Noorani,2010-12-13 Boundary issues have always occupied a central focus in the relations between India and China Highlighting the role of history policy and diplomacy this book traces the origins and development of the India China boundary problem during the British Raj A G Noorani shows how British efforts to secure a defined boundary in the western sector began immediately after the creation of Jammu Kashmir in 1846 However in the eastern sector such an exercise began only sixty five years later when a Chinese threat was perceived Examining the role of the bureaucracy and diplomatic negotiations the author presents a nuanced analysis of the treaties and conventions as well as internal debates between British officials on conflicting policies Breaking new ground this book evaluates the relevance of the Indian Independence Act 1947 and explains how the diplomatic history in the last hundred years shaped the boundary problem

between India and China What was a problem aggravated into a dispute that erupted in 1959 The central thesis is that history had direct relevance to the shaping of a sound policy Based on archival research and unpublished material this volume uses twenty two appendices and fourteen maps to present a unique perspective on a long standing problem **The Ashgate Research Companion to Secession** Peter Radan,2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession **Nation and Region in Grierson's Linguistic Survey of India** Javed Majeed,2018-10-03 George Abraham Grierson s Linguistic Survey of India is one of the most complete sources on South Asian languages This book is the first detailed examination of the Survey It shows how the Survey collaborated with Indian activists to consolidate the regional languages in India By focusing on India as a linguistic region it was at odds with the colonial state s conceptualisation of the subcontinent in which religious and caste differences were key to its understanding of Indian society A number of the Survey s narratives are detachable from its rigorous linguistic imperatives and together with aspects of Grierson s other texts these contributed to the way in which Indian nationalists appropriated and reshaped languages making them religiously charged ideological symbols of particular versions of the subcontinent Thus the Survey played an important role in the emergence of religious nationalism and language conflict in the subcontinent in the 20th century This volume like its companion volume Colonialism and Knowledge in Grierson s Linguistic Survey of India will be a great resource for scholars and researchers of linguistics language and literature history political studies cultural studies and South Asian studies **Islam in South Asia** Jamal Malik,2020-04-06 Islam in South Asia Revised Enlarged and Updated

Second Edition traces the roots and development of Muslim presence in South Asia Trajectories of normative notions of state building and the management of diversity are elaborated in four clusters augmented by topical subjects in excursuses and annexes offering an array of Muslim voices The enormous time span from 650 to 2019 provides for a comprehensive and plural canvas of the religious self presentation of South Asian Muslims Making use of the latest academic works and historical materials including first hand accounts ranging from official statements to poetry Malik convincingly argues that these texts provide sufficient evidence to arrive at an interpretation of quite a different character With major and substantial revisions changes abridgements and additions follow the academic literature produced during the last decades **India and the Quest for One World** M. Bhagavan,2013-09-27 India and the Quest for One World revolutionizes the history of human rights with dramatic impact on some of the most contentious debates of our time by capturing the exceptional efforts of Mahatma Gandhi and the Nehrus to counter the divisions of the Cold War with an uplifting new vision of justice built on the principle of unity in diversity **Global South Asia** Madhurima Chakraborty,2021-12-30 This book collects essays that take on the excavatory critical and generative work of rethinking the relationship between South Asia and the world In examining what kind of new relationships are uncovered between these two geopolitical groupings the chapters in this book argue that South Asian literature and literary criticism can reframe the common narrative of the powerful Global North and a disenfranchised Global South This is not always a comforting reframing since it must account for the oppressive roles that South Asian nations sometimes play in regional and intranational theatres Through myriad disciplinary groundings theoretical approaches and objects of study the essays in this book collectively argue that South Asian literature allows us to think more critically about both the liberatory possibilities of South Asia as a grouping of nations but also of ideas and aesthetics as well as the elisions that may happen under such categorization The chapters in this book were originally published as a special issue of the South Asia Review The Changing Language Roles and Linguistic Identities of the Kashmiri Speech Community M. Ashraf Bhat,2017-06-23 This book operates from the premise that linguistic identities are important because they make sense to people are meaningful and have an impact on the thinking and behaviour of individuals and groups both overtly and covertly The framework outlined here synthesises key works on linguistic identity and draws together insights from a range of disciplines such as sociolinguistics linguistic anthropology discourse analysis cognitive sciences and social psychology It investigates linguistic assertions of community identity in the multilingual context of the Kashmir region in India by studying the dimensions of changing language roles and linguistic practices in relation to the process of creating and maintaining new linguistic identities under different circumstances It examines the nature of changing language roles as a combination of several linguistic and extra linguistic factors which include script uncertainty interlingual diglossia language attrition language policies of the state collective attitudes towards language s corresponding speech communities intergenerational transmission and instrumental orientation among others It demonstrates that changes

in role are principally motivated by various factors which may lead to the demise of the distinct symbol and roots of the Kashmiri linguistic cultural identity in favour of the non native code Urdu which could emerge as the primary linguistic identity in the near future    *Sovereignty and Social Reform in India* Andrea Major,2010-11-05 The British prohibition of sati the funeral practice of widow immolation in 1829 has been considered an archetypal example of colonial social reform It was not the end of the story however as between 1830 and 1860 British East India Company officials engaged in a debate with the Indian rulers of the Rajput and Maratha princely states of North West India about the prohibition and suppression of sati in their territories This book examines the debates that brought about legislation in these areas arguing that they were instrumental in setting the terms of post colonial debates about sati and more generally in defining the parameters of British involvement in Indian social and religious issues This book provides a reinterpretation of the major themes of sovereignty authority and social reform in colonial South Asian history by examining the shifting pragmatic political moral and ideological forces which underpinned British policies on and attitudes to sati The author illuminates the complex ways in which East India Company officials negotiated the limits of their own authority in India their conceptions of nature and the extent of Indian princely sovereignty and argues that and the so called civilising mission was often dependent on local circumstances and political expediencies rather than overarching imperial principles the book also evaluates Indian responses to the supposed modernising Enlightenment discourse This book will be of great interest to students and scholars of South Asian history as well as British colonial studies    **Forget English!** Aamir R. Mufti,2016-02-16 World literature advocates have promised to move humanistic study beyond postcolonial theory and antiquated paradigms of national literary traditions Aamir Mufti scrutinizes these claims and critiques the continuing dominance of English as both a literary language and the undisputed cultural system of global capitalism    **The Shock of the Other** ,2015-06-29 Alterity is not a mere synonym of difference what it signifies is otherness a distinction or separation that can entail similarity as well as difference The articles collected here explore ways to define situate and negotiate alterity in a manner that does not do away with the other through negation or neutralization but that instead engages alterity as a reconfiguring of identities that keeps them open to change to a becoming without horizon Alterity and its situated negotiations with identity are configured through the body through the psyche and through translational politics From critical readings of angels specters grotesque bodies online avatars Sex and the City pornography in French literature Australian billboard art Pina Bausch Adrian Piper Kashmiri poetry contemporary German fiction Jacques Brault and Northern Irish poetry there emerges a vision of identities as multi faceted constructions that are continually being transformed by the various alterities with which they intersect and which they must actively engage in order to function effectively in the social political and aesthetic realm
