one and two brewers respectively closes an amazing epoch in beer history This book charts the fascinating rise of these two brewing giants as they showed that dealmaking provided a faster path to profit growth than any sales hike could ever accomplish The importance of deals those made and those missed is also visible in the track record of Heineken and Carlsberg the brewers on the next two rungs of the global ladder While all of these brewers pursued the goal of building empires each had different reasons and faced a variety of obstacles along the way Sharing a keen interest in the brewing industry not to mention a passion beer two economists Ina Verste and Ernst Faltermeier have provided a timely out of the box analysis of globalisation
