translated into classroom practice **Language Policy and Linguistic Minorities in India** Thomas Benedikter, 2009
India not only is concerned with inevitable multilingualism but also with the rights of many millions of speakers of minority languages. As the political and cultural context privileges some major languages, linguistic minorities often feel discriminated against by the current language policy of the Union and the States. They experience on a daily basis that their mother tongues are deemed worthless dialects that have little utility in modern life. Many such languages have definitively disappeared and several more are on the brink of extinction. Is this the inevitable price to be paid for economic modernization, cultural homogenisation and the multilingual fabric of India's society at large? This book is an effort to map India's linguistic minorities and to assess the language policy towards these communities. The author, a senior researcher of the EURAC South Tyrol, Italy, assuming linguistic rights as a component of fundamental human rights codified in a number of international covenants and in the Indian Constitution, provides an appraisal of the extent to which language rights are respected in India's multilingual reality, which takes into consideration the experiences of minority language protection in other regions.

This thought-provoking work is an ideal textbook for future teachers as well as providing a fresh view of the subject for school administrators and policy makers. Provides an overview of bilingual education theories and practices throughout the world. Extends traditional conceptions of bilingualism and bilingual education to include global and local concerns in the 21st century. Questions assumptions regarding language bilingualism and bilingual education and proposes a new theoretical framework and alternative views of teaching and assessment practices. Reviews international bilingual education policies with separate chapters dedicated to US and EU language policy in education. Gives reasons why bilingual education is good for all children throughout the world and presents cases of how this is being carried out. **Takemura: Dynamism in African Languages and Literature**, 2023-06-27

The book provides novel perspectives towards conceptualisation of African Potentials. It explores diverse and dynamic aspects of linguistic communications in Africa, ranging from convivial multilingual practices to literal and musical arts. The book reflects the diversity and ever-changing dynamism in the African sociolinguistic sphere that is metalinguistic discourse in East Africa, sociolinguistic dynamism in Angola, conflict reconciliation speech performed in Ethiopia, and syncretic urban linguistic code called Sheng in Kenya. The volume also explores multi-dimensional relationships between literary arts and the society by investigating such topics as traditional Swahili poetry, publication of children books in Benin, and transformation and reconstruction of Yoruba popular music. The book elucidates the dynamic process of creation through mixing of traditional and foreign elements of culture. **Language Planning and Policy in Africa** Richard B. Baldauf, Robert B. Kaplan, 2007-01-01. A longer range purpose is to collect comparable information on as many polities as possible in order to

facilitate the development of a richer theory to guide language policy and planning in other polities that undertake the development of a national policy on languages This volume is part of an areal series which is committed to providing descriptions of language planning and policy in countries around the world BOOK JACKET
