context for the Latin readings **Latin for the New Millennium** Milena Minkova, Terence Tunberg, 2017 *External Powers in Latin America* Gian Luca Gardini, 2021-04-21 This book examines the role of external powers in Latin America in the 21st century. Non traditional partners have significantly increased their political and economic engagement with the continent. Five key questions arise: why has this surge taken place, when has it happened, in which regions and sectors is it mostly felt, what is the Latin American perspective, and what are the actual results. The book analyses 16 case studies: the United States, the European Union, China, Russia, Japan, Canada, India, Turkey, Iran, Israel, South Korea, Taiwan, Indonesia, the ASEAN countries, South Africa, and Australia. The spectrum of existing explanations in the literature spans from neo extractivism to South South cooperation. This volume places them in context and proposes a more multifaceted approach, stressing a combination of systemic factors and internal dynamics both in Latin America and in the external partner countries. Geopolitics still matters, and so do nation states, their interests, and leaders. Ultimately, this surge in engagement has largely reproduced past patterns. Are new partners that different from the old ones? Starting to Teach Latin Steven Hunt, 2023-03-09 This book for teachers provides both practical up to date guidance and a theoretical overview on a number of key topics in Latin teaching. Updated throughout, this new edition includes information about and analysis of recent Latin textbook publications and curriculum developments across the globe. Using a wealth of interviews, observations, and pupil transcripts, Steven Hunt utilizes case study evidence of excellent practice in teaching and learning from a wide variety of institutions, from outreach programmes, community schools, and academies in the UK and USA. Offering practical advice on topics such as essay writing, teaching controversial topics including women, slavery, ethnicity, and social hierarchy, making use of primary sources, and using ICT to advance language skills, this book also engages with broader questions of approach and theory. These include a survey of the three main approaches to Latin teaching: grammar translation, communicative, and reading approaches; explanation of cognitive and social approaches to learning; and analysis of the differences between intrinsic and extrinsic motivation. Moreover, traditional arguments about the value and purpose of learning Latin at school level are re-examined in the light of current educational thinking and government policy making. This book is invaluable for trainees, newly qualified teachers, and more experienced practitioners looking for practical ideas and strategies to motivate and engage learners of Latin. **Australia and Latin America** Barry Carr, John Minns, 2014-08-01 This is a good time to reflect on opportunities and challenges for Australia in Latin America. Impressive economic growth and opportunities for trade and investment have made Latin America a dynamic area for Australia and the Asia Pacific region. A growing Latin American population, Australia's attractiveness to Latin American students, a fascination with the cultural vibrancy of the Americas, and an awareness of Latin America's increasingly independent stance in politics and economic diplomacy have all contributed to raising the region's profile. This collection of essays provides the first substantial introduction to Australia's evolving engagement with Latin America, identifying current trends and opportunities and making suggestions about how
