Latino Politics In Massachusetts Struggles Strategies And Prospects Race And Politics:

Latino Politics in Massachusetts Carol Hardy-Fanta, Jeffrey Gerson, 2014-01-14 This collection of original essays explores the major challenges to Latino political representation in cities where Latino populations do not make up the majority of the population and therefore cannot rely on sheer numbers to gain representation *Latino Politics en Ciencia Pol[ítica]* Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014 More than 53 million Latinos now constitute the largest fastest growing and most diverse minority group in the United States and the nation's political future may well be shaped by Latinos continuing political incorporation In the 2012 election Latinos proved to be a critical voting bloc in both Presidential and Congressional races this demographic will only become more important in future American elections Using new evidence from the largest ever scientific survey addressed exclusively to Latino Hispanic respondents *Latino Politics en Ciencia Pol[ítica]* explores political diversity within the Latino community considering how intra community differences influence political behavior and policy preferences The editors and contributors all noted scholars of race and politics examine key issues of Latino politics in the contemporary United States Latino identities latinidad transnationalism acculturation political community and racial consciousness The book contextualizes today's research within the history of Latino political studies from the field's beginnings to the present explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science *Latino Politics en Ciencia Pol[ítica]* is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes *Latinas in American Politics* Samantha L. Hernandez, Leslie A. Navarro, Sharon A. Navarro, 2016-05-12 The challenges that women face as political candidates can be compounded by race In the case of Latinas stereotypes as well as national media coverage and labeling of Latino issues potentially creates an electoral burden for Latina candidates at the local state and national level The intersection of race and gender is complicated and often creates more questions than it answers How are Latinas elected Are they served by this complex identity or hindered by it *Latinas in American Politics Embracing and Changing Political Tradition* begins addressing the issues by examining the stereotypes Latinas face while running for political office More specifically the perception of voters on ideological standings of Latinas provides insight as to what party Latinas are identified with and how they can use this to their advantage In addition to establishing the role stereotypes play in the electability of Latinas the way they use and diffuse these stereotypes via campaigns is examined The images that Latinas present and how they interact with voters via social media establishes a new dynamic in campaigning and allows for theory building in the area of race gender and campaigns Aside from campaigning party identification for a Latina creates a different barrier How do Latinas bridge this Case studies of prominent Latina officials are examined to understand within which contexts and under what conditions Latinas as candidates and as elected officials will experience intersectionality as advantage and disadvantage Finally the examination of Latina congressional members shows whether and how the intersection of gender and ethnicity in descriptive representation

contributes uniquely to patterns of substantive representation. Ultimately this volume demonstrates how the intersection of race and gender creates unique situations for representation and electability of candidates. Intersectionality and Politics Carol Hardy-Fanta, 2013-05-13. Cutting edge research on the intersection of race, gender, and politics. Traditionally there has been a significant lack of empirical attention given to the ways in which race, ethnicity, gender, and political representation overlap. Intersectionality and Politics is the groundbreaking collection of contemporary research and essays that applies the concept of intersectionality specifically to descriptive and substantive representation by African American, Latino, and Asian American elected officials. This unique compilation looks at numerous states and focuses on multiple racial/ethnic groups to demonstrate the importance of this theory for understanding the political leadership of people of color and women. Intersectionality and Politics is the wide-ranging text that is both an informative overview and a thought-provoking analysis of a subject that has received little practical study. Articles in this important text cover an expansive gamut from women of color as elected officials and the changing face of leadership in America today to an exploration of the growing interest in intersectionality and a look toward the potential of future research, making it a useful and comprehensive one-stop resource. Contributors to Intersectionality and Politics explore critical topics such as the contours and context of descriptive representation with a focus on women of color; the puzzle of women of color's proportionately higher percentage of office holding in state legislatures; agenda-setting behavior of African American female state legislators; the impact of race and gender on the likelihood of legislative bill submission and passage; patterns of gendered representation and related legislative advocacy within Latino delegations in the Southwest; new findings on the Latino gender gap; the public policy implications of intersectionality theory; and many more. Complete with extensive bibliographies and a wealth of tables and figures to highlight the striking findings, Intersectionality and Politics is ideal for undergraduate and graduate students and educators in political science, ethnic studies, Latino/Black/Asian studies, gender studies, sociology, and women's studies. Policymakers, politicians, and those working in high-minority areas will also find this to be an invaluable text. *African American-Latino Relations in the 21st Century* Karen Juanita Carrillo, 2017-05-24. This provocative look at the connections and conflicts between Latinos and African Americans in the United States assesses the challenges facing both groups as they strive to achieve the American dream. Latino and African American communities in the United States share neighborhoods, similar family values, and many of the same challenges faced by minorities, yet are often at odds about their distinctive cultures and position in society. This book looks at the social and political history of both groups, pointing out their differences and similarities and exploring their perceived role in America's social strata. Author Karen Juanita Carrillo delves into the often-controversial issues that have undermined Afro-Latino race relations in this country, including how the war on poverty led to competition and animosity; how the legacy of slavery bears on their relationship; and how prejudices among new immigrants inflame existing tensions. The book features a multitude of views and perspectives on what it means to be American for Latino

and African American populations Its extensive discussion of immigrant groups includes those arriving from Mexico Puerto Rico Cuba El Salvador Dominican Republic Guatemala Colombia Honduras Ecuador and Peru

Gender and American Politics Sue Tolleson-Rinehart, Jyl J Josephson, 2016-09-16 Studies of gender and American political life most often focus only on women This book fills the gap by examining and comparing the roles and behavior of both men and women in political decision making public policy and political institutions Now updated and expanded the book presents a full complement of empirical studies of real and imagined gender gaps New to this edition are chapters on the media legislative behavior foreign policy and the future of the gender dimension in American politics The book is structured to parallel the typical course on the American political system

Electoral Politics Is Not Enough Peter F. Burns, 2012-02-16 Focusing on four medium sized northeastern cities with strong political traditions Electoral Politics Is Not Enough analyzes conditions under which white leaders respond to and understand minority interests Peter F Burns argues that conventional explanations including the size of the minority electorate the socioeconomic status of the citizenry and the percentage of minority elected officials do not account for variations in white leaders understanding of and receptiveness toward African American and Latino interests Drawing upon interviews with more than 200 white and minority

local leaders and through analysis of local education and public safety policies he finds that unconventional channels namely neighborhood groups and community based organizations strongly influence the representation of minority interests
