Empowerment Evaluation David M. Fetterman, Shakeh J. Kaftarian, Abraham Wandersman, 1996. Empowerment evaluation, a method for using evaluation concepts, techniques, and findings to foster improvement and self-determination, is the focus of this book. After an examination of the method as it has been adopted in academic and foundation settings, the book looks at the various contexts in which empowerment evaluation is conducted, ranging from resistant environments to responsive environments. Critical concerns in empowerment evaluation, such as the role of empowerment theory and multiple levels of empowerment from individual to societal, are then discussed. The book also provides tools and technical assistance needed to conduct empowerment evaluation. The concluding section of the book serves to strengthen the links between empowerment and evaluation.

Making New York Dominican Christian Krohn-Hansen, 2012-12-18 Large scale emigration from the Dominican Republic began in the early 1960s with most Dominicans settling in New York City Since then the growth of the city's Dominican population has been staggering now accounting for around 7 percent of the total populace How have Dominicans influenced New York City And conversely how has the move to New York affected their lives In Making New York Dominican Christian Krohn Hansen considers these questions through an exploration of Dominican immigrants economic and political practices and through their constructions of identity and belonging Krohn Hansen focuses especially on Dominicans in the small business sector in particular the bodega and supermarket and taxi and black car industries While studies of immigrant business and entrepreneurship have been predominantly quantitative using survey data or public statistics this work employs business ethnography to demonstrate how Dominican enterprises work how people find economic openings and how Dominicans who own small commercial ventures have formed political associations to promote and defend their interests The study shows convincingly how Dominican businesses over the past three decades have made a substantial mark on New York neighborhoods and the city's political economy Making New York Dominican is not about a Dominican enclave or a parallel sociocultural universe It is instead about connections between Dominican New Yorkers economic and political practices and ways of thinking and the much larger historical political economic and cultural field within which they operate Throughout Krohn Hansen underscores that it is crucial to analyze four sets of processes the immigrants forms of work their everyday life their modes of participation in political life and their negotiation and building of identities Making New York Dominican offers an original and significant contribution to the scholarship on immigration the Latinization of New York and contemporary forms of globalization
