Trapped Under the Sea Neil Swidey,2015-02-17 The harrowing story of five men who were sent into a dark airless miles long tunnel hundreds of feet below the ocean to do a nearly impossible job with deadly results A quarter century ago Boston had the dirtiest harbor in America The city had been dumping sewage into it for generations coating the seafloor with a layer of black mayonnaise Fisheries collapsed wildlife fled and locals referred to floating tampon applicators as beach whistles In the 1990s work began on a state of the art treatment plant and a 10 mile long tunnel its endpoint stretching farther from civilization than the earth s deepest ocean trench to carry waste out of the harbor With this impressive feat of engineering Boston was poised to show the country how to rebound from environmental ruin But when bad decisions and clashing corporations endangered the project a team of commercial divers was sent on a perilous mission to rescue the stymied cleanup effort Five divers went in not all of them came out alive Drawing on hundreds of interviews and thousands of documents collected over five years of reporting award winning writer Neil Swidey takes us deep into the lives of the divers engineers politicians lawyers and investigators involved in the tragedy and its aftermath creating a taut action packed narrative The climax comes just after the hard partying DJ Gillis and his friend Billy Juse trade assignments as they head into the tunnel sentencing one of them to death An intimate portrait of the wreckage left in the wake of lives lost the book which Dennis Lehane calls extraordinary and compares with The Perfect Storm is also a morality tale What is the true cost of these large scale construction projects as designers and builders emboldened by new technology and pressured to address a growing population s rapacious needs push the limits of the possible This is a story about human risk how it is calculated discounted and transferred and the institutional failures that can lead to catastrophe Suspenseful yet humane Trapped Under the Sea reminds us that behind every bridge tower and tunnel behind the infrastructure that makes modern life possible lies unsung bravery and extraordinary sacrifice      Australian Journal of Physics ,1988
