How Outer Space Made America Geography Organization And The Cosmic Sublime:

How Outer Space Made America Daniel Sage, 2016-04-29 In this innovatory book Daniel Sage analyses how and why American space exploration reproduced and transformed American cultural and political imaginations by appealing to and to an extent organizing the transcendence of spatial and temporal frontiers In so doing he traces the development of a seductive and powerful yet complex and unstable American geographical imagination the transcendental state Historical and indeed contemporary space exploration is despite some recent notable exceptions worthy of more attention across the social sciences and humanities While largely engaging with the historical development of space exploration it shows how contemporary cultural and social and indeed geographical research themes including national identity critical geopolitics gender technocracy trauma and memory can be informed by the study of space exploration Multiculturalism,

Multilingualism and the Self: Literature and Culture Studies Jacek Mydla, Małgorzata Poks, Leszek Drong, 2017-07-31 This edited collection explores the conjunction of multiculturalism and the self in literature and culture studies and brings together essays by prominent researchers interested in literature and culture whose critical perspectives inform discussions of specific examples of multicultural contexts in which individuals and communities strive to maintain their identities The book is divided into two major parts the first of which comprises literary representations of multiculturalism and discussions of its impasses and impacts in fictional circumstances In turn the second part primarily focuses on culture at large and real life consequences Taken together the two complementary parts offer an illuminating and well rounded overview of representations of multiculturalism in literature and contemporary culture from a variety of critical perspectives **The**

Routledge Handbook of Social Studies of Outer Space Juan Francisco Salazar, Alice Gorman, 2023-07-10 The Routledge Handbook of Social Studies of Outer Space offers state of the art overview of contemporary social and cultural research on outer space International in scope the thirty eight contributions by over fifty leading researchers and artists across a variety of disciplines and fields of knowledge present a range of debates and pose key questions about the crafting of futures in relation to outer space The Handbook is a call to attend more carefully to engagements with outer space empirically affectively and theoretically while characterizing current research practices and outlining future research agendas This recalibration opens profound questions of intersectional politics race equity and environmental justice around the contested topics of space exploration and life off Earth Among the many themes included in the volume are the various infrastructures networks and systems that enable and sustain space exploration space heritage the ethics of outer space social and environmental justice fundamental debates about life in outer space as it pertains to both astrobiology and SETI the study of scientific communities the human body and consciousness Indigenous astronomical systems of Knowledge contemporary space art and ongoing critical interventions to overcome the legacies of colonialism and dismantle hegemonic narratives of outer space Chapter 33 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com>

under a Creative Commons Attribution CC BY 4.0 license **Ripples on the Cosmic Ocean** Dagomar Degroot, 2025-10-28 Changes in cosmic environments from solar storms to asteroid impacts have altered the course of history Tracing how such events shaped geopolitics and spurred scientific and cultural innovation Dagomar Degroot asks what comes next as the solar system becomes increasingly vulnerable to human activity [Exploring Ethnography of Outer Space](#) Jenia Gorbarenko, David (Jeeva) Jeevendrampillai, Adryon Kozel, 2025-01-31 This book explores new methods and perspectives in the anthropology of outer space For the past ten years scholarship of outer space has grown significantly in the social sciences Now an international community of anthropologists is starting to produce significant contributions to this work This is pushing the conversations around the future of humanity technology and outer space beyond the realm of speculative theory into concrete challenges to established norms within anthropology Each chapter in this volume introduces a unique take on what constitutes an ethnographic field in anthropology They signal a re imagination of the central concept for the discipline and offer a timely meditation on the shift in anthropology's understanding of fieldwork from its inception until now The volume consists of eleven ethnographic chapters plus an introduction by the editors and two invited responses Each of the main body chapters presents a distinct approach to situating outer space empirically on Earth By bringing together emerging and established scholars this book ultimately posits that an anthropological approach to outer space requires creative approaches to ethnography that are no longer exclusively premised on a co presence with the people under study A primer of innovative ethnographies and an ideal companion to courses on methods this volume will provide students with a body of accessible contemporary work on futurisms and outer space In addition this book will serve as a snapshot of a moment in ethnographically innovative anthropology that will be relevant to a wider academic audience through its exegesis of new methods for the study of distributed communities The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives ShareAlike CC BY NC SA 4.0 license *Earth, Cosmos and Culture* Oliver Tristan Dunnett, 2021-04-19 This book traces the development of diverse British cultures of outer space utilizing key geographical concepts such as landscape place and national identity It examines the early visionary ideas of writers H G Wells and Olaf Stapledon the ambitious British space programme of the 1960s and narrations of British cultural identity that accompanied the space missions of Helen Sharman Beagle 2 and Tim Peake The exploration of British cultures of outer space throughout the book helps understand the emergence of the British Interplanetary Society It also explains its significance in pre war and post war periods through an analysis of the roles of influential figures such as Arthur C Clarke and Patrick Moore The chapters explore utopian and dystopian representations of space exploration examine the mysterious phenomenon of UFO culture and consider plans for humanity's imagined future across interstellar space Throughout the book geography is advocated as a home for critical studies of outer space illuminating its significance in terms of the reciprocal relationships between exploration and the

sublime science and the imagination Earth and cosmos As an emergent field of research in the social sciences this book makes an excellent contribution to the study of the outer space in Britain and abroad developing a distinctive kind of outer spatial geography with major implications for future teaching and research

Technology and World Politics Daniel R. McCarthy, 2017-08-03 This edited volume provides a convenient entry point to the cutting edge field of the international politics of technology in an interesting and informative manner Technology and World Politics introduces its readers to different approaches to technology in global politics through a survey of emerging fusions of Science and Technology Studies and International Relations The theoretical approaches to the subject include the Social Construction of Technology Actor Network Theory the Critical Theory of Technology and New Materialist and Posthumanist approaches Considering how such theoretical approaches can be used to analyse concrete political issues such as the politics of nuclear weapons Internet governance shipping containers the revolution in military affairs space technologies and the geopolitics of the Anthropocene the volume stresses the socially constructed and inherently political nature of technological objects Providing the theoretical background to approach the politics of technology in a sophisticated manner alongside a glossary and guide to further reading for newcomers this volume is a vital resource for both students and scholars focusing on politics and international relations

Critical Terms in Futures Studies Heike Paul, 2019-12-02 This volume provides the essential vocabulary currently employed in discourses on the future in 50 contributions by renowned scholars in their respective fields which examine future imaginaries across cultures and time Not situated in the field of futurology proper it comes at future studies sideways and offers a multidisciplinary treatment of a critical futures vocabulary The contributors have their disciplinary homes in a wide range of subjects history cultural studies literary studies sociology media studies American studies Japanese studies Chinese studies and philosophy and critically illuminate numerous discourses about the future or futures past and present In compiling such a critical vocabulary this book seeks to foster conversations about futures in study programs and research forums and offers a toolbox for discussing them with an adequate degree of complexity

Yearbook on Space Policy 2014 Cen'an Al-Ekabi, Blandina Baranes, Peter Hulsroj, Arne Lahcen, 2015-12-24 The Yearbook on Space Policy edited by the European Space Policy Institute ESPI is the reference publication analysing space policy developments Each year it presents issues and trends in space policy and the space sector as a whole Its scope is global and its perspective is European The Yearbook also links space policy with other policy areas It highlights specific events and issues and provides useful insights data and information on space activities The first part of the Yearbook sets out a comprehensive overview of the economic political technological and institutional trends that have affected space activities The second part of the Yearbook offers a more analytical perspective on the yearly ESPI theme and consists of external contributions written by professionals with diverse backgrounds and areas of expertise The third part of the Yearbook carries forward the character of the Yearbook as an archive of space activities The Yearbook is designed for government decision makers and agencies industry

professionals as well as the service sectors researchers and scientists and the interested public **Space Tourism** Erik Cohen, Sam Spector, 2019-09-06 This is the first comprehensive multi disciplinary work on the emergent phenomenon of space tourism It is written by leading specialists and covers a wide spectrum of topics including space history and technology the environmental social and legal aspects of the development of a future space tourism industry and space tourism marketing *What Is Geography?* Alastair Bonnett, 2023-06-23 Geography is fundamental to understanding the way the world works This text offers readers a short and highly accessible account of the ideas and concepts constituting geography Including discussion of both the human and the natural realms the text looks at key themes such as environment space and place as well as geography s methods and the history of the discipline showing us how and why they are essential for a thriving planet Introductory but not simplified Bonnett provides students with the ability to understand the history and context of the subject without any prior knowledge This short elegant book will be of interest to all readers intrigued by the geographical imagination **Routledge Handbook of China-India Relations** Kanti Bajpai, Selina Ho, Manjari Chatterjee Miller, 2020-02-25 The Routledge Handbook of China India Relations provides a much needed understanding of the important and complex relationship between India and China Reflecting the consequential and multifaceted nature of the bilateral relationship it brings together thirty five original contributions by a wide range of experts in the field The chapters show that China India relations are more far reaching and complicated than ever and marked by both conflict and cooperation Following a thorough introduction by the Editors the handbook is divided into seven parts which combine thematic and chronological principles Historical overviews Culture and strategic culture constructing the other Core bilateral conflicts Military relations Economy and development Relations with third parties China India and global order This handbook will be an essential reference work for scholars interested in International Relations Asian Politics Global Politics and China India relations **Globalizing Automobility** Gijs Mom, 2020-08-07 Why has car society proven so durable even in the face of mounting environmental and economic crises In this follow up to his magisterial *Atlantic Automobility* Gijs Mom traces the global spread of the automobile in the postwar era and investigates why adopting more sustainable forms of mobility has proven so difficult Drawing on archival research as well as wide ranging forays into popular culture Mom reveals here the roots of the exuberance excess and danger that define modern automotive culture **Great Power Politics in the Fourth Industrial Revolution** Glenn Diesen, 2021-03-25 Why and how will the fourth industrial revolution impact great power politics Here Glenn Diesen utilizes a neoclassical approach to great power politics to assess how far the development of AI national and localized technological ecosystems and cyber warfare will affect great power politics in the next century The reliance of modern economies on technological advances Diesen argues also compels states to intervene radically in economics and the lives of citizens as automation radically alters the economies of tomorrow A groundbreaking attempt to contextualize the fourth industrial revolution and analyse its effects on politics and international relations *The New*

Border Wars Klaus Dodds, 2021-09-28 An enlightening look at contemporary border tensions from the Gaza Strip to the space race by one of the world's leading experts in geopolitics Border expert Klaus Dodds journeys into the geopolitical clashes of tomorrow in an eye-opening tour of border walls both literal and figurative In the Himalayas the Mediterranean and elsewhere the tension inherent to trying to divide the world into separate parcels has not gone away And with climate change shifting our natural borders from mountains to glaciers to rivers the question of how we live in a world that's becoming warmer and wetter and growing in population looms large With wide-ranging insight and provocative analysis Dodds shows why we are more likely to see more walls barriers and securitization in our daily lives The *New Border Wars* examines just what borders truly mean in the modern world How are they built what do they signify for citizens and governments and how do they help us understand our political past and most importantly our diplomatic future *Place and Phenomenology* Janet Donohoe, 2017-03-17 This cross-disciplinary book uses phenomenological method and description to explore questions of place underscoring the significance of phenomenology for place and place for phenomenology The book brings together prominent scholars in phenomenology of place Covering a range of issues from sacred places to embodiment and identity and from environmental art and architecture to limit places the contributors explore theoretical foundations through thinkers such as Heidegger Marion Young Husserl and Leopold among others Phenomenological method and description are brought to bear on concrete places such as rivers the Himalayas modern transit sacred architecture and more The book is accessible and pertinent to on-going discussions in human geography architectural theory environmental studies and philosophy of place Provocative and imaginative the essays provide a much-needed look at the contributions of phenomenology to as well as the role of place in contemporary philosophical and environmental discussions *Debating Humanity* Daniel Chernilo, 2017-04-20 *Debating Humanity* explores sociological and philosophical efforts to delineate key features of humanity that identify us as members of the human species After challenging the normative contradictions of contemporary posthumanism this book goes back to the foundational debate on humanism between Jean Paul Sartre and Martin Heidegger in the 1940s and then re-assesses the implicit and explicit anthropological arguments put forward by seven leading postwar theorists self-transcendence Hannah Arendt adaptation Talcott Parsons responsibility Hans Jonas language Jürgen Habermas strong evaluations Charles Taylor reflexivity Margaret Archer and reproduction of life Luc Boltanski Genuinely interdisciplinary and boldly argued Daniel Chernilo has crafted a novel philosophical sociology that defends a universalistic principle of humanity as vital to any adequate understanding of social life **Territory Beyond Terra** Kimberley Peters, Philip Steinberg, Elaine Stratford, 2018-03-08 At the root of our understanding of territory is the concept of terra land a surface of fixed points with stable features that can be calculated categorised and controlled But what of the many spaces on Earth that defy this simplistic characterisation Oceans in which places are continuously re-formed Air that can never be fully contained Watercourses that obtain their value by transcending boundaries This book examines the politics of these spaces to

shed light on the challenges of our increasingly dynamic world Through a focus on the planet s elements environments and edges the contributors to Territory beyond Terra extend our understanding of territory to the dynamic contentious spaces of contemporary politics

Museum and Archive on the Move Oliver Grau,2017-09-11 The digital revolution fundamentally changed how cultural heritage is created documented analyzed and preserved The book focuses on this transformation s impact How must museums and archives meet the challenges of digitally generated cultures and how does the digital revolution influence traditional object collection research and education How do digital technologies and digital art and culture affect our interaction with images Leading international experts from various disciplines break new ground Pioneering interdisciplinary research results collected in this book are relevant to education curators and archivists in the arts and culture sector and in the digital humanities
