Despite the fact that improving energy efficiency during COVID 19 is predicted to enhance energy systems efficacy and resilience, many economies are struggling to deliver maximum energy saving capacity solutions for the needed degree of energy efficiency. Catholic Social Learning Roger C. Bergman, 2011. The canon for Catholic social teaching spreads to six hundred pages, yet fewer than two pages are devoted to Catholic social learning or pedagogy. In this long-needed book, Roger Bergman begins to correct that gross imbalance. He asks: How do we educate lead out the faith that does justice? How is commitment to social justice provoked and sustained over a lifetime? To address these questions, Bergman weaves what he has learned from thirty years as a faith that does justice educator with the best of current scholarship and historical authorities. He reflects on personal experience, the experience of Church leaders, lay activists, and university students, and the few words the tradition itself has to say about a pedagogy for justice. Catholic Social Learning explores the foundations of this pedagogy, demonstrates its practical applications, and illuminates why and how it is fundamental to Catholic higher education. Part I identifies personal encounters with the poor and marginalized as key to stimulating a hunger and thirst for justice. Part II presents three applications of Catholic social learning: cross-cultural immersion as illustrated by Creighton University's Semestre Dominicano program, community-based service learning, and the teaching of moral exemplars such as Dorothy Day, Rev. Martin Luther King Jr., and Archbishop Oscar Romero. Part III then elucidates how a pedagogy for justice applies to the traditional liberal educational mission of the Catholic university and how it can be put into action. Catholic Social Learning is both a valuable practical resource for Christian educators and an important step forward in

Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States      Bookseller and Stationer , 1922
