Houston Lost And Unbuilt Steven R Strom:

Houston Lost and Unbuilt Steven Strom, 2010-02-15 Offers a fascinating look at what has been lost and what might have been built in Houston and sounds a call to preserve what is left of Houston's built heritage before more architectural treasures are lost forever *Houston Lost and Unbuilt* Steven R. Strom, 2010-01-01 Winner San Antonio Conservation Society Citation 2011 Good Brick Award Greater Houston Preservation Alliance 2011 Julia Ideson Award Friends of the Texas Room 2011 Driven by an almost fanatical desire for whatever is new, modern and likely to make money, Houston is constantly in the process of remaking itself. Few structures remain from the nineteenth century and even much of the twentieth century built environment has fallen before the wrecking ball of progress. Indeed, the demolition of older buildings in Houston can be compared to the destruction of cityscapes such as Berlin, Warsaw and Tokyo in World War II. But because this wholesale restructuring of Houston's built environment has happened in peacetime, historically minded people have only recently sounded an alarm over what is being lost and the toll this destruction is taking on Houstonians' sense of place. *Houston Lost and Unbuilt* presents an extensive catalogue of twentieth century public and commercial buildings that have been lost forever as well as an intriguing selection of buildings that never made it off the drawing board. The lost buildings or lost interiors of buildings span a wide range from civic gathering places such as the Houston Municipal Auditorium and the Astrodome to commercial enterprises such as the Foley Brothers, Sears Roebuck and Sakowitz department stores to Theatre Row downtown to neighborhoods such as Fourth Ward and Freedmen's Town. Steven Strom's introductions and photo captions describe each significant building's contribution to the civic life of Houston. The unbuilt section of the book includes numerous previously unpublished architectural renderings of proposed projects such as a multi-building city center monorail and people mover system, all which reflect Houston's fascination with the future and optimism that technology will solve all of the city's problems.

Houston on the Move Steven R. Strom, 2016-10-25 Houston completely transformed itself during the twentieth century, burgeoning from a regional hub into a world class international powerhouse. This remarkable metamorphosis is captured in the Bob Bailey Studios Photographic Archive, an unparalleled visual record of Houston life from the 1930s to the early 1990s. Founded by the commercial photographer Bob Bailey in 1929, the Bailey Studios produced more than 500,000 photographs and fifty-two 16 mm films, making its archive the largest and most comprehensive collection of images ever taken in and around Houston. The Bob Bailey Studios Archive is now owned by the Dolph Briscoe Center for American History at the University of Texas at Austin. *Houston on the Move* presents over two hundred of the Bailey archive's most memorable and important photographs with extended captions that detail the photos' subjects and the reasons for their significance. These images, most never before published, document everything from key events in Houston's modern history—World War II, the Texas City Disaster, the building of the Astrodome and the development of the Ship Channel Medical Center and Johnson Space Center—to nostalgic scenes of daily life. Bob Bailey's expertly composed photographs reveal a great city in
