Language Contact Cornelius Hasselblatt, Bob de Jonge, Muriel Norde, 2010 The study of languages in contact is an ever relevant topic in linguistics especially at present times when increasing globalization leads to a number of new contact situations This volume features ten papers on various aspects of language contact by leading specialists in the field In these papers contact induced change in a wide variety of languages is approached from various perspectives reflecting the current state of affairs in language contact studies The first main theme in the volume is related to the linguistic effects of migration both in the present and in the past and both in the standard language spoken by ethnic minorities and in immigrant languages that are influenced by the standard The second theme concerns border areas a traditional treasure trove for the study of contact phenomena The third theme is about contact effects without physical contact as well as the role played by translators in this process Language Contact at the Romance-Germanic Language Border Jeanine Treffers-Daller, Roland Willemyns, 2002 The current volume brings together sociolinguistic analyses of language contact along the Romance Germanic Language Border shedding more light on the variable and the universal elements in language contact and shift It covers the whole range of the border from French Flanders through South Tirol Every part of it has been treated by outstanding experts They describe the current state of the art in their portion of the language border and include information on the legal and or practical status of the language border and the status and function of all languages concerned Attitudinal and language planning initiatives as well as the standardisation status of the regionally official and minority languages are discussed Language borrowing code switching and other language contact phenomena are analysed in detail **Language**

Contact, Colonial Administration, and the Construction of Identity in Ancient Israel Samuel L. Boyd, 2021-02-15 In Language Contact Colonial Administration and the Construction of Identity in Ancient Israel Boyd addresses a long standing critical issue in biblical scholarship how does the production of the Bible relate to its larger historical linguistic and cultural settings in the ancient Near East Using theoretical advances in the study of language contact he examines in detail the sociolinguistic landscape during the Assyrian Babylonian and Achaemenid periods Boyd then places the language and literature of Ezekiel and Isaiah in this sociolinguistic landscape Language Contact Colonial Administration and the Construction of Identity in Ancient Israel offers the first book length incorporation of language contact theory with data from the Bible As a result it allows for a reexamination of the nature of contact between biblical authors and a series of Mesopotamian empires beginning with Assyria The Harvard Semitic Monographs series publishes volumes from the Harvard Museum of the Ancient Near East Other series offered by Brill that publish volumes from the Museum include Harvard Semitic Studies and Studies in the Archaeology and History of the Levant <https://hmane.harvard.edu/publications>

Convergence and Divergence in Language Contact Situations Kurt Braunmüller, Juliane House, 2009 This book deals with the consequences of converging and diverging processes and their development in language contact situations It provides insights into the various forms of language contact and the conditions under which bilingual speakers master their every day life in bilingual communities Its nine contributions cover both

theoretical and typological aspects such as the classification of languages the role of language contact linguistic complexity and spontaneous speech innovations and convergence and divergence processes in translation morpho syntax and phonology phonetics Taken together these studies provide challenges for linguistic theories that generalize from situations of monolingualism suggesting instead that a sound linguistic theory cannot be a theory for just one single isolated language but must be a theory for at least two languages It must also account for the fact that some structures involved in contact situations are not kept apart but develop in such a way that the distance decreases between the languages involved

Language Contact and Change in the Austronesian World Tom Dutton, Darrell T. Tryon, 2010-12-14 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing

Vernacular Universals and Language Contacts Markku Filppula, Juhani Klemola, Heli Paulasto, 2009-01-13 In this book contributors have been brought together to discuss the role of two major factors shaping the grammars of different varieties of English and of other languages all over the world so called vernacular universals and contact induced change Rather than assuming a general typological perspective the studies in this volume focus on putative universal vernacular features significant phonological or morpho syntactic parallels found in non standard varieties of English English based Creoles and also varieties of other languages all of which represent widely differing sociolinguistic and historical backgrounds These universals are then set against the other major explanatory factor contact induced change by which we understand both the possibility of dialect contact or dialect diffusion and language contact including superstratal substratal and adstratal influences

The Mainland Southeast Asia Linguistic Area Alice Vittrant, Justin Watkins, 2019-06-04 This book lies at the crossroads of areal typology language contact and genetic affiliation Concerned with mainland Southeast Asia in particular the various grammatical sketches lay emphasis on characteristics shared by unrelated languages

The Cambridge Handbook of Language Contact Salikoko S. Mufwene, Anna María Escobar, 2022-06-30 Language contact the linguistic and social outcomes of two or more languages coming into contact with

each other has been pervasive in human history. However, where histories of language contact are comparable experiences of migrant populations have been only similar, not identical. Given this, how does language contact work? With contributions from an international team of scholars, this Handbook, the first in a two-volume set, delves into this question from multiple perspectives and provides state-of-the-art research on population movement and language contact and change. It begins with an overview of how language contact as a research area has evolved since the late 19th century. The chapters then cover various processes and theoretical issues associated with population movement and language contact worldwide. It is essential reading for anybody interested in the dynamics of social interactions in diverse contact settings and how the changing ecologies influence the linguistic outcomes.

Language Contacts in Prehistory Henning Andersen, 2003. Every language includes layers of lexical and grammatical elements that entered it at different times in the more or less distant past. Hence, for periods preceding our earliest historical documentation, linguistic stratigraphy, the systematic study of such layers, may yield information about the prehistory of a given tradition of speaking in a variety of ways. For instance, irregular phonological reflexes may be evidence of the convergence of diverse dialects in the formation of a language, and layers of material from different source languages may form a record of changing cultural contacts in the past. In this volume, past problems and current advances in the stratigraphy of Indo-European, African, Southeast Asian, Australian, Oceanic, Japanese, and Meso-American languages are discussed.

Language Contacts Meet English Dialects Esa Penttälä, 2020-06-12. This book presents a collection of fresh research on language contacts and dialects and the interface between the two. The volume celebrates the work of Professor Markku Filppula, an eminent scholar in the fields of Irish English, Celtic contacts in the history of English, and language contacts and vernacular universals in nonstandard Englishes. The articles in this volume explore theories and methods employed in the study of language contacts and variation: Celtic substrata in Irish and British English, and dialect in the British Isles. The writers' perspectives range from cognitive processing to sociolinguistics and from theoretical and comparative discussions to new empirical corpus-based studies.

Grammars in Contact Alexandra Y. Aikhenvald, R. M. W. Dixon, 2007-01-04. Languages can be similar in many ways: they can resemble each other in categories, constructions, and meanings, and in the actual forms used to express these. A shared feature may be based on common genetic origin or result from geographic proximity and borrowing. Some aspects of grammar are spread more readily than others. The question is, which are they? When languages are in contact with each other, what changes do we expect to occur in their grammatical structures? Only an inductively based cross-linguistic examination can provide an answer. This is what this volume is about. The book starts with a typological introduction outlining principles of contact-induced change and factors which facilitate diffusion of linguistic traits. It is followed by twelve studies of contact-induced changes in languages from Amazonia, East and West Africa, Australia, East Timor, and the Sinitic domain. Set alongside these are studies of Pennsylvania German spoken by Mennonites in Canada in contact with English, Basque in contact with Romance languages in Spain and France, and language

contact in the Balkans All the studies are based on intensive fieldwork and each cast in terms of the typological parameters set out in the introduction The book includes a glossary to facilitate its use by graduates and advanced undergraduates in linguistics and in disciplines such as anthropology **Afrikaans Linguistics** WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics *Afrikaans Linguistics: Contemporary Perspectives* marks a seminal contribution to the field This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics **One Speaker, Two Languages** Lesley Milroy, Pieter Muysken, 1995-08-17 Code switching the alternating use of several languages by bilingual speakers does not usually indicate lack of competence on the part of the speaker in any of the languages concerned but results from complex bilingual skills The reasons why people switch their codes are as varied as the directions from which linguists approach this issue and raise many sociological psychological and grammatical questions This volume of essays by leading scholars brings together the main strands of current research in four major areas the policy implications of code switching in specific institutional and community settings the perspective of social theory on code switching as a form of speech behaviour in particular social contexts the grammatical analysis of code switching including the factors that constrain switching even within a sentence and the implications of code switching in bilingual processing and development [The Routledge Handbook of Historical Linguistics](#) Claire Bower, Bethwyn Evans, 2015-03-24 The Routledge Handbook of Historical Linguistics provides a survey of the field covering the methods which underpin current work models of language change and the importance of historical linguistics for other subfields of linguistics and other disciplines Divided into five sections the volume encompasses a wide range of approaches and addresses issues in the following areas historical perspectives methods and models language change interfaces regional summaries Each of the thirty two chapters is written by a specialist in the field and provides an introduction to the subject an analysis of the relationship between the diachronic and synchronic study of the topic an overview of the main current and critical trends and examples from primary data The Routledge Handbook of Historical Linguistics is essential reading for researchers and postgraduate students working in this area Chapter 28 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license <https://www.routledgehandbooks.com/doi/10.4324/9781315794013/ch28> *The Handbook of Pidgin and Creole*

Language Contact Creolization And Genetic Linguistics: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. Language Contact Creolization And Genetic Linguistics : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Language Contact Creolization And Genetic Linguistics : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
