Language Choice and Identity Politics in Taiwan Jennifer M. Wei, 2008-04-18 Jennifer M Wei argues that construction and perceptions of language and identity parallel sociopolitical transformations and language and identity crises arise during power transitions Under these premises language and identity are never well defined or well bounded Instead they are best viewed as political symbols subject to manipulation and exploitation during socio historical upheavals A choice of language from phonological shibboleth Mandarin or Taiwanese to choice of official language cuts to the heart of contested cultural notions of self and other with profound implications for nationalism national unity and ethno linguistic purism Wei further argues that because of the Chinese Diaspora and Taiwan s connections to China and the United States arguments and sentiments over language choice and identity have consequences for Taiwan s international and transnational status They are symbolic acts of imagining Taiwan s past as she looks forward to the future

Culture Politics and Linguistic Recognition in Taiwan Jean-Francois Dupre, 2017-02-24 The consolidation of Taiwanese identity in recent years has been accompanied by two interrelated paradoxes a continued language shift from local Taiwanese languages to Mandarin Chinese and the increasing subordination of the Hoklo majority culture in ethnic policy and public identity discourses A number of initiatives have been undertaken toward the revitalization and recognition of minority cultures At the same time however the Hoklo majority culture has become akin to a political taboo This book examines how the interplay of ethnicity national identity and party politics has shaped current debates on national culture and linguistic recognition in Taiwan It suggests that the ethnolinguistic distribution of the electorate has led parties to adopt distinctive strategies in an attempt to broaden their ethnic support bases On the one hand the DPP and the KMT have strived to play down their respective de Sinicization and Sinicization ideologies as well as their Hoklo and Chinese ethnocultural cores At the same time the parties have competed to portray themselves as the legitimate protectors of minority interests by promoting Hakka and Aboriginal cultures These concomitant logics have discouraged parties from appealing to ethnonationalist rhetoric prompting them to express their antagonistic

ideologies of Taiwanese and Chinese nationalism through more liberal conceptions of language rights Therefore the book argues that constraints to cultural and linguistic recognition in Taiwan are shaped by political rather than cultural and sociolinguistic factors Investigating Taiwan's counterintuitive ethnolinguistic situation this book makes an important theoretical contribution to the literature to many fields of study and will appeal to scholars of Taiwanese politics sociolinguistics culture and history

Identity Politics and Popular Culture in Taiwan Hsin-I Sydney Yueh, 2016-12-07 In the past two decades a uniform representation of cutified femininity prevails in the Taiwanese media evidenced by the shift of Taiwan's popular cultural taste from a Chinese centered tradition to a mixed absorption from neighboring cultural capitals in the global market This book argues that the native term sajiao is the key to understand the phenomenon Originally referring to a set of persuasive tactics through imitating a spoiled child's gestures and ways of speaking to get attention or material goods sajiao is commonly understood to be women's weapon to manipulate men in the Mandarin speaking communities By reinterpreting sajiao as a feminine tactic or the tactic of the weak the book aims to propose a feminine framework in exploring identity politics in the following three aspects the rising obsession with the immature female image in Taiwan's popular culture the adoption of the feminine communication style in native speakers everyday language and interactions and the competing discourses between dominant subordinate central peripheral global local and Chinese Taiwanese in shaping the identity politics in current Taiwanese society The micro analysis of everyday language politics leads the reader to examine layers of discourse about gender identity and communication and finally to inquire how to situate or categorize Taiwan in area studies The feminine framework is a useful theoretical tool that not only deconstructs everyday communication practice but also provides a bottom up alternative angle in analyzing Taiwan's role in political economic and cultural flows in East Asia The massive imports of popular cultural products in the late 80s mainly from Japan fermented the kawaii Japanese cute type of femininity in regulating everyday communication and the perception of gender roles in Taiwan The popularity of the baby like female image is concurrent with the simmering debate on Taiwanese identity Taiwan offers a unique perspective for observing identity politics because it still holds an undetermined status in the international community The collective uncertainty about the island's future and the diminishing voice in the international society become the backdrop for the growth of defining interpreting and appropriating sajiao elements in the popular culture This book offers an in depth examination of the interplay among local historical contexts cross border capitalist exchange and everyday communication that shapes the dialogism of Taiwanese identity
