Kaiser, 2006-03-24 In this groundbreaking new book Bob Kaplan and Rob Kaiser introduce an innovative approach to identifying and correcting lopsidedness in leaders You will discover how to make optimal use of your strengths and avoid getting trapped in a one-dimensional mindset that results in too much of a good thing Based on twenty years of research and extensive work with senior leaders *The Versatile Leader* is packed with illustrative cases and practical applications The book is equally useful for self-improvement and for coaching other managers **Unconscious Bias in Schools** Tracey A.

Benson, Sarah E. Fiarman, 2020-10-22 In *Unconscious Bias in Schools* two seasoned educators describe the phenomenon of unconscious racial bias and how it negatively affects the work of educators and students in schools Regardless of the amount of effort time and resources education leaders put into improving the academic achievement of students of color the authors write if unconscious racial bias is overlooked improvement efforts may never achieve their highest potential In order to address this bias the authors argue educators must first be aware of the racialized context in which we live Through personal anecdotes and real-life scenarios *Unconscious Bias in Schools* provides education leaders with an essential roadmap for addressing these issues directly The authors draw on the literature on change management leadership critical race theory and racial identity development as well as the growing research on unconscious bias in a variety of fields to provide guidance for creating the conditions necessary to do this work awareness trust and a learner's stance Benson and Fiarman also outline specific steps toward normalizing conversations about race reducing the influence of bias on decision making building empathic relationships and developing a system of accountability All too often conversations about race become mired in questions of attitude or intention But I'm not a racist This book shows how information about unconscious bias can help shift conversations among educators to a more productive collegial approach that has the potential to disrupt the patterns of perception that perpetuate racism and institutional injustice Tracey A Benson is an assistant professor of educational leadership at the University of North Carolina at Charlotte Sarah E Fiarman is the director of leadership development for EL Education and a former public school teacher principal and lecturer at Harvard Graduate School of Education **Stuck**

Improving Decoteau Irby, 2022-10-18 An incisive case study of changemaking in action *Stuck Improving* analyzes the complex process of racial equity reform within K-12 schools Scholar Decoteau J Irby emphasizes that racial equity is dynamic shifting as our emerging racial consciousness evolves and as racism asserts itself anew Those who accept the challenge of reform find themselves stuck improving caught in a perpetual dilemma of both making progress and finding ever more

progress to be made Rather than dismissing stuckness as failure Irby embraces it as an inextricable part of the improvement process Irby brings readers into a large suburban high school as school leaders strive to redress racial inequities among the school's increasingly diverse student population Over a five year period he witnesses both progress and setbacks in the leaders' attempts to provide an educational environment that is intellectually, socioemotionally, and culturally affirming Looking beyond this single school Irby pinpoints the factors that are essential to the work of equity reform in education He argues that lasting transformation relies most urgently on the cultivation of organizational conditions that render structural racism impossible to preserve Irby emphasizes how schools must strengthen and leverage personal, relational, and organizational capacities in order to sustain meaningful change *Stuck Improving* offers a clear-eyed accounting of school improvement practices including data-driven instructional approaches, teacher cultural competency, and inquiry-based leadership strategies This timely work contributes both to the practical efforts of equity-minded school leaders and to a deeper understanding of what the work of racial equity improvement truly entails
