**Island Practice** Pam Belluck, 2013-06-25 With a Foreword by Nathaniel Philbrick author of the bestseller In the Heart of the Sea If you need an appendectomy he can do it with a stone scalpel he carved himself If you have a condition nobody can diagnose creeping eruption perhaps he can identify what it is and treat it A baby with toe tourniquet syndrome a human leg that s washed ashore a horse with Lyme disease a narcoleptic falling face first in the street a hermit living underground hardly anything is off limits for Dr Timothy J Lepore This is the spirited true story of a colorful contrarian doctor on the world famous island of Nantucket Thirty miles out to sea in a strikingly offbeat place known for wealthy summer people but also home to independent minded idiosyncratic year rounders Lepore holds the life of the island often quite literally in his hands He s surgeon medical examiner football team doctor tick expert unofficial psychologist accidental homicide detective occasional veterinarian When crisis strikes he s deeply involved

He's treated Jimmy Buffett, Chris Matthews and various Kennedy relatives but he makes house calls for anyone and lets people pay him nothing or anything: oatmeal raisin cookies, a weather-beaten 44 Magnum, a picture of a Nepalese shaman. Lepore can be controversial and contradictory, espousing conservative views while performing abortions and giving patients marijuana cookies. He has unusual hobbies: he's a gun fanatic, roadkill collector and concocter of pastimes like knitting dog hair sweaters. Ultimately, *Island Practice* is about a doctor utterly essential to a community at a time when medicine is increasingly money-driven and impersonal. Can he remain a maverick even as a healthcare chain subsumes his hospital? Every community has or some would say needs a Doctor Lepore, and his island's drive to retain individuality in a cookie-cutter world is echoed across the country. [Monica Gillian Clark, 2015-08-03](#) In *Monica: An Ordinary Saint* Gillian Clark reconciles competing images of the life and legacy of Augustine's mother, arriving at a woman who was shrewd and enterprising but also meek and gentle.

**Bodily Fluids in Antiquity** Mark Bradley, Victoria Leonard, Laurence Totelin, 2021-04-26 From ancient Egypt to Imperial Rome, from Greek medicine to early Christianity, this volume examines how human bodily fluids influenced ideas about gender, sexuality, politics, emotions and morality, and how those ideas shaped later European thought. Comprising 24 chapters across seven key themes: language, gender, eroticism, nutrition, dissolution, death and afterlife, this volume investigates bodily fluids in the context of the current sensory turn. It asks fundamental questions about physicality and fluidity: how were bodily fluids categorised and differentiated? How were fluids trapped inside the body perceived, and how did this perception alter when those fluids were externalised? Do ancient approaches complement or challenge our modern sensibilities about bodily fluids? How were religious practices influenced by attitudes towards bodily fluids, and how did religious authorities attempt to regulate or restrict their appearance? Why were some fluids taboo and others cherished? In what ways were bodily fluids gendered? Offering a range of scholarly approaches and voices, this volume explores how ideas about the body and the fluids it contained and externalised are culturally conditioned and ideologically determined. The analysis encompasses the key geographic centres of the ancient Mediterranean basin, including Greece, Rome, Byzantium and Egypt. By taking a longue durée perspective across a richly intertwined set of territories, this collection is the first to provide a comprehensive, wide-ranging study of bodily fluids in the ancient world. *Bodily Fluids in Antiquity* will be of particular interest to academic readers working in the fields of classics and its reception, archaeology, anthropology and ancient to Early Modern history. It will also appeal to more general readers with an interest in the history of the body and history of medicine.
