Last Night In The Or A Transplant Surgeons Odyssey:

Last Night in the OR Bud Shaw, 2015-09-15 For readers of Henry Marsh's *No Harm* Paul A Ruggieri's *Confessions of a Surgeon* and Atul Gawande's *Better* a pioneering surgeon shares memories from a life in one of surgery's most demanding fields The 1980s marked a revolution in the field of organ transplants and Bud Shaw M D who studied under Tom Starzl in Pittsburgh was on the front lines Now retired from active practice Dr Shaw relays gripping moments of anguish and elation frustration and reward despair and hope in his struggle to save patients He reveals harshly intimate moments of his medical career telling a patient's husband that his wife has died during surgery struggling to complete a twenty hour operation as mental and physical exhaustion inch closer and closer and flying to retrieve a donor organ while the patient waits in the operating room Within these more emotionally charged vignettes are quieter ones too like growing up in rural Ohio and being awakened late at night by footsteps in the hall as his father also a surgeon slipped out of the house to attend to a patient in the ER In the tradition of Mary Roach Jerome Groopman Eric Topol and Atul Gawande *Last Night in the OR* is an exhilarating fast paced and beautifully written memoir one that will captivate readers with its courage intimacy and honesty

Future T/Issues Ruth Gehrmann, 2024-07-01 Transplant practices are discussed in the medical realm in fictional texts and in popular advertisement Yet how do these sectors intersect and influence each other How can the accounts of surgeons invested in transplant practice be brought into conversation with fictional voices *Future T Issues* positions transplantation at the intersection of natural science and the humanities and adds to the discussion of organ transplantation by focusing on one specific aspect that is commonly overlooked the idea of speculation By engaging with speculative fiction in conversation with life writing it contributes to a more thorough understanding of transplantation as a cultural practice showcasing that transplantation is imagined as part of the future both within and beyond the literary sphere Hereby this book establishes the relationship between literary and medical narratives as reciprocal in effect eroding boundaries between the life sciences and literary studies As an interdisciplinary endeavor this study contributes to literary studies specifically to the fields of life writing speculative fiction and young adult fiction it offers insights for the study of transplantation in the popular realm and adds to the medical humanities

Music Norman Lebrecht, 2008-12-18 In this compulsively readable fascinating and provocative guide to classical music Norman Lebrecht one of the world's most widely read cultural commentators tells the story of the rise of the classical recording industry from Caruso's first notes to the heyday of Bernstein Glenn Gould Callas and von Karajan Lebrecht compellingly demonstrates that classical recording has reached its end point but this is not simply an exposé of decline and fall It is for the first time the full story of a minor art form analyzing the cultural revolution wrought by Schnabel Toscanini Callas Rattle the Three Tenors and Charlotte Church It is the story of how stars were made and broken by the record business how a war criminal conspired with a concentration camp victim to create a record empire and how advancing technology boardroom wars public credulity and unscrupulous exploitation shaped the musical backdrop to our modern lives The book ends with a suitable shrine to classical recording the author's critical selection of the 100 most important recordings and the 20 most appalling Filled with memorable incidents and unforgettable personalities from Goddard Lieberson legendary head of CBS Masterworks who signed his letters as God to Georg Solti who turned the Chicago Symphony into the loudest symphony on earth this is at once the captivating story of the life and death of classical recording and an opinioned insider's guide to appreciating the genre now and for years to come **Reconstructive Surgery and**

Modernisation in Twentieth-Century South Africa Suryakanthie Chetty, 2023-07-28 This book traces the career of pioneering South African plastic and reconstructive surgeon Jack Penn from its beginnings during the Second World War It explores the establishment of Penn's private practice and his work in diverse countries including Gabon Japan and Israel as he sought to rectify the injury caused by conflict It also addresses his role on the President's Council established by Prime Minister P W Botha to introduce reform to the system of apartheid Penn's career is contextualised by modernisation which was a significant feature of twentieth century South Africa It was linked with race from the inception of the state in 1910 with racial segregation and paternalism Penn's work during the Second World War was part of a modernist bent by the state under Jan Smuts to take the lead in promoting science and technological development which continued during apartheid Modernisation was also fluid with state priority shifting between the two poles of development and security as apartheid policies were met with hostility both within the state and beyond its borders Within the context of decolonisation increasing black urbanisation required a balancing act on the part of the state to uphold the ideology of racial distinction while simultaneously addressing economic challenges and this was reflected in the reform initiatives under Botha Plastic and reconstructive surgery as evident in the work of Jack Penn is intertwined with this narrative of apartheid modernisation and reform It demonstrated Western prowess with medicine and development a perceived bulwark against Communism It also served as a means for the modernising apartheid state to initiate maintain or enhance alliances with other states in the facing

of mounting isolation and international condemnation The career of Jack Penn then is a lens through which the contradictions complexities and anxieties of twentieth century South Africa are exposed **Time** ,2005-11 Exploring Space: 1999 John Kenneth Muir,2015-09-15 Starring internationally renowned actors Martin Landau Barbara Bain Barry Morse and Catherine Schell the British made Space 1999 was the only truly original space adventure of the mid 1970s Sandwiched between the demise of the original Star Trek and the opening of the Stars Wars series on the big screen Space 1999 featured a richly visualized world where space was terrifying and mysterious where not all problems were solvable by technology and the space travelers were very human From the science fiction show s conception in 1973 to its cancellation in 1977 this reference work covers each of the 48 episodes in depth including a full plot synopsis writer director guest star credits and critical commentary that examines both the episode and other shows that have used similar plotlines The popularity of Space 1999 memorabilia and its many fan clubs are fully discussed along with the possibility of a future movie or reunion show that would tie up the loose ends caused by the show s abrupt cancellation *Remedies for Sorrow* Megan Nix,2023-04-18 This compulsively readable memoir brings to light an issue that has been too long ignored An immensely important book Emily Oster New York Times bestselling author of Expecting Better and Cribsheet A story of a mother s fierce love for her exceptional child and her courageous journey to break the silence about a hidden risk to pregnant women both a beautiful family story and an urgent call to action A moving potentially life altering book Robert Kolker author of 1 New York Times bestseller Hidden Valley Road After a seemingly uneventful pregnancy Megan Nix s second daughter Anna was born very small and profoundly deaf Megan and her husband Luke learned that Anna could have lifelong delays due to an infection from a virus they had never heard of cytomegalovirus or CMV which Megan had unwittingly contracted from her toddler during pregnancy Megan was electrified by this knowledge She had been warned while pregnant about the risks of saunas sushi and unpasteurized cheese a lack of folic acid and an excess of kitty litter She knew to fear a slew of genetic syndromes she could do little to prevent But she had not been told that CMV is contagious in the saliva of one out of three toddlers spread through a kiss a shared cup a bite of unfinished toast She had not been told that the stakes were high that congenital CMV causes more birth defects and childhood disabilities including blindness deafness cerebral palsy epilepsy and autism than any infectious disease Or that some of these disabilities are evident at birth but others appear suddenly at age two or three and are never traced back to congenital CMV Remedies for Sorrow unfolds across the dramatic landscape of Sitka Alaska where Luke makes his living as a salmon fisherman There Megan struggles to meet Anna s needs and dives deeper into the mystery of why no one not her OBGYN not her toddler s pediatrician had mentioned CMV despite the staggering cost of this silence to families and children like Anna From this rugged and beautiful place comes a memoir about the boundless capacity of mothers the extraordinary child that is Anna and the lifesaving power of truth Teaching Surgeons' Hands to Heal Elwin E. Fraley MD,2014-06-23 Nineteen sixty nine to nineteen ninety three what a time of change development and

innovation in Medicine Often not appreciated are the many advances coming directly or indirectly from the University of Minnesota Medical School the main setting for Teaching Surgeons Hands to Heal by Dr Elwin Fraley MD Dr Christiaan Barnard had recently performed the first human heart transplant in South Africa yet the basis for this magnificent achievement was the training and experience he had in Minnesota under the great open heart surgery pioneer Dr Walt Lillehei This was the background that the young relatively inexperienced Dr Fraley had when given the opportunity to develop a world class Department of Urologic Surgery in 1969 With his intense personal belief as a Builder of People Dr Fraley accepted the challenge with drive determination and his own inimitable energy and wit overcoming numerous difficulties along the way Set in an academic research and training hospital the chronicle details not only the development of the training program but rather how it produced so many luminaries in the field who then followed his tradition of building leaders and innovators This book highlights the importance of academic centers to the future of American and world medicine as well as mankind in general Indeed under Dr Fraley there was a paradigm shift from enormous painful surgical incisions to key hole surgery the field of Endourology a term coined by Dr Fraley Thus Endourology is now an integral part of virtually all major urological meetings around the world **University Bulletin** University of California, Berkeley, 1968
