 landscapes which in the field of heritage studies and practice relates to caring for and safeguarding heritage landscapes is a
 concept embedded in contemporary conservation Heritage conservation has shifted from an historical focus on buildings city
 centres and archaeological sites to encompass progressively more diverse forms of heritage and increasingly larger
 geographic areas embracing both rural and urban landscapes While the origin of the idea of cultural landscapes can be
 traced to the late 19th century Euro American scholarship it came to global attention after 1992 following its adoption as a
 category of site by the UNESCO World Heritage Committee Today cultural landscape practice has become increasingly
 complex given the expansion of the values and meanings of heritage the influence of environmental challenges such as
 human induced climate change technological advancements and the need to better understand and interpret human
 connections to place and landscapes The aim of this handbook is to strike a balance between theory and practice which we
 see as inseparable while also seeking to achieve a geographical spread disciplinary diversity and perspectives and a mix of
 authors from academic practitioner management and community backgrounds Agriculture Handbook ,1981 Set includes
