Hybrid Fictions Daniel Grassian, 2015-09-11 Since the 1960s academics have theorized that literature is on its way to becoming obsolete or at the very least has lost part of its power as an influential medium of social and cultural critique This work argues against that misconception and maintains that contemporary American literature is not only alive and well but has grown in significant ways that reflect changes in American culture during the last twenty years In addition this work argues that beginning in the 1980s a new allied generation of American writers born from the late 1950s to the early 1970s has emerged whose hybrid fiction blend distinct elements of previous American literary movements and contain divided social cultural and ethnic allegiances The author explores psychological philosophical ethnic and technological hybridity The author also argues for the importance of and need for literature in contemporary America and considers its future possibilities in the realms of the Internet and hypertext David Foster Wallace Neal Stephenson Douglas Coupland Sherman Alexie William Vollmann Michele Serros and Dave Eggers are among the writers whose hybrid fictions are discussed

How to Make It as a Woman Alison Booth, 2004-11-25 Publisher Description

Bilingualism in the USA Fredric Field, 2011-08-18 This text provides an overview of bi and multilingualism as a worldwide phenomenon It features comprehensive discussions of many of the linguistic social political and educational issues found in an increasingly multilingual nation and world To this end the book takes the Chicano Latino community of Southern California where Spanish English bilingualism has over a century and a half of history and presents a detailed case study thereby situating the community in a much broader social context Spanish is the second most widely spoken language in the U S after English yet for the most part its speakers form a language minority that essentially lacks the social political and

educational support necessary to derive the many cognitive socioeconomic and educational benefits that proficient bilingualism can provide The issues facing Spanish English bilinguals in the Los Angeles area are relevant to nearly every bi and multilingual community irrespective of nation language and or ethnicity *Chicanas and Chicanos in School* Marcos Pizarro,2009-06-03 By any measure of test scores and graduation rates public schools are failing to educate a large percentage of Chicana o youth But despite years of analysis of this failure no consensus has been reached as to how to realistically address it Taking a new approach to these issues Marcos Pizarro goes directly to Chicana o students in both urban and rural school districts to ask what their school experiences are really like how teachers and administrators support or thwart their educational aspirations and how schools could better serve their Chicana o students In this accessible from the trenches account of the Chicana o school experience Marcos Pizarro makes the case that racial identity formation is the crucial variable in Chicana o students success or failure in school He draws on the insights of students in East Los Angeles and rural Washington State as well as years of research and activism in public education to demonstrate that Chicana o students face the daunting challenge of forming a positive sense of racial identity within an educational system that unintentionally yet consistently holds them to low standards because of their race From his analysis of this systemic problem he develops a model for understanding the process of racialization and for empowering Chicana o students to succeed in school that can be used by teachers school administrators parents community members and students themselves

Welcome to Oxnard Cristina Herrera,2024-07-15 Michele Serros 1966 2015 is widely known for her groundbreaking book *Chicana Falsa* and *Other Stories of Death Identity and Oxnard* Despite her status as a major figure in Chicana literature no scholar has written a book length examination of her body of poetry fiction and nonfiction until now Cristina Herrera also from Oxnard weaves in history autoethnography and literary analysis to explore Chicana adolescence and young womanhood with a focus on place making Factoring in location region and landscape Herrera asks what it means to grow up Chicana in settings that carry centuries of colonial violence segregation and everyday racism against Mexican American communities She contends that Serros used her hometown to broaden understandings of who and what constitutes Chicana communities and identities By reading Serros s work in tandem with her lived experience in the same setting Herrera uncovers moments of adolescent subjectivity that could only be vocalized and constructed within this particular locale Herrera pushes against the tendency to separate the author from the text and argues for a spatial understanding of Chicana adolescence race class and young womanhood

Mexican Americans with Moxie Frank P. Barajas, 2021-08

In Mexican Americans with Moxie Frank P. Barajas argues that Chicanas and Chicanos of the 1960s and 1970s expressed politics distinct from the Mexican American generation that came of age in the decades prior. Barajas focuses on the citrus communities of Fillmore and Santa Paula and the more

economically diversified and populated rural municipalities of Oxnard Simi Valley and Ventura illustrating Ventura County's relationship to Los Angeles and El Movimiento's ties to suburbanization freeway construction and the rise of a high tech and defense industry corridor Mexican Americans with Moxie devotes particular attention to cross cultural dynamics that transcended space and generation The residents of Ventura County became involved with national issues such as the Vietnam War school desegregation labor and electoral politics The actions of Black students at the community colleges of Moorpark and Ventura and other area universities inspired Mexican American youth of Ventura County to assess their own activism Mexican Americans with Moxie situates the Chicana Chicano movement within the nation's struggle to achieve social justice From this history readers will gain a new appreciation for how leadership development spans generations and contributes to the identity formation of communities
