You'll discover the science-backed principles of happiness: what truly makes people feel fulfilled, simple daily habits that increase joy, gratitude, and inner peace, how to shift your mindset from stress and negativity to optimism and purpose, the power of mindfulness, kindness, and connection to boost long-term happiness, how to let go of perfectionism, comparison, and self-doubt that block true joy, whether you're seeking more balance, deeper fulfillment, or simply a happier way of living. *The Happiness Formula for Everyday Joy* will give you the tools and practices to create a life of peace, positivity, and lasting happiness. The Happy Life Formula Nils Salzgeber, 2018-04-13 Want to feel more alert, energetic, and alive? Do you dream of acting with more generosity, compassion, and forgiveness? Or do you just wish to exhibit greater control over how you feel? The solution to these questions lies in the new science of happiness, a science that explains precisely what determines our level of happiness and outlines the simple changes we can make to reliably and consistently alter how we feel. The truth is, everybody wants to be happy, but none of us know how happiness works. We look for it in our careers, faster cars, more money, hotter bodies, or better TV shows. In other words, we're chasing after it. But happiness isn't something to be chased after; it's something to be practiced, that's what 20 years of research proves unequivocally. It's just one of many unfounded truisms we buy into that keep us from becoming happy. We learn how to solve all kinds of problems and math equations in school, but we're never taught the science of happiness and how to apply it. This book changes that.
