How Racism Takes Place:

How Racism Takes Place George Lipsitz, 2011-03-11 How racism shapes urban spaces and how African Americans create vibrant communities that offer models for more equitable social arrangements

The Black Geographic Camilla Hawthorne, Jovan Scott Lewis, 2023-09-12 The contributors to *The Black Geographic* explore the theoretical innovations of Black Geographies scholarship and how it approaches Blackness as historically and spatially situated. In studies that span from Oakland to the Alabama Black Belt to Senegal to Brazil, the contributors draw on ethnography, archival records, digital humanities, literary criticism, and art to show how understanding the spatial dimensions of Black life contributes to a broader understanding of race and space. They examine key sites of inquiry: Black spatial imaginaries, resistance to racial violence, the geographies of racial capitalism, and struggles over urban space. Throughout, the contributors demonstrate that Blackness is itself a situating and place-making force, even as it is shaped by spatial processes and diasporic routes. Whether discussing eighteenth and nineteenth-century abolitionist print records or migration and surveillance in Niger, this volume demonstrates that *Black Geographies* is a mode of analyzing Blackness that fundamentally challenges the very foundations of the field of geography and its historical entwinement with colonialism, enslavement, and imperialism. In short, it marks a new step in the evolution of the field.

The Laziness Myth Christine Jeske, 2020-12-15 When people cannot find good work, can they still find good lives? By investigating this question in the context of South Africa, where only 43 percent of adults are employed, Christine Jeske invites readers to examine their own assumptions about how work and the good life do or do not coincide. *The Laziness Myth* challenges the widespread premise that hard work determines success by tracing the titular laziness myth, a persistent narrative that disguises the systems and structures that produce inequalities while blaming unemployment and other social ills on the so-called laziness of particular class, racial, and ethnic groups. Jeske offers evidence of the laziness myth's harsh consequences as well as insights into how to challenge it with other South African narratives of a good life. In contexts as diverse as rapping in a library, manufacturing leather shoes, weed whacking neighbors' yards, negotiating marriage plans, and sharing water taps, the people described in this book will stimulate discussion on creative possibilities for seeking the good life in and out of employment in South Africa and elsewhere

The Habits of Racism Helen Ngo, 2017-08-16 *The Habits of Racism* examines some of the complex questions raised by the phenomenon and experience of racism. Helen Ngo draws on the resources of Merleau-Ponty to show how the conceptual reworking of habit as bodily orientation helps to identify the subtle but more fundamental workings of racism to catch its insidious gestural expressions as well as its habitual modes of racialized perception. Racism, as Ngo argues, is equally

expressed through bodily habits which once reformulated raises important ethical questions regarding the responsibility for one's racist habits. Ngo also considers what the lived experience of racism and racialization teaches us about the nature of embodied and socially situated being, arguing that racialized embodiment problematizes and extends existing accounts of embodied experience and calls into question dominant philosophical paradigms of the self as coherent, fluid, and synchronous. Drawing on thinkers such as Fanon, she argues that the racialized body is in front of itself and uncanny in the Heideggerian senses of strange and not at home while exploring the phenomenological and existential implications of this disorientation and displacement. Finally, she returns to the visual register to take up the question of objectification in the racist gaze, critically examining the subject-object ontology presupposed by Sartre's account of the gaze. Regarding the embodied being, she recalls that all embodied being is always already relational and co-constituting. Ngo draws on Merleau-Ponty's concept of the intertwining to argue that a phenomenology of racialized embodiment reveals to us the ontological violence of racism, not a merely violation of one's subjectivity as commonly claimed, but also a violation of one's intersubjectivity. The original arguments in *The Habits of Racism* will be of particular value to students and scholars interested in critical philosophy of race, phenomenology, and social and political philosophy, and may also be of interest to those working in feminist philosophy, queer studies, and disability studies.

Black in Place Brandi Thompson Summers, 2019-09-09 While Washington, D.C. is still often referred to as Chocolate City, it has undergone significant demographic, political, and economic change in the last decade. In D.C., no place represents this shift better than the H Street corridor. In this book, Brandi Thompson Summers documents D.C.'s shift to a post-chocolate cosmopolitan metropolis by charting H Street's economic and racial developments. In doing so, she offers a theoretical framework for understanding how blackness is aestheticized and deployed to organize landscapes and raise capital. Summers focuses on the continuing significance of blackness in a place like the nation's capital, how blackness contributes to our understanding of contemporary urbanization, and how it laid an important foundation for how Black people have been thought to exist in cities. Summers also analyzes how blackness as a representation of diversity is marketed to sell a progressive, cool, and authentic experience of being in and moving through an urban center. Using a mix of participant observation, visual and media analysis, interviews, and archival research, Summers shows how blackness has become a prized and lucrative aesthetic that often excludes D.C.'s Black residents.

The Pursuit of Racial and Ethnic Equality in American Public Schools Kristi L. Bowman, 2014-12-19 In 1954, the Supreme Court decided *Brown v. Board of Education*. Ten years later, Congress enacted the Civil Rights Act. These monumental changes in American law dramatically expanded educational opportunities for racial and ethnic minority children across the country. They also changed the experiences of white children who have learned in increasingly diverse classrooms. The authors of this commemorative volume include leading scholars in law, education, and public policy, as well as important historical figures. Taken together, the chapters trace the narrative arc of school desegregation in the United States, beginning in California in the 1940s, continuing through *Brown*

v Board the Civil Rights Act and three important Supreme Court decisions about school desegregation and voluntary integration in 1974 1995 and 2007 The authors also assess the status of racial and ethnic equality in education today and consider the viability of future legal and policy reform in pursuit of the goals of Brown v Board This remarkable collection of voices in conversation with one another lays the groundwork for future discussions about the relationship between law and educational equality and ultimately for the creation of new public policy A valuable reference for scholars and students alike this dynamic text is an important contribution to the literature by an outstanding group of authors

Antiracist Journalism Andrea Wenzel, 2023-11-14 Across the United States newsrooms are grappling with systemic racism in their organizations and the media industry Many have implemented diversity equity and inclusion DEI initiatives or made other attempts to confront past and present biases in pursuit of greater equity Are such efforts merely performative or are any transforming norms and power structures What would it take to hold newsrooms truly accountable Andrea Wenzel provides a critical look at how local media organizations in the Philadelphia area are attempting to address structural racism She focuses on two established majority white newsrooms the Philadelphia Inquirer and the public radio station WHYY and two start ups where at least half the staff identify as Black Indigenous or people of color BIPOC Resolve Philly and Kensington Voice Drawing on more than five years of field research Wenzel charts how these

outlets have pursued a range of interventions such as tracking the diversity of sources examining reporting and editing practices and working with community members to gain input to varying degrees of success Wenzel argues that institutional and systemic transformation will be possible only through the establishment of structures that facilitate holding those with more power responsible for listening to and addressing the needs and concerns of those with less Offering recommendations for building infrastructure that enables sustainable accountability Antiracist Journalism is an important book for everyone interested in making local journalism more equitable

How the Streets Were Made Yelena Bailey, 2020-10-12 In this book Yelena Bailey examines the creation of the streets not just as a physical racialized space produced by segregationist policies but also as a sociocultural entity that has influenced our understanding of blackness in America for decades Drawing from fields such as media studies literary studies history sociology film studies and music studies this book engages in an interdisciplinary analysis of the how the streets have shaped contemporary perceptions of black identity community violence spending habits and belonging Where historical and sociological research has examined these realities regarding economic and social disparities this book analyzes the streets

through the lens of marketing campaigns literature hip hop film and television in order to better understand the cultural meanings associated with the streets Because these media represent a terrain of cultural contestation they illustrate the way the meaning of the streets has been shaped by both the white and black imaginaries as well as how they have served as a site of self assertion and determination for black communities **Shape Shifters** Lily Anne Y.
