The Histories of the Latin American Church Joel M. Cruz, 2014-11-15 Latin American Christianity is too often presented as a unified story appended to the end of larger western narratives And yet the stories of Christianity in Latin America are as varied and diverse as the lands and the peoples who live there The unique political ecclesial social and historical realities of each nation inevitably shaped a variety of Christian expressions in each Now for the first time a resource exists to help students and scholars understand the histories of Latin American Christianity An ideal resource this handbook is designed as an accompaniment to reading and research in the field After a generous overview to the history and theology of the region the text moves nation by nation providing timelines outlines and substantial introductions to the politics people movements and relevant facts of Christianity as experienced in that nation The result is an informative and eye opening introduction to a kaleidoscope of efforts to articulate the meanings and implications of

Christianity in the context of Latin America Benedict XIV and the Enlightenment Rebecca Messbarger, Christopher M. S. Johns, Philip Gavitt, 2017-01-11 Benedict XIV and the Enlightenment offers a comprehensive assessment of Benedict's engagement with Enlightenment art, science, spirituality, and culture *Miracles : 2 Volumes* Craig S. Keener, 2011-11-01 Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship's 2012 Award of Excellence 2011 Book of the Year Christianbook.com's Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human experience precluded miracles. Yet current research shows that human experience is far from uniform. In fact, hundreds of millions of people today claim to have experienced miracles. New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us. This wide-ranging and meticulously researched two-volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts. Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic, Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts lending credence to the biblical miracle reports *Finding God* John M. Mulder, Hugh Thomson Kerr, 2012-08-13 The search for God is a staple of human history. Finding God records sixty first-person accounts of Christians who found God in different ways and the impact this discovery made on their lives and on the world in which they lived. Ranging from the first century to the present, Finding God is a fascinating digest of conversion stories from a wide variety of people from the apostle Paul to the rock musician Bono. These narratives together demonstrate the remarkable diversity of spiritual journeys and the dramatic changes that can result from encounters with God. Both instructive and inspirational, Finding God will expand horizons and deepen the faith of those who seek insight into the age-old spiritual quest to find God Landscapes of Liberation Noah Oehri, 2023-07-20 Catholic mission from the mid-20th century onwards was complicated by geopolitical upheaval, church reform, and the emergent critique of the colonial power matrix to which the Church belonged. Missionary movements to Latin America coincided with visions for a progressive, radically transformative church. Landscapes of Liberation expands scholarship into liberation theology's reception in Andean America and critically examines the interplay of the Catholic Church as a global institution with parishes as local actors. Through source material from both sides of the Atlantic, this book charts how a transnational network of pastoral agents and laypeople in Peru's southern highlands claimed mission and development as intertwined tenets of spiritual and social life throughout three decades of agrarian reform, activism, and social conflict. Ultimately, this book reveals how transformative theories for rural development yielded contingent transformations: concrete change yet contested liberation The World's Religions in Figures Todd M. Northeast Brazil Lindsey King, 2014-12-15 This book examines the spiritual community of the followers of St Francis of Wounds in the town of Canind in northeast Brazil Their tradition involves pilgrimage and the practice of crafting unique offerings in payment for healing and reversal of bad fortune a practice predating Christianity and brought to the new world by explorers and early European colonial powers King argues that these marginalized Brazilians living in a region where poverty is endemic use St Francis of Wounds to replace the medical and social services that the government has failed to provide She further illustrates the evolution of the regional practice with photographs documenting all stages of this tradition especially the folk art ex votos used to pay for the saint s intervention **A Critical Introduction to Religion in the**

Americas Michelle A. Gonzalez, 2014-07-18 A Critical Introduction to Religion in the Americas argues that we cannot understand religion in the Americas without understanding its marginalized communities Despite frequently voiced doubts among religious studies scholars it makes the case that theology and particularly liberation theology is still useful but it must be reframed to attend to the ways in which religion is actually experienced on the ground That is a liberation theology that assumes a need to work on behalf of the poor can seem out of touch with a population experiencing huge Pentecostal and

Charismatic growth where the focus is not on inequality or social action but on individual relationships with the divine By drawing on a combination of historical and ethnographic sources this volume provides a basic introduction to the study of religion and theology in the Latino a Black and Latin American contexts and then shows how theology can be reframed to better speak to the concerns of both religious studies and the real people the theologians work is meant to represent Informed by the dialogue partners explored throughout the text this volume presents a hemispheric approach to discussing lived religious movements While not dismissive of liberation theologies this approach is critical of their past and offers challenges to their future as well as suggestions for preventing their untimely demise It is clear that the liberation theologies of tomorrow cannot look like the liberation theologies of today

Religion in the Lands That Became America Thomas A. Tweed,2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed

suggests but he recovers historical sources of hope as he retells the rich story of America's religious past

Boricua Muslims Ken Chitwood, 2025-10-14 The stories and struggles of Puerto Rican Muslims in modern day America Among Puerto Rican converts to Islam marginalization is a fact of daily life Their authenticity is questioned by other Muslims and by fellow Boricua on the island and in the United States At the same time they exist under the shadow of US colonization and as Muslims in the context of American empire To be a Puerto Rican Muslim then is to negotiate identity at numerous intersections of diversity and difference Drawing on years of ethnographic research and more than a hundred interviews conducted in Puerto Rico New York Florida Texas New Jersey and online Ken Chitwood tells the story of Puerto Rican Muslims as they construct a shared sense of peoplehood through everyday practices Boricua Muslims thus provides a study of cosmopolitanism not as a political ideal but as a mundane social reality a reality that complicates scholarly and public conversations about race ethnicity and religion in the Americas Expanding the geography of global Islam and recasting the relationship between religion and Puerto Rican culture Boricua Muslims is an insightful reckoning with the manifold entanglements of identity amid late modern globalization
