How Children Succeed Paul Tough:

How Children Succeed Paul Tough, 2012 Why do some children succeed while others fail The story we usually tell about childhood and success is the one about intelligence success comes to those who score highest on tests from preschool admissions to SATs But in *How Children Succeed* Paul Tough argues that the qualities that matter most have more to do with character skills like perseverance curiosity conscientiousness optimism and self control *How Children Succeed* introduces us to a new generation of researchers and educators who for the first time are using the tools of science to peel back the mysteries of character Through their stories and the stories of the children they are trying to help Tough traces the links between childhood stress and life success He uncovers the surprising ways in which parents do and do not prepare their children for adulthood And he provides us with new insights into how to improve the lives of children growing up in poverty Early adversity scientists have come to understand not only affects the conditions of children's lives it can also alter the physical development of their brains But innovative thinkers around the country are now using this knowledge to help children overcome the constraints of poverty With the right support as Tough's extraordinary reporting makes clear children who grow up in the most painful circumstances can go on to achieve amazing things This provocative and profoundly hopeful book has the potential to change how we raise our children how we run our schools and how we construct our social safety net It will not only inspire and engage readers it will also change our understanding of childhood itself

Helping Children Succeed Paul Tough, 2016-05-26 In his international bestseller *How Children Succeed* Paul Tough introduced us to research showing that personal qualities like perseverance self control and conscientiousness play a critical role in children's success Now in *Helping Children Succeed* he outlines the practical steps that adults from parents and teachers to policymakers and philanthropists can take to improve the chances of every child however adverse their circumstances And he mines the latest research in psychology and neuroscience to show how creating the right environments both at home and at school can instill personal qualities vital for future success
