your extra pounds disappear and give you the perfect shape you have been looking for for
