IN the 1990s, thousands of non-Jewish Latinos arrived in Israel as undocumented immigrants. Drawing on research in South America and Israel, Barak Kalir follows these workers from their decision to migrate to their experiences finding work, establishing social clubs and evangelical Christian churches, and putting down roots in Israeli society. While the State of Israel formally rejected the presence of non-Jewish migrants, Latinos found themselves capable of prolonged settlement and de facto cultural assimilation to Israeli society. In everyday interactions with Israeli citizens, Latinos experienced openness and approving acceptance. In 2011, after a large-scale deportation campaign that drew criticism from many quarters, Israel made the unprecedented decision to legalize the status of some undocumented migrant families on the basis of their children's cultural assimilation and identification with the State. By doing so, Kalir maintains, Israel was impelled to recognize the importance of practical belonging for understanding citizenship and national identity.

BARAK KALIR is Assistant Professor of Anthropology at the University of Amsterdam and coordinator of the research program *Illegal but Latin: Transnational Flows and Permeable Politics in Asia*.
