Janet Evans,2015-06-05 It is often assumed that picturebooks are for very young readers because of their emphasis on the illustrations and their scarcity of text however there are increasing numbers of picturebooks where the age of the implied reader is questionable These are picturebooks whose controversial subject matter and unconventional often unsettling style of illustration challenge the reader pushing them to question and probe deeper to understand what the book is about In addition to the book challenging the reader the reader often challenges the book in an attempt to understand what is being said These increasingly popular picturebooks work on many different levels they are truly

polysemic and worthy of in depth analysis They push the reader to ask questions and in many instances are intrinsically philosophical often dealing with fundamental life issues Challenging and Controversial Picturebooks examines these unconventional non conformist picturebooks considering what they are their audience and their purpose It also considers Children s and adults thoughts on these kinds of picturebooks How challenging and unsettling wordless picturebooks can play with the mind and promote philosophical thought What creates non conformity and strangeness is it the illustrations and their style the subject matter or a combination of both Why certain countries create promote and accept these picturebooks more than others Why certain picturebooks are censored and what factors are in play when these decisions are made The role of publishers in translating and publishing these picturebooks Children s creative and critical responses to strange unsettling and often disturbing visual texts This inspiring and thought provoking volume explores the work of a number of highly respected international picturebook experts and includes an exclusive interview with the legendary Klaus Flugge Managing Director of Andersen Press one of the few remaining independent children s book publishers in England It is an indispensable reference for all interested in or working with picturebooks including researchers students in higher and teacher education English advisors inspectors literacy consultants and classroom teachers
