resultado de tal esfuerzo se ha visto recompensado por una importante mina de autores por fuertes y variadas tendencias literarias y por un público lector altamente exigente. Los más jóvenes creadores testigos de un extraordinario renacimiento económico se enfrentan con audacia a los nuevos retos que afronta el país. La actual narrativa coreana articula con maestría su discurso a partir de la rica memoria heredada pero simultáneamente incorpora a su escritura registros novedosos que le permiten auscultar la angustia del hombre contemporáneo. La selección que aquí presentamos es una muestra cabal del progresivo desarrollo de una literatura que aunque poco conocida en España comienza a ser considerada fuera de sus fronteras como una de las más saltantes y valiosas del actual panorama literario internacional.

Gibraltar and the Spanish Civil War, 1936-39 Julio Ponce Alberca, 2014-11-20 Incorporating local national and international dimensions of the conflict Gibraltar and the Spanish Civil War 1936-39 provides the first detailed account of the British enclave Gibraltar's role during and after the Spanish Civil War. The neutral stance adopted by democratic powers upon the outbreak of the Spanish Civil War is well known. The Non Intervention Committee played a key role in this strategy with Great Britain a key player in what became known as the London Committee. British interests in the Iberian Peninsula however meant that events in Spain were of crucial importance to the Foreign Office and the victory of the Popular Front in February 1936 was deemed a potential threat that could drive the country towards instability. This book explores how British authorities in Gibraltar ostensibly initiated a formal policy of neutrality when the uprising took place only for the Gibraltarian authorities to provide real support for the Nationalists under the surface. The book draws on a wealth of primary source material some of it little known before now to deliver a significant contribution to our knowledge of the part played by democratic powers in the 1930s confrontation between Communism and Fascism. It is essential reading for anyone seeking a complete understanding of the Spanish Civil War.

Antología de poesía. Siglo XX Carlos Monsiváis, 2021-09-14. Analista infatigable de los aspectos más variados de la cultura mexicana desde nuestro cine y producción musical hasta la lucha por la diversidad sexual y la organización política en los sectores populares, Carlos Monsiváis fue asimismo un gran conocedor y divulgador de nuestra literatura. Un claro ejemplo de su visión y capacidad crítica y explicativa fue esta Antología a que desde sus ediciones originales en 1979 y 1985 resultó un hito en la divulgación e interpretación de la lírica del siglo XX. Sucinta y generosa a la vez, la introducción a este volumen es un modelo de síntesis y ojo crítico escrito desde el conocimiento profundo de la vitalidad de nuestra poesía y sus contextos de producción y difusión. El porfírito de la Revolución, la pugna entre nacionalismo y cosmopolitismo, las revistas como espacios generacionales de política, la respuesta al movimiento del 68. Los cuarenta y tres autores seleccionados demuestran la vitalidad, variedad y originalidad de la poesía del siglo XX mexicano. A su vez, la introducción y las notas retratan de cuerpo entero a un irremplazable lector crítico y editor de nuestras letras.

Cuentos cubanos del siglo XX Corina Hernández Novo, 1990. Puertas adentro, interioridad y espacio doméstico siglo XX Aníbal Parodi, 2004-12-31. Puertas adentro, dentro y fuera, interior y exterior, envolvente y espacio. Existen sin duda pocos diálogos que se vinculen de un modo tan determinante con la identidad más íntima del hecho arquitectónico. Parecer a que todo el conflicto que supone la concepción del espacio se resume precisamente en la magia que integra y divide estos hemisferios complementarios en permanente interacción. El presente trabajo decide explorar el fenómeno de la interioridad desde la determinante investigación espacial que supone el diseño de la vivienda. Se aleja voluntariamente del espíritu comprensivo y registral de los textos de historia de la arquitectura y se concentra en un universo considerablemente reducido respecto a la producción sumamente interesante del siglo pasado. Tan solo diecisiete vietas para presentar el fluir del pensamiento arquitectónico en el transcurso de todo un siglo. Esta selección de ejemplos presentada en orden cronológico intenta desplegar un abanico lo más completo posible de las distintas actitudes de aproximación al diseño del espacio interior y su equipamiento para lo cual se recurre tanto a ejemplos paradigmáticos como periféricos a los supuestos centros de producción cultural.
