Catalog of Copyright Entries Library of Congress. Copyright Office, 1967 **Aesthetics of the Familiar** Yuriko

Saito,2017 Yuri Saito explores the nature and significance of the aesthetic dimensions of people's everyday life. Everyday aesthetics has the recognized value of enriching one's life experiences and sharpening one's attentiveness and sensibility. Saito draws out its broader importance for how we make our worlds environmentally morally as citizens and consumers. Saito urges that we have a social responsibility to encourage cultivation of aesthetic literacy and vigilance against aesthetic manipulation. Yuri Saito argues that ultimately everyday aesthetics can be an effective instrument for directing the humanity's collective and cumulative world making project for the betterment of all its inhabitants. Everyday aesthetics has been seen as a challenge to contemporary Anglo American aesthetics discourse which is dominated by the discussion of art and beauty. Saito responds to controversies about the nature boundary and status of everyday aesthetics and argues for its legitimacy. She highlights the multi faceted aesthetic dimensions of everyday life that are not fully accounted for by the commonly held account of defamiliarizing the familiar. Airless Worlds and the Restoration of Psychic Breathing Steven Stern, 2025-08-11 This book focuses on the recognition and psychoanalytic treatment of a debilitating form of early relational trauma poignantly described by Steven Stern as airless world syndrome. A patient can be said to be living in an airless world when one or both parents have failed to recognize or worse actively negated their child's subjective experience and needs instead imposing their subjective reality on the child such that the child had no choice but to adopt the parents reality as their own. When a child's mind is captured in this way what Stern calls identification with negation the result is an unconscious bondage to the internalized negating other which can be disabling to the senses of self personal agency and realness. With extended clinical examples in every chapter Stern brings the reader into the depths of each patient's airless world and the co created needed relationship that ultimately fitfully transforms it. Written in a detailed yet accessible style this book is invaluable to psychoanalysts and psychotherapists in practice and in training.
