Wilcox, 2018-11-07 This volume culls scholarship on both what high literacy is and how it is developed It embraces the call put forth by Langer and Applebee 2016 that high literacy must continue to be our aim and to see more research analyzing and identifying how teachers might promote literacy practices that promote deep thinking around important content The editors offer a conceptual framework for high literacy that explicates how each component i.e. reading writing dialogic engagement and epistemic cognition in literary reasoning relates to the others and from what scholarly literature these concepts have been derived Individual chapter authors provide in depth examinations of the existing research base on particular related topics focusing on the two important cross cutting aims of the volume 1 explicating the roles reading writing dialogic engagement and epistemic cognition hold in high literacy development and 2 providing examples of practices recommended to develop high literacy **INVESTIGATING COMPARABILITY OF WRITING TASKS WITH PICTURE PROMPTS IN AN IN-HOUSE ENGLISH PROFICIENCY TEST** YALI SHI, 2022-04-28 For security reasons using parallel writing tasks within or across different test administrations is common practice in large scale language testing Lack of task comparability would result in unjustified variance in test performance and consequently jeopardize test validity and fairness Thus it is crucial for test developers to gather empirical evidence from different aspects to substantiate the fairness argument that scores are consistent and score based decisions are impartial across parallel tasks Despite many studies hitherto on writing task comparability those addressing picture prompt writing tasks in an integrated manner have remained quite underexplored Therefore this book investigates the comparability of five writing tasks with picture prompts randomly assigned across testing occasions in an in house English proficiency test EPT of a comprehensive university from three perspectives the scores the texts and the raters and test takers

Results show that task difficulty is not comparable either in terms of some lexical syntactic and content features elicited or as judged by raters and test takers which could be related with topic familiarity and conceptual clarity of the picture prompt Yet overall task comparability is achieved in not only final scores but also score distribution and classification accuracy The findings support the fairness argument for EPT writing and provide theoretical practical and methodological implications

Second or foreign language learning and cognitive development Dingfang Shu,Jinfen Xu,Hui Zhang,2024-01-11 *Understanding, Evaluating, and Conducting Second Language Writing Research*

Charlene Polio,Debra A. Friedman,2016-11-18 *Understanding Evaluating and Conducting Second Language Writing*

Research speaks to the rapidly growing area of second language writing by providing a uniquely balanced approach to L2 writing research. While other books favor either a qualitative or quantitative approach to second language acquisition, SLA research, this text is comprehensive in scope and does not privilege one approach over the other, illuminating the strengths of each and the ways in which they might complement each other. It also provides equal weight to the cognitive and socio-cultural approaches to SLA. Containing an array of focal studies and suggestions for further reading, this text is the ideal resource for students beginning to conduct L2 writing research as well as for more experienced researchers who wish to expand their approach to conducting research. *Effective Curriculum for Teaching L2 Writing* Eli Hinkel, 2015-02-20

Effective Curriculum for Teaching L2 Writing sets out a clear big picture for curricular thinking about L2 writing pedagogy and offers a step by step guide to curriculum design with practical examples and illustrations. Its main purpose is to help pre-service and practicing teachers design courses for teaching academic writing and to do this as efficiently and effectively as possible. Bringing together the what and the how to with research based principles, what sets this book apart is its overarching focus on language pedagogy and language building. Part 1 examines curricular foundations in general and focuses on what is socially valued in L2 writing and pedagogy at school and at the college and university level. Part 2 is concerned with the nitty gritty, the daily realities of curricular design and classroom instruction. Part 3 takes a close look at the key pedagogical ingredients of teaching academic L2 writing: vocabulary and collocations, grammar for academic writing, and down to earth techniques for helping L2 writers to organize discourse and ideas. The Appendix provides an extensive checklist for developing curricula for a course or several courses in language teaching. **AP English Language and Composition Premium, 2024: 8 Practice Tests + Comprehensive Review + Online Practice** George
