Poetry in Sagas of Icelanders Margaret Clunies Ross, 2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders considering why and how it is deployed Sagas of Icelanders also called family sagas are the best known of the many literary genres that flourished in medieval Iceland most of them achieving written form during the thirteenth and early fourteenth centuries Modern readers and critics often praise their apparently realistic descriptions of the lives loves and feuds of settler families of the first century and a half of Iceland's commonwealth period c AD 970 1030 but this ascription of realism fails to account for one of the most important components of these sagas the abundance of skaldic poetry mostly in dróttkvætt court metre which comes to saga heroes lips at moments of crisis These presumed voices from the past and their integration into the narrative present of the written sagas are the subject of this book It investigates
