Now I Can See The Moon Alice Tallmadge,2025-07-30 In the 1980s and 1990s a mind boggling social panic over child sex abuse swept through the country landing childcare workers in prison and leading hundreds of women to begin recalling episodes of satanic ritual abuse and childhood abuse by family members *Now I Can See the Moon A Story of a Social Panic False Memories and a Life Cut Short* is a deeply personal account of the devastating impact the panic had on one family In trying to understand the suicide of her twenty three year old niece a victim of the panic the author discovers that what she thought was an isolated tragedy was in fact part of a much larger social phenomenon that sucked in individuals from all walks of life convincing them to believe the unbelievable and embrace the most aberrant claims as truth

Mike Kelley John Miller,2015-01-30 An illustrated

examination of a 1995 work by Mike Kelley that marked a significant change in his work One of the most influential artists of our time Mike Kelley 1954 2012 produced a body of innovative work mining American popular culture as well as modernist and postmodernist art relentless examinations of subjectivity and of society that are both sinister and ecstatic With a wide range of media Kelley s work explores themes as varied as post punk politics religious systems social class and repressed memory Using architectural models to represent schools he attended his 1995 work Educational Complex presents forgotten spaces as frames for private trauma real or imagined The work s implications are at once miniature and massive In this book John Miller offers an illustrated examination of this milestone work that marked a significant change in Kelley s practice A complex can mean an architectural configuration a psychological syndrome or a political apparatus and Miller approaches Educational Complex through corresponding lines of inquiry considering the making of the work examining it in terms of education and trauma sexual or otherwise and investigating how it tests the ideological horizon of art as an institution Miller shows that in Educational Complex Kelley expands his political and aesthetic focus including not only such artifacts as generic forms of architecture but inspired by the infamous McMartin Preschool case popular fantasies associated with ritual sex abuse and false memory syndrome Through this archaeology of the contemporary Miller argues Kelley examines the mandate for education and the liberal democratic premises underpinning it

Denied! Failing Cordelia: Parental Love and Parental-State Theft in Los Angeles Juvenile Dependency Court Simon Cambridge, 2019-09-17 Climbing the Broken Judicial Ladder continues the author s journey of exploring the heartbreak and loss of first adopting Cordelia with severe reactive attachment disorder RAD in Washington state and then of nearly losing her to the draconian and confused child welfare legal complex in Los Angeles In this third volume of his Denied Failing Cordelia trilogy Cambridge climbs the broken California judicial ladder from the California Court of Appeals Second Appellate District based in Los Angeles to the California Supreme Court Cambridge concludes that in appeals relating to dependency cases the ladder is broken for parents seeking to advocate for themselves and for the true best interests of their children Policies relating to child welfare are flawed Cambridge argues because of the preemptive and prejudicial response to the issues raised during the detention of children As with his two earlier books Cambridge explores issues connected with how best to parent his adopted daughter and advocate for her needs in the context of a dependency case Cordelia s reactive attachment disorder would surface throughout the judicial struggle as would the author s own struggles with Asperger syndrome Each would feed negatively into the overall trauma and drama of the author s unrelenting quest to reunite his forever family Cambridge believes that dependency proceedings are ill equipped on many levels to elicit a proper understanding of RAD or of the therapeutic parenting needed to address it Cambridge believes that adoptive parents of children with special needs need to be understood by more sympathetic social workers and by therapists trained in attachment disorders Cambridge s persistent efforts to reunite his forever family would leave him increasingly isolated as he climbs the judicial ladder Based on his

experiences Cambridge explores areas for reform in Los Angeles dependency proceedings and evokes Shakespeare's King Lear by arguing that social workers need to see better and that the Los Angeles Juvenile Dependency Court needs to encourage a broader understanding of the issues raised through more effective legal advocacy from assigned dependency lawyers Cambridge argues that parents should be allowed to address the court directly Cambridge also relates how he and his daughter have found many positive and healthy ways to heal in the years since their dependency case ended Much trauma could have been avoided if those around them had seen better and had recognized the value in their dramatic and loving adoption journey

A Delicate Choreography David Sabeen, 2023-10-24 The origins of the incest taboo have puzzled many of the most influential minds of the West from Plutarch to St Augustine St Thomas Aquinas Martin Luther David Hume Lewis Henry Morgan Sigmund Freud Emile Durkheim Edward Westermarck and Claude Lévi Strauss This book puts the discussion of incest on a new foundation It is the first attempt to thoroughly examine the rich literature from philosophical theological and legal treatises to psychological and biological genetic studies to a wide variety of popular cultural media over a long period of time The book offers a detailed examination of discursive and figurative representations of incest during five selected periods from 1600 to the present The incest discussion for each period is complemented with a presentation of dominant kinship structures and changes without arguing for causal relations Part I deals with the legacy of ecclesiastical marriage prohibitions of the Middle Ages Historians dealing with the Reformation have wondered about the political and social implications of theological debates about the incest rules the Enlightenment opted for sociological considerations of the household and a new anthropology based on the passions Baroque discourse focused upon sexual relations among kin by marriage while Enlightenment and Romantic discussions worried the intimacy of siblings The first section of Part II deals with the six decades around 1900 during which European and American cultures obsessed about the sexuality of women Almost everyone concurred in the idea that mother made the family what it was that she configured the household kept the lines of kinship vibrant and stood at the threshold as stern gatekeeper and many thought that she managed these tasks through her sexuality and an eroticized relationship with sons Another story line taken up in the section Intermezzo this one about the physical and mental consequences of inbreeding appeared after 1850 To what extent do close kin marriages pose risks for progeny At its center lay the incest problematic now restated Is avoidance of kin genetically programmed Do all cultures know about risks of consanguinity As for the twenty first century evolutionary and genetic assumptions are challenged by a living world population containing roughly one billion offspring of cousin marriages Part III deals with one of the perhaps most remarkable reconfigurations of Western kinship in the aftermath of World War I The shift from an endogamous to an exogamous alliance system centered on the nuclear family An historical anomaly this family form began to dissolve almost as soon as it came together and in the process shifted the focus of incest concerns to a new pairing father and daughter By the 1970s when the father daughter problematic swept all other considerations of incest aside that

relationship had come to be modeled for the most part around power and its abusive potential As for incest its representations in the last three decades of the twentieth century no longer focused on biologically damaged progeny but rather on power abuses in the nuclear family sexual abuse By the mid 1990s Western culture at least partly redirected its gaze away from father and daughter towards siblings especially towards brothers and sisters and the sexual boundaries and erotics of their relationships Correspondingly siblings became a model organism for psychotherapy evolutionary biology and the science of genetics

Scientific Values and Civic Virtues Noretta Koertge, 2005-08-04 This volume of contributed essays a follow up to Noretta Koertge's successful book on the science wars *A House Built on Sand* takes an affirming positive view of the relationship between the values embodied in science and the nature of a civil society It argues that recent attacks on the probity of science undermine the possibility of rational discourse in the political arena While science has traditionally been viewed as incorporating intellectual virtues like honesty and precision of language the contributors to this volume point to additional benefits examining the idea that science can serve as a source of and inspiration for civic virtues in the need to be well informed about the way the world works in tolerating the viewpoints of others and in functioning as a fully global enterprise dedicated to the public good The contributors who include philosophers political scientists physicists biologists and engineers look at examples of scientific virtues in action and how they might be used as inspirations and practical resources for improving civic society The volume will appeal to a similarly broad audience interested in the relationship between science and society

False memories of sexual abuse: the underestimated danger Hans Delfs, 2024-07-25 Memories change over time because they are constantly being reconstructed This can also result in memories of experiences that never existed The way the brain works does not differentiate between real and imagined content Pseudo memories arise particularly easily in psychotherapy through suggestive speculation about traumas suffered such as sexual abuse Those undergoing therapy are firmly convinced of the reality of these false memories They suffer just as much as those who were really abused They blame innocent people Families are destroyed livelihoods are threatened and there are only losers It gets particularly bad when conspiracy theories of ritual abuse and victim programming are involved

Failing Cordelia Simon Cambridge, 2014-08-30 The Cankered Rose and Esther's Revenge begins the author's dramatic journey of adopting his teenage daughter with severe attachment issues in Seattle The heartbreak of then seeing Cordelia stolen by the efforts of his former wife and the child welfare legal complex in Los Angeles alongside that of the trauma of being denied during efforts to reunify with her are each foreshadowed here Issues surrounding adoption trauma parenting children with reactive attachment disorder and the author's own struggles with Asperger's syndrome will be his constant companions on this perilous journey of adopting losing and then trying to reunite with his beloved daughter In this and subsequent volumes the author will also be questioning the ability of the child welfare legal complex and the Los Angeles Juvenile Dependency Court to understand the nature of damaged child attachment or the therapeutic parenting needed to heal children with special needs Ultimately each would be as responsible for failing Cordelia as the breaking of the violent waves for the shattering movement of the rocks on the beach
