Lao Peasants Under Socialism Grant Evans,1990-01-01      **Lao Peasants Under Socialism and Post-socialism** 1948-1995      **The Lao** Carol Ireson-Doolittle,Geraldine Moreno-Black,2003-09-12 Shows the effects of recent development projects on the relative power of men and women in rural Lao society and highlights the responses of women to those changes      **Politics and Society in Southeast Asia** Peter A. Poole,2014-11-18 The Asian financial crisis of 1997 1998 caused severe hardship in Southeast Asia and many countries tightened their regulation of banks and other financial institutions adopted more conservative fiscal policies and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors This book analyzes the major political and economic reforms that resulted from the Asian financial crisis looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession In each of the ten country chapters the historical background social and political system economic development and foreign relations of each country are analyzed and compared with those of neighboring countries The concluding chapter looks ahead at the prospects for Southeast Asia in a more integrated Asian region Instructors considering this book for use in a course may request an examination copy here      **The Socialist Market Economy in Asia** Arve Hansen,Jo Inge Bekkevold,Kristen Nordhaug,2020-10-26 This book is intended for policy makers academics and students of development studies area studies political economy geography and political science Three of the best global performers in terms of economic growth are authoritarian states led by communist parties The socialist market economy model employed in China Vietnam and Laos performs better than the economic systems in countries at a similar level of income per capita on a wide range of development indicators yet market reforms and governance failures have led to highly unequal societies and significant environmental problems This book presents the first comparative study of development in these three countries Written by country experts and scholars of development studies it explores the ongoing quest for market versus state within their model and the coherence of their development Chapter 5 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com)      **Civility and Savagery** Andrew Turton,2000-05-18 This is a book about social differentiation and distinction in one of the ethnically and politically most complex regions of the world dealing with crucial issues in currently renewed debates on cultural pluralism nationalism irredentism and ethnic dispersal The themes are given a regional and historical focus by treating peoples within the Tai

Post-war Laos Vatthana Pholsena,2006 Three decades after the conclusion of the civil war that brought the communist Pathet Lao to power the leaders of the Lao People's Democratic Republic are still searching for a compelling and unifying national identity As detailed in *Postwar Laos* a rigorously researched cogently argued and pathbreaking book Laotian nationalism is caught between the rhetoric of preservation and the desire for modernity Using fine grained analysis of substantial ethnographic and archival material Vatthana Pholsena sheds light on the politics of identity the geographies of

memory and the power of historical narrative in contemporary Laos Pholsena pays particular attention to the country's ethnic minorities who had been marginalized politically administratively and symbolically by the French colonial government which ruled for fifty years and by its Royal Lao successor Many members of these minorities fought for the Lao People's Liberation Army in the country's civil war 1960-1975 though and were thus exposed to the processes of modern politics The first book to examine the impact of such forces on Laos's ethnic minorities and their perception of Laotian nationalism Postwar Laos also refines established theories of nationalism Pholsena addresses a weakness common to all the tendency to deny agency to individuals who may in fact interpret their relationship to and place within the nation in a variety of ways that change according to time and circumstance Postwar Laos offers a new perspective on the history of Southeast Asia and more broadly on the formation of national identity that will be welcomed by historians political scientists sociologists ethnographers and cultural anthropologists alike

**Laos' Dilemmas and Options** Mya Than, Loong-Hoe Tan, 1997 The contributors to this volume identify the major economic issues of the New Economic Mechanism concerning the restructuring of the economy the role of the state and economic management financial restructuring the new directions in agricultural and industrial development and the challenges arising from the opening up of the economy to the stimuli of external trade and inflow of foreign direct investment An economic analysis of human resource development with special emphasis on education and an evaluation of Laos environmental issues are also included

**Socializing Land** Miles Kenney-Lazar, 2005 Since 2008 there has been tremendous public interest in the social and ecological ramifications of the global land rush a rapid increase of capital investment into land especially for the establishment of agricultural and tree plantations In Laos the government has granted five percent of the national territory to investors as long term land concessions since the early 2000s Land investments globally and in Laos have violently and unjustly dispossessed peasants and Indigenous peoples of their life giving land leading to their immiseration Yet targeted communities have rarely accepted the theft of their land outright often struggling to protect their land rights with varying degrees of success How can these divergent outcomes of land control be understood In *Socializing Land* Miles Kenney-Lazar addresses these questions by investigating the development of Chinese and Vietnamese pulpwood and rubber plantations on the lands of ethnic minority Brou people in eastern Savannakhet of southern Laos He argues that land should not be viewed as a thing but as a set of social relationships among different groups of people The characteristics of these ties to land play a critical role in determining if and how its use access and ownership change whether land becomes the property of plantation capitalists or remains in the possession of peasant farmers Furthermore the book explores the contradictory role of the state simultaneously pursuing investment driven economic growth built upon the coercive expropriation of land while pledging to protect a limited set of peasant land rights Highlighting the sociality of land demonstrates that land transactions are full of friction and contestation The book is based upon in depth ethnographic research and generates unique insights into the political relationships between government

officials plantation managers and village authorities and households in Laos Each chapter examines a different element of land relations that impacted shifting control over land state investor relationships customary versus statutory property lowland versus upland land uses the kinship ethnic and personal relationships between villagers and government officials and village solidarity and democratic accountability Ultimately the book demonstrates how the land rush despite its many disastrous effects can strengthen peasant social ties to land through resistance progressively limiting attempts at land alienation

**Embodied Nation** Simon Creak, 2017-08-31 This strikingly original book examines how sport and ideas of physicality have shaped the politics and culture of modern Laos Viewing the country's extraordinary transitions from French colonialism to royalist nationalism to revolutionary socialism to the modern development state through the lens of physical culture Simon Creak's lively and incisive narrative illuminates a nation that has no reputation in sport and is typically viewed even from within as a country of cheerful but lazy people Creak argues that sport and related physical practices including physical education gymnastics and military training have shaped a national consciousness by locating it in everyday experience These practices are popular participatory performative and above all physical in character and embody ideas and ideologies in a symbolic and experiential way Embodied Nation takes readers on a brisk ride through more than a century of Lao history from a nineteenth century game of tikhi an indigenous game resembling field hockey to the country's unprecedented outpouring of nationalist sentiment when hosting the 2009 Southeast Asian Games En route we witness a Lao Vietnamese soccer brawl in 1936 the fascist inspired body ethic of the early 1940s the novel modes of military masculinity that blossomed with national independence the spectacular state theatrics of power represented by Olympic inspired sports festivals and the high hopes and frequent failures of socialist sport in the 1970s and 1980s Of central concern in Creak's narrative are the twin motifs of gender and civilization Despite increasing female participation since the early twentieth century he demonstrates the major role that sport and physical culture have played in forming hegemonic masculinities in Laos Even with limited national sporting success Laos has never won an Olympic medal the healthy toned and muscular form has come to symbolize material development and prosperity Embodied Nation outlines the complex ways in which these motifs through sport and physical culture articulate with state power Combining cultural and intellectual history with historical thick description Creak draws on a creative array of Lao and French sources from previously unexplored archives newspapers and magazines and from ethnographic writing war photography and cartoons More than an imagined community or geobody he shows that Laos was also a body at work making substantive theoretical contributions not only to Southeast Asian studies and history but to the study of the physical culture nationalism masculinity and modernity in all modern societies

*History, Memory, and Territorial Cults in the Highlands of Laos* Pierre Petit, 2019-11-05 This book captures the dynamics of history memory and territorial cults in Houay Yong a Tai Vat village situated in the multiethnic highland frontier between Laos and Vietnam By taking seriously the experiences of the villagers it partakes in a broader movement to

reintegrate highlanders and their agency into history at large Based on comprehensive fieldwork research and the examination of colonial archives this book makes accessible for an English speaking audience untapped French archives on Laos and early publications on territorial cults written by French ethnologists In so doing it provides a balanced perspective drawing from the fields of memory studies and classical historical research Following a chronological approach stretching from the nineteenth century to the present it extends narrative analysis through a comparative ethnography of territorial cults a key component of the performative and material presentification of the past Highly interdisciplinary in nature History Memory and Territorial Cults in the Highlands of Laos will be useful to students and scholars of anthropology history and religious studies as well as Asian culture and society [Vientiane](#) Marc Askew, Colin Long, William Logan, 2006-12-07

Providing insights into this neglected Southeast Asian city this interesting book interprets Vientiane s landscape physical as well as imagined as a reflection of key aspects of Lao geo political history the nature of Lao urbanism and its critical relation to constructions of Lao identity in the contemporary period It is argued that the patterns of change seen through Vientiane s past embody the key political and economic processes and transformations impacting on the people of Laos The Lao urban past has rarely been an object of attention by scholars Laos in fact is continually portrayed as a rural backwater marginal to the dynamic trends affecting most of the Southeast Asian mainland In contrast to these persistent and static portrayals of Laos as a tiny landlocked backwater with no significant urban present or past the authors aim to document explain and evaluate the significance of the Lao urban landscape Focusing on the theme of Vientiane s marginality in its various forms the book interprets this apparent marginality as an historically produced phenomenon resulting from geo politics dating from the pre colonial period and extending into the post colonial period Drawing on a wide range of research materials Vientiane is the first work of its kind on this ignored city **A History of Laos** Martin Stuart-Fox, 1997-09-28 This authoritative and wide ranging 1997 history traces events in this little known country from ancient monarchy through its establishment as a French colony to independence in 1953 the People s Democratic Republic and the present one party authoritarianism The book highlights Laos complex and shifting political alliances The struggle for independence from France was followed by a struggle for unity and neutrality in the face of persistent foreign intervention as the country was drawn into the war in Vietnam Only with the end of the Cold War and the withdrawal of Vietnamese troops has Laos been able to reassert its neutral foreign policy and develop a market economy This book is an impressive political social cultural and economic history It will be essential for anyone wanting to understand Laos as it joins ASEAN faces great economic challenges and struggles to maintain its cultural identity [Insight Guides: Laos & Cambodia](#) Insight Guides, 2014-11-06 Insight Guide Laos and Cambodia is the most comprehensive full colour travel guide to these two beguiling countries and provides both inspiration and information to plan a memorable trip to Indochina The Best Of section shows you the unmissable experiences Angkor the region s most spectacular sight as well as the two contrasting capitals laid back French influenced Vientiane in Laos and

**Revolution, Reform and Regionalism in Southeast Asia** Ronald Bruce St John, 2006-01-16 Based on research carried out over the three decades this book compares the post war political economies of Cambodia Laos and Vietnam in the context of their individual and collective impact on contemporary efforts at regional integration The author highlights the different paths to reform taken by the three neighbours and the effect this has had on regional plans for economic development through the ASEAN and the Greater Mekong Subregion Through its comparative analysis of the reforms implemented by Cambodia Laos and Vietnam over the last thirty years the book draws attention to parallel themes of continuity and change The author discusses how the three states have demonstrated related characteristics whilst at the same time making different modifications in order to exploit the unique strengths of their individual cultures Contributing to the contemporary debate over the role of democratic reform in promoting economic development the book provides a detailed account of the political economies of three states at the heart of Southeast Asia

**Globalization and Democratization in Asia** Kristina Jonsson, Catarina Kinnvall, 2003-09-02 Globalization is a defining feature of our times covering everything from economic and political issues to the spread of American culture Its status is controversial however with some viewing it as leading to greater development for all while others see it as a threat to national cultures and democratic political life This book shows how simplified such binary views are and examines how various globalizing forces have affected Asian societies It discusses the relationship between globalization identity and democratic developments in Asia both theoretically and empirically and aims to understand how economic political and social forces interact and are mutually reinforced in Asian societies

*Spirits of the Place* John Clifford Holt, 2009-07-29 *Spirits of the Place* is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt's new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects

of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains. The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao. Despite vigorous attempts by Buddhist royalty, French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults, they have not been displaced; they continue to persist and show no signs of abating. Not only have the spirits resisted eradication but they have withstood synthesis, subordination and transformation by Buddhist political and ecclesiastical powers. Rather than reduce Buddhist religious culture to a set of simple commonalities, Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism. This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia.

**Globalization, Culture and Society in Laos** Boike Rehbein, 2007-08-13. The book explores current tendencies of globalization in Laos and offers a theoretical framework for their interpretation.

**White Gold: The Commercialisation of Rice Farming in the Lower Mekong Basin** Rob Cramb, 2020-01-03. This open access book is about understanding the processes involved in the transformation of smallholder rice farming in the Lower Mekong Basin from a low yielding subsistence activity to one producing the surpluses needed for national self sufficiency and a high value export industry. For centuries farmers in the Basin have regarded rice as white gold reflecting its centrality to their food security and well being. In the past four decades rice has also become a commercial crop of great importance to Mekong farmers augmenting but not replacing its role in securing their subsistence. This book is based on collaborative research to compare the current situation and trajectories of rice farmers within and between different regions of the Lower Mekong, to explore the value chains linking rice farmers with new technologies and input and output markets within and across national borders and to understand the changing role of government policies in facilitating the on going evolution of commercial rice farming. An introductory section places the research in geographical and historical context. Four major sections deal in turn with studies of rice farming value chains and policies in Northeast Thailand, Central Laos, Southeastern Cambodia and the Mekong Delta. The final section examines the implications for rice policy in the region as a whole.

**Politics In The Lifeboat** John C. Harles, 2019-06-04. As an ethnically heterogeneous but stable democracy the United States is a puzzle for students of politics. Typically the literature of democratic theory regards ethnic diversity as disruptive of a democratic polity. However the United States has so far avoided the system threatening consequences of heterogeneity experienced by other democratic
