Kant and Eighteenth-Century German Philosophy Andree Hahmann,Stefan Klingner,2023-10-04 The purpose of this anthology is to bring together in one volume some of the texts published in the series Werkprofile which focus on Kant s relationship to his philosophical contemporaries and predecessors and to make them accessible to a wider audience in English In doing so the volume is aimed at those who have an interest in better understanding the premises of Kant s philosophy its historical context and the development of many of Kant s fundamental ideas As it is often hard to glean philosophical motivation directly from reading Kant s texts understanding Kant s commitment to answering certain questions and his silence on others requires a historical approach This broader purview will also be helpful for grasping deeper systematic questions at work throughout Kant s philosophy The anthology thus aims at inviting a more wide angled view of Kant s philosophy by focusing on overlooked references and historical figures Scholarship on these references is still at an early stage even though important steps have been taken in this direction in recent years The aim of our volume is to build on this development and to supplement and expand the content of existing research

Kant and the Problem of Self-Knowledge Luca Forgione,2018-10-17 This book addresses the problem of self knowledge in Kant s philosophy As Kant writes in his major works of the critical period it is due to the simple and empty representation I think that the subject s capacity for self consciousness enables the subject to represent its own mental dimension This book articulates Kant s theory of self knowledge on the basis of the following three philosophical problems 1 a semantic problem regarding the type of reference of the representation I 2 an epistemic problem regarding the type of knowledge relative to the thinking subject produced by the representation I think and 3 a strictly metaphysical problem regarding the features assigned to the thinking subject s nature The author connects the relevant scholarly literature on Kant with contemporary debates on the huge philosophical field of self knowledge He develops a formal reading according to which the unity of self consciousness does not presuppose the identity of a real subject but a formal identity based on the representation I think

Narratives of fear and safety Kaisa Kaukiainen,Kaisa Kurikka,Hanna Mäkelä,Elise Nykänen,Sanna Nyqvist,Juha Raipola,Anne Riippa,Hanna Samola,2020-09-01 The essays in this edited volume written in English and French tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media The articles bring forth new cross cultural interpretations on fear and safety through examining what kinds of genre specific means of world making narratives use to express these two affectivities The articles also show how important it is to study these themes in order to understand challenges in times of global threats such as the

climate crisis The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations Recent trends in research such as affect and risk theory serve as the basis for the discussion The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals lives and propose ways of coping with fear These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape Dystopian narratives do not only deal with future threats such as totalitarianism technocracy or environmental disasters but also suggest alternative ways of being and new hopes in the form of political resistance *Populism and Heritage in Europe* Ayhan Kaya,2019-09-25

Populism and Heritage in Europe explores popular discourses about European and national heritage that are being used by specific political actors to advance their agendas and to prevent minority groups from being accepted into European society Investigating what kind of effect the politics of fear has on these notions of heritage and identity the book also examines what kind of impact recent events and crises have had on the types of European memories and identities that have been promoted by the supporters of right wing populist parties Based on qualitative fieldwork conducted in six countries this book specifically analyses how anti European identities are being articulated by right wing populist individuals Providing an analysis of the manifestos speeches and official documents of such parties the book examines how they instrumentalise xenophobia Islamophobia Euroscepticism globalisation and international trade in European spaces to mobilise the masses hit by financial crisis and refugee crisis Drawing on in depth interviews with the sympathisers of populist movements Kaya provides some insights into the main motivations of these individuals in resorting to nativist and populist discourses whilst also providing a thorough analysis of the use of the past and heritage by such parties and their followers *Populism and Heritage* provides a unique insight into one of the most contested trends of the contemporary age As such the book should be of great interest to those working in the fields of heritage studies cultural studies politics sociology anthropology philosophy and history *John's Relationship with Mark* Ian D. Mackay,2004 This book is a literary historical enquiry into the relationship between John and Mark with special emphasis on the feeding saga in each Because of the differences between these key canonised texts the question of how their differences are to be understood is important in regard to our understanding of Biblical authority and interpretation and in particular of the meaning and importance of the Eucharist The research finds that the writers of John s Gospel knew Mark and that John shows a certain degree of influence from it both positive and negative Ian D Mackay surveys the debate to date looks at general literary and strategic similarities and differences between John and Mark and then analyses John 6 in comparison with Mark 6 8 and certain other related texts in Mark The detailed analysis of the debate the points of literary similarity between the two Gospels as a whole and the emergence of Markan strategies lifted from Mark and applied in John to supporting a literary agenda virtually contrary to

that of Mark especially in regard to the roles of the disciples and the crowds in the plot of each as a whole may well be useful for those interested in the question of how the four Gospels relate to one another The Publishers' Trade List Annual ,1887

The Child's View of the Third Reich in German Literature Debbie Pinfold,2001-08-23 This book examines the ways in which German authors have used the child's perspective to present the Third Reich It considers how children at this time were brought up and educated to accept unquestioningly National Socialist ideology and thus questions the possibility of a traditional naive perspective on these events Authors as diverse as Günter Grass Siegfried Lenz and Christa Wolf together with many less well known writers have all used this perspective and this raises the question as to why it is such a popular means of confronting the enormity of the Third Reich This study asks whether this perspective is an evasive strategy a means of gaining new insights into the period or a means of discovering a new language which had not been tainted by Nazism This raises and addresses issues central to a post war aesthetic in German writing **Major 20th-century Writers** Bryan Ryan,1991 VOL 1 A D VOL 2 E K VOL 3 L Q VOL 4 R Z INDEXES **The Miracle Years** Hanna Schissler,2020-12-08 Stereotypical descriptions showcase West Germany as an economic miracle or cast it in the narrow terms of Cold War politics Such depictions neglect how material hardship preceded success and how a fascist past and communist sibling complicated the country's image as a bastion of democracy Even more disappointing they brush over a rich and variegated cultural history That history is told here by leading scholars of German history literature and film in what is destined to become the volume on postwar West German culture and society In it we read about the lives of real people from German children fathered by black Occupation soldiers to communist activists from surviving Jews to Turkish guest workers from young hoodlums to middle class mothers We learn how they experienced and represented the institutions and social forces that shaped their lives and defined the wider culture We see how two generations of West Germans came to terms not only with war guilt division from East Germany and the Angst of nuclear threat but also with changing gender relations the Americanization of popular culture and the rise of conspicuous consumption Individually these essays peer into fascinating overlooked corners of German life Together they tell what it really meant to live in West Germany in the 1950s and 1960s In addition to the editor the contributors are Volker R Berghahn Frank Biess Heide Fehrenbach Michael Geyer Elizabeth Heineman Ulrich Herbert Maria Hahn Karin Hunn Kaspar Maase Richard McCormick Robert G Moeller Lutz Niethammer Uta G Poiger Diethelm Prowe Frank Stern Arnold Sywottek Frank Trommler Eric D Weitz Juliane Wetzel and Dorothee Wierling
