THE BEST MARKETING BOOK OF THE YEAR Winner of the American Marketing Association's Berry AMA prize. In 1848 gold was discovered in California setting off a frenzy that sent men and women from across the American continent flocking to the West Coast in search of fortune. The Gold Rush brought wealth to some but most left empty handed. Today marketing consultants Ed Keller and Brad Fay say social media is unleashing a new kind of frenzy. Blinded by the shiny allure of sites like Facebook and Twitter, companies are spending billions pinning their hopes on social media marketing without appreciating how social influence truly functions in the marketplace. That's where Keller and Fay come in. For the past six years they have undertaken a unique ongoing study of consumer conversations. The surprising result: Over 90 percent of consumer conversations still take place offline, primarily face to face. The implication is clear: Social media is big and growing, but it is dwarfed by the real world in which people live and interact. Make no mistake: There is a hugely important social wave rolling across the world of business today. New scientific evidence reveals that we humans are fundamentally social beings for whom social influence determines nearly every decision we make. And the greatest impact comes when those conversations happen face to face as emotions and nonverbal cues are communicated along with words. In *The Face to Face Book*, Keller and Fay offer key insights and recommendations for how businesses both large and small can best succeed in today's socially motivated consumer marketplace by looking at how consumers act in real life as well as online. The authors share their extensive research and the stories of companies large such as Apple, General Mills, Kimberly Clark and Toyota as well as innovative small businesses that have hit pay dirt with a balanced and holistic approach to social marketing. They also discuss those that have bet big and lost by overcommitting to online social media alone. *The Face to Face Book* does not overlook the extraordinary growth and importance of social media which offers important new tools for

businesses of all kinds however the authors caution against placing too grand a bet on online social media at the expense of other forms of social marketing This book is a celebration of the supremely social nature of all human beings and how that drives the consumer marketplace It s a story that will leave you thinking anew and talking *In You God Trusts* Darren Paul Shearer,2009-12-09 Entrepreneurs in Every Generation Allan Cohen,Pramodita Sharma,2016-06-06 Discover What Makes Family Businesses Beat the Odds and Thrive over Generations Families are complicated family businesses even more so Like other companies family run enterprises must develop leadership and entrepreneurial skills But they must also manage family dynamics that rarely mirror the best practices in the latest Harvard Business Review Allan Cohen and Pramodita Sharma scholars with deep professional and personal roots in family businesses show how enterprising families can transmit the hunger for excellence across generations Using examples of firms that flourished and those that failed they describe the practices that characterize entrepreneurial individuals families and organizations and offer pragmatic advice that can be tailored to your unique situation *A Leader's Gift* Barry Banther,2014-04-22 You can no longer count on old motivational tricks to inspire loyalty among your associates The rules of leading have changed and now you must be able to take a diverse team and win with them quickly Barry Banther knows how to equip you for today s business world because he knows what lasting leadership is made of He has identified five qualities that aren t things leaders have rather they are things they give away freely and frequently to everyone they lead in the workplace By embracing and demonstrating the five qualities expounded in this book you will become a leader who brings out the best in your associates whether you re a new manager or you occupy a C suite office Banther consults with and trains the teams of CEOs of family owned as well as Fortune 100 companies He has been the lead consultant on more than 400 leadership development engagements and has written 50 plus leadership training programs that are used by companies worldwide After a career in broadcasting and later teaching and administration at the college level Banther served three Florida governors as their appointee to oversee private higher education and was elected to an unprecedented three terms as chairman of the Florida State Board of Independent Colleges and Universities Having learned the hard way caring about numbers rather than people Banther can tell you with confidence that when leaders put others first they themselves become more valuable to their team and their company than any authority or job title could ever mandate That s also the best way to grow your bottom line deploy the right people with the right skills at the right time to create loyal and repeat customers *EntreLeadership (with embedded videos)* Dave Ramsey,2011-09-20 From the New York Times bestselling author of *The Total Money Makeover* and radio and podcast host Dave Ramsey comes an informative guide based on how he grew a successful multimillion dollar company from a card table in his living room Your company is only as strong as your leaders These are the men and women doing battle daily beneath the banner that is your brand Are they courageous or indecisive Are they serving a motivated team or managing employees Are they valued Your team will never grow beyond you so here s another question to consider are you growing Whether you
