Memoirs of Mrs. A. H. Judson. ... Third edition James Davis KNOWLES,1830 **Blood and Soil** Sepp de Giampietro,2019-02-28 Available for the first time in English a memoir of a member of the World War II Brandenburg German special forces unit The Brandenburgers were Hitler's Special Forces a band of mainly foreign German nationals who used disguise and fluency in other languages to complete daring missions into enemy territory Overshadowed by stories of their Allied equivalents their history has largely been ignored making this memoir all the more extraordinary First published in German in 1984 de Giampietro's highly personal and eloquent memoir is a vivid account of his experiences He delves into the reality of life in the unit from everyday concerns and politics to training and involvement in Brandenburg missions He details the often foolhardy missions undertaken under the command of Theodor von Hippel including the June 1941 seizure of the Duna bridges in Dunaburg and the attempted capture of the bridge at Bataisk where half of his unit was killed Given the very perilous nature of their missions very few of these specially trained soldiers survived World War II Much knowledge of the unit has been lost forever making this is a unique insight into a slice of German wartime history Widely regarded as the predecessor of today's special forces units this fascinating account brings to life the Brandenburger Division and its part in history in vivid and compelling detail

History and Race in Caryl Phillips's The Nature of Blood Maria Festa,2020-10-20 This monograph examines Caryl Phillips's *The Nature of Blood* 1997 a novel exploring recurring expressions of exclusion and discrimination throughout history with particular focus on Jewish and African diasporas and the storytelling of its migrant characters Particular attention is given to the analysis of characters revealing different facets of the Jewish question Maria Festa also provides a historical excursus on the notion of race and considers another character alluding to Shakespeare's *Othello* to expose the paradoxes of the relationship between subjugator and subjugated The study makes the case that among the novel's most remarkable achievements is Phillips's effort to redress the absence of the Other from our history that by depicting experiences of displacement and by confronting readers with seemingly disconnected narrative fragments *The Nature of Blood* is a reminder of the missing stories the voices marginalised and often racialized that Western history has consistently failed to include in its accounts of the past and arguably its present

On the motion of the heart and blood in animals William Harvey,1889 *Cunningham Memoir* ,1894 **Cunningham Memoir** Royal Irish Academy,1894 *Sealed with Blood* Sarah J. Purcell,2010-08-03 The first martyr to the cause of American liberty was Major General Joseph Warren a well known political orator physician and president of the Provincial Congress of Massachusetts Shot in the face at close range at Bunker Hill Warren was at once transformed into a national hero with his story appearing throughout the colonies in newspapers songs pamphlets sermons and even theater productions His death

though shockingly violent was not unlike tens of thousands of others but his sacrifice came to mean something much more significant to the American public Sealed with Blood reveals how public memories and commemorations of Revolutionary War heroes such as those for Warren helped Americans form a common bond and create a new national identity Drawing from extensive research on civic celebrations and commemorative literature in the half century that followed the War for Independence Sarah Purcell shows how people invoked memories of their participation in and sacrifices during the war when they wanted to shore up their political interests make money argue for racial equality solidify their class status or protect their personal reputations Images were also used especially those of martyred officers as examples of glory and sacrifice for the sake of American political principles By the midnineteenth century African Americans women and especially poor white veterans used memories of the Revolutionary War to articulate their own more inclusive visions of the American nation and to try to enhance their social and political status Black slaves made explicit the connection between military service and claims to freedom from bondage Between 1775 and 1825 the very idea of the American nation itself was also democratized as the role of the people in keeping the sacred memory of the Revolutionary War broadened
