Spatharas, 2017 The study of emotions and emotional displays has achieved a deserved prominence in recent classical scholarship The emotions of the classical world can be plumbed to provide a valuable heuristic tool Emotions can help us understand key issues of ancient ethics ideological assumptions and normative behaviors but more frequently than not classical scholars have turned their attention to social emotions requiring practical decisions and ethical judgments in public and private gatherings The emotion of disgust has been unwarrantedly neglected even though it figures saliently in many literary genres such as iambic poetry and comedy historiography and even tragedy and philosophy This collection of seventeen essays by fifteen authors features the emotion of disgust as one cutting edge of the study of Greek and Roman antiquity Individual contributions explore a wide range of topics These include the semantics of the emotion both in Greek and Latin literature its social uses as a means of marginalizing individuals or groups of individuals such as politicians judged deviant or witches its role in determining aesthetic judgments and its potentialities as an elicitor of aesthetic pleasure The papers also discuss the vocabulary and uses of disgust in life Galli actors witches homosexuals and in many literary genres ancient theater oratory satire poetry medicine historiography Hellenistic didactic and fable and the Roman novel The

Introduction addresses key methodological issues concerning the nature of the emotion its cognitive structure and modern approaches to it It also outlines the differences between ancient and modern disgust and emphasizes the appropriateness of projective or second level disgust vilification as a means of marginalizing unwanted types of behavior and stigmatizing morally condemnable categories of individuals The volume is addressed first to scholars who work in the field of classics but since texts involving disgust also exhibit significant cultural variation the essays will attract the attention of scholars who work in a wide spectrum of disciplines including history social psychology philosophy anthropology comparative literature and cross cultural studies Death and Disease in the Ancient City Valerie M. The book also introduces the term cultural imagination as a tool for thinking about ancient myth and religion and avoiding the question of belief which arises mainly from creed based religions The book s conclusion compares dream reports in the Classical world with modern attitudes towards dreams and dreaming identifying distinctive features of both the world of the Romans and our own culture Toni Morrison's 'Beloved' Justine Tally, 2008-11-18 This work expands the scope of Morrison's project to examine the ways and means of memory in the preservation of belief systems passed down from the earliest civilizations both the Classical Greek and the Ancient Egyptian as a challenge to the sterility of modernity Moreover this research explores the author's specific use of Foucauldian theory as a vehicle for her narrative which reclaims the very origins of civilization s primal concerns with life procreation and regeneration springing from the very Heart of Africa Despite the weight of white authority and the disparaging of blackness Beloved s multiple ghosts conjure up a legacy so potent that no authoritarian discourse has been able to entirely erase it a legacy that still speaks to us from a heritage we no longer acknowledge yet that nevertheless remains and sustains us
