## **Landsknechts Men At Arms Series 58:**

*Fatal Rivalry: Flodden, 1513: Henry VIII and James IV and the Decisive Battle for Renaissance Britain* George Goodwin, 2013-08-26 Describes the family drama political and royal court intrigue and bloody military battles that erupted between Henry VIII of England and his brother in law James IV of Scotland during the splendor of the Renaissance as Scotland tried to assert its independence      **The Last Yorkists** Richard Anderton, 2025-09-15 Through the lens of the influential de la Pole brothers this book offers readers a chance to explore some of the lesser known aspects of Henry VII and Henry VIII's rule in particular their foreign wars and often duplicitous dealings with other European monarchs      **Osprey Men-At-Arms** Martin Windrow, 2012-01-20 Osprey Men at Arms A Celebration is a very special volume detailing some of the wonderful artwork that has graced Osprey's renowned Men at Arms series over the last forty years Beautifully presented in luxurious cloth embossed and foil blocked with head and tails bands and a ribbon bookmark the collection contains the most treasured illustrations from the vast archives of this respected series and is a classic collectable item for all military history enthusiasts      Swords Ben Boos, 2008-09-09 Describes the details of design and history of swords      *Harvest Time* J. Ross Baughman, 1994 The author descends from early Dutch settlers who settled in what eventually became New York and New Jersey Their descendants married descendants of German emigrants who had settled in Pennsylvania and western Virginia      Monographic Series Library of Congress, 1982      *L'art du siège néo-assyrien* Fabrice De Backer, 2012-12-03 In *L'art du siège néo-assyrien* Fabrice De Backer investigates the people materials tools machines and tactics employed during the first millennium B C by the Neo Assyrians to take and defend fortified cities The story of besieged people along with their customs treatment by the winners and consequences of the conquest are also discussed Based on the combination of archaeology iconography philology and ethnographical comparisons the analysis of the particular assets of siege engines or architectural features are developed along with the best means employed at that time to overcome them De Backer proposes more than a simple census of all the means known so far he also develops and enhances our knowledge of siege warfare in a pragmatic and efficient manner      **The English People at War in the Age of Henry VIII** Steven J. Gunn, 2018 War should be recognised as one of the defining features of life in the England of Henry VIII Henry fought many wars throughout his reign and this book explores how this came to dominate English culture and shape attitudes to the king and to national history with people talking and reading about war and spending money on weaponry and defence      **The Conquistador** John Pohl, 2012-05-20 Many accounts portray the conquest of the New World as a remarkable military achievement with Cortés vastly outnumbered but better armed Spaniards defeating hordes of superstitious savages However the reality of these events is far more complex and no less significant The first Conquistadors who had sailed in search of prosperity inspired by dreams of unlimited riches soon became disillusioned and restless With disease rampant resources exhausted and the Caribbean populations dwindling they had little alternative but to find new territories and peoples to exploit This title shows

how bolstered by influxes of war hardened veterans from Europe and an army of over 30 000 allied Indian troops they came to rely on and perfect what they knew best killing for profit and without mercy      La pasión del mariscal Jorge Robledo Raúl Aguilar Rodas,1998      *Renaissance Armies in Italy 1450-1550* Gabriele Esposito,2020-11-26 The Italian Renaissance marked a period of political and military turmoil Many regional wars were fought between the states ruled by Milan Venice Genoa Florence the Papacy Siena and Naples For more than 50 years starting in 1494 major foreign powers also exploited these divisions to invade Italy both France and Spain made temporary alliances with city states to further their ambitions and early in the 16th century the Emperor Charles V sent armies from his German realms to support the Spanish These wars coincided with the growth of disciplined infantry carrying not only polearms and crossbows but also handguns which proved capable of challenging the previously dominant armoured knights The widespread use of mercenaries ushered in the early development of the pike and shot era that succeeded the High Middle Ages During this period costumes armour and weapons varied greatly due to their national origins and to the evolution of tactics and technology This masterfully illustrated study offers a fascinating insight into the many armies which fought in Italy during this turbulent period explaining not only their arms and equipment but also their structure and successes and failures on the battlefield      *Foreign Volunteers of the Wehrmacht 1941-45* Carlos Caballero Jurado,Kevin Lyles,1983-11-24 When speaking of the units of foreign volunteers integrated into the German forces during World War II the Waffen SS automatically comes to mind But in absolute numbers more foreigners served with the Wehrmacht in the army navy and air force Anti Communism was the most significant reason why so many volunteers were induced to wear the German uniform This title examines the Wehrmacht s foreign volunteers taking a close look at their uniforms organisation and distinctive insignia Among those covered are the Legion Wallanie LVF Ostlegionen Balkan volunteers Hiwis Kalmucks Cossacks Baltic Russian and Ukranian volunteers      **US Cavalry on the Plains 1850-90** Philip Katcher,1985 Two events in the 19th century turned the minds of Americans westwards towards eventual and inevitable conflict with the Plains Indians The first was victory in the Mexican American War which brought millions of acres of new land in the West The second was the discovery of gold in California One of the results of this migration was conflict with the Indians who inhabited the Plains So it was natural that the Army the nation s armed peace keepers should be sent to garrison the West This book by Philip Katcher tells the absorbing story of the US cavalrymen who patrolled the Plains from 1850 90      The Scramble for Italy Idan Sherer,2021-02-21 The Scramble for Italy offers fresh insights on the set of conflicts known as the Italian Wars of 1494 1559 The aim of this book is to explore the trends of continuity and change that characterized the sixteenth century in order to demonstrate the significance of the Italian Wars as an especially intense period of warfare that drove forward several important social political and especially military developments Employing a myriad of primary and secondary sources this book illustrates how the European nobility still very much steeped in knightly and chivalric ideals was fashioning the Italian Wars into an essentially traditional aristocratic war

while the rise of military professionalization and privatization accompanied by the processes of centralization and consolidation of political power were rapidly changing their world Moreover the book attempts to demonstrate that although the debate on a supposed military revolution in late medieval and early modern Europe still rages sixteenth century soldiers and intellectuals were quite certain and anxious about the potential effects of gunpowder weapons and novel tactics and strategy on their world Scholars and general readers who are interested in the political and military history of late medieval and early modern Europe should find this study especially instructive

### **The Israeli Army in the Middle East Wars**

**1948-73** John Laffin, Mike Chappell, 1982-07-29 Israel assumes in advance that defeat in war means an end to the Jewish nation and it wages war accordingly This fact influences the Israeli approach to its army and to the strategy tactics training and conduct of war Surrounded by hostile nations Israel has fought six victorious wars between 1948 and 1973 For a force which began as an irregular impoverished and improvised group this is a formidable record Backed by plenty of photographs and eight full page colour plates this fine text examines the six wars fought between 1948 73 including the extraordinary Israeli victory of 1967

*I lanzichenecchi* Luca Stefano Cristini, 2016-12-04 Nati in Germania da un'idea dell'imperatore Massimiliano I che istituì queste milizie nel 1487 sul modello dei mercenari svizzeri di cui diventarono presto feroci antagonisti Soldati mercenari provenienti prevalentemente dalle regioni tedesche del Sacro Romano Impero che combatterono tra la fine del XV e la fine del XVII secolo Il termine deriva dal tedesco Landsknecht cioè servo della regione Land terra patria Knecht servitore Presenti sui principali campi di battaglia della prima metà del 500 sono famosissimi soprattutto per il sacco di Roma del 1527 guidati dal loro mitico comandante Georg Von Frundsberg che portava attaccato all'arcione una forca da destinare al collo di papa Clemente VII Con precedenti storici nella falange macedone e nello schiltrone scozzese anche i Lanzichenecchi combattevano in quadrati di fanti emulando i loro rivali ed ispiratori contemporanei gli Svizzeri con i quali verranno alle mani alla battaglia di Melegnano Il combattimento avveniva a contatto fisico con il nemico avevano grande importanza le prime linee cioè i fanti dotati di pettorale e quindi di maggior protezione ed i fanti armati di alabarde e di Zweihänder che avevano l'incarico di tagliare le armi ad asta del nemico Le altre righe del quadrato erano composte dai fanti semplici armati di picca Nel nostro libro prendiamo in considerazione soprattutto la loro organizzazione il loro costume e armamento Il tutto esaltato da 16 stupende tavole a colori

### **Polish Armies 1569-1696 (2)**

Richard Brzezinski, 1987 The 17th century Polish Lithuanian Commonwealth was almost as varied as modern America Alongside Slavs lived Lithuanians and other Balts Germans Tatars Armenian merchants Jewish traders and even a remarkably large population of Scots This variety of cultures had a strong influence on the Polish army Along with the predominantly Polish and Lithuanian winged hussars served numerous foreigners from both within and outside the Commonwealth Tatars and Cossacks Wallachians Transylvanians Moldavians Hungarians Serbians and Albanians and from the West French Italians Dutch Walloons Swedes and Scots Richard Brzezinski's companion volume to *Men at Arms* 184 completes his fascinating

examination of Polish armies from 1569 1696      *The Italian Wars 1494-1559* ,2014-06-11 The Italian Wars of 1494 1559 had a major impact on the whole of Renaissance Europe In this important text Michael Mallett and Christine Shaw place the conflict within the political and economic context of the wars Emphasising the gap between aims and strategies of the political masters and what their commanders and troops could actually accomplish on the ground they analyse developments in military tactics and the tactical use of firearms and examine how Italians of all sectors of society reacted to the wars and the inevitable political and social change that they brought about The history of Renaissance Italy is currently being radically rethought by historians This book is a major contribution to this re evaluation and will be essential reading for all students of Renaissance and military history      **Military History** ,1990-08      List and Analysis of State Papers, Foreign Series: July 1593-December 1594 Great Britain.
