Latter Day Responsibility Choosing Liberty Through Personal Accountability:

Latter-Day Responsibility Connor Boyack, 2012 With our personal liberties under constant threat it's up to Latter day Saints everywhere to stand up for our freedoms This compelling volume describes in detail the many responsibilities we must each perform if we truly wish to defend individual liberty in the latter days Including topics like faith family and financial freedom this is a must read for all members

The Social Institutions Through the Contrasting Visions of Plato and Aristotle Anthony Walsh, 2023-11-25 Many of the fundamental questions philosophers and social scientists ask necessarily entail examining the role of the social institutions Social institutions are synchronized systems of self enforcing regulative rules behaviors and practices designed for the perpetuation of important societal functions and which give durable structure to social interactions Everything in human life entails aspects of one or more of these institutions There are people in academia that want to sweep dead white males under the historical carpet but two dead white men we cannot ignore when examining the social institutions are Plato and Aristotle These men have been at the heart of Western culture for more than two millennia and still continue to shape it There are few social or political issues today that were not thought about by these two great men They had a lot to say about the social institutions but they had contrasting visions on most things pertaining to them that may be broadly viewed as liberal and conservative or what economist philosopher Thomas Sowell calls unconstrained and constrained visionaries respectively The book is a scholarly work on these two foundational philosophers but will also serve as a supplementary text for a sociology class introduction to sociology or one specifically devoted to the social institutions

Lessons from a Lemonade Stand Connor Boyack, 2017-12-13 Are all laws legitimate And does winning a popularity contest also called an election give somebody the authority to boss you around What if the government outlaws something you need to do Is it okay to break the law if doing what's right has been classified as wrong Surprisingly engaging and filled with examples *Lessons from a Lemonade Stand* offers essential answers for teenagers and adults looking to better understand the world we live in

Feardom Connor Boyack, 2014-12-08 What do history's most notorious despots have in common with many of the flag waving patriotic politicians of our day Both groups rise to power through the exploitation of fear Sometimes the fear derives from a pre existing threat At other times crises are created or intensified to invoke a sense of panic and anxiety where none previously existed This pattern is as predictable as it is destructive The end result is the same a loss of liberty Policies that are costly oppressive and harmful are supported by people who abandon any interest in freedom or personal responsibility in hopes of feeling safe Manufactured fear with its negative impact on liberty is a societal plague There have been widespread casualties We need an antidote *Feardom* offers its readers a much needed immunization

Passion-Driven Education Connor Boyack, 2016-08-16 Do you need parenting advice on how to inspire your child to love learning Whether you homeschool or send your kids to public or private school this is essential reading for your situation Why Because schooling has become a disaster Your child's interests and uniqueness are disregarded and structured

curriculum and standards like Common Core place them on a conveyor belt that treats all children the same This system crushes a child s curiosity Your child deserves better There is a better way one that ensures your child sees learning as a joy and provides you the parent with a much less stressful way to educate and empower your son or daughter In this book Connor Boyack shares the exciting philosophy and empowering day to day steps involved in passion driven education A child s curiosity and natural desire to learn are like a tiny flame easily extinguished unless it s protected and given fuel This book will help you as a parent both protect that flame of curiosity and supply it with the fuel necessary to make it burn bright throughout your child s life Let s ignite our children s natural love of learning

Five Things Discussed in the Book

What s the problem with schools Whether public private or home schooling is structured in a way that has significant negative outcomes for children academically psychologically and emotionally To understand the solutions you first need to review these problems What s your goal Too many parents simply send their children to school out of ritual and expectation without thinking about the end result Caring parents must ponder the outcomes of education and what they want their children to become Once goals are established we can make a plan I need solutions It s easy to point out problems with schooling It s more important that we review serious and attainable solutions that can help you educate your child and preserve or restore their natural love of learning What are the alternatives If schools are inherently problematic and crush a child s curiosity what can be done We ll review several differing approaches to education that incorporate some of the solutions listed earlier

Passion driven education The best way to educate a child is to speak to them in a language they already understand using their personal interests as a hook to make other subjects interesting and relevant We ll review some examples and then give you an action plan

Kemerer, 2010-01-01 Educational policy in a democracy goes beyond teaching literacy and numeracy It also supports teaching moral reasoning political tolerance respect for diversity and citizenship Education policy should encourage liberty and equality of opportunity hold educational institutions accountable and be efficient School Choice Tradeoffs examines the tradeoffs among these goals when government affords parents the means to select the schools their children attend Godwin and Kemerer compare current policy that uses family residence to assign students to schools with alternative policies that range from expanding public choice options to school vouchers They identify the benefits and costs of each policy approach through a review of past

empirical literature the presentation of new empirical work and legal and philosophic analysis The authors offer a balanced perspective that goes beyond rhetoric and ideology to offer policymakers and the public insight into the complex tradeoffs that are inherent in the design and implementation of school choice policies While all policies create winners and losers the key questions concern who these individuals are and how much they gain or lose By placing school choice within a broader context this book will stimulate reflective thought in all readers Religious Leaders and Faith-based Politics Jo Renee Formicola, Hubert Morken, 2001 Religious Leaders and Faith Based Politics Ten Profiles offers a powerful and timely analysis of the dynamic relationship between religious leaders of all faiths and political activism in the United States By examining the lives and works of such prominent leaders as Reverend Floyd Flake Bishop T D Jakes Reverend Al Sharpton Elder Dallin H Oaks Rabbi Daniel Lapin Reverend Benjamin Chavis Muhammed and Sister Maureen Fiedler this volume reveals an American tradition of religious influence on public policy that continues to be an important hallmark of our democracy From the colonial era to the present religious leaders have raised Americans' moral and political awareness of countless issues including revolution slavery temperance civil rights and most recently the culture wars This book is the first to explore the renewed and intense commitment of evangelicals Catholics Muslims and Jews to preach teach and participate in politics today Among the questions answered in this book are religious leaders today as active and vocal as the radicals of the turbulent 1960s Are these activists still involved in civil rights or have other contentious topics such as abortion and traditional family values preempted such issues In the wake of the 2000 election and at the start of a new administration committed to elevating the role of religion in politics Jo Renee Formicola Hubert Morken and this prominent collection of contributors ask might we expect greater American religious involvement in the years ahead This is essential reading for anyone interested in religious and political activism or the evolving relationship between church and state in America

Liahona, 1916 Security after the unthinkable J. Peter Burgess, 2024-02-27 This book builds a theoretical perspective for explaining what security remains after the security event It studies in detail the evolution of security thinking before during and after the 2011 terrorist attack in Ut ya and Oslo Norway tracking the political discourse and the institutional reactions in order to form a theory of terror and disenchantment It develops a general theory of security that contributes to ongoing debates on non military security asymmetric warfare ontological security and human security It revisits the nature of terrorism the sense of its practice and re conceptualises the way practice of counter and anti terrorism are embedded in social cultural and national consciousness **The Jasper Love Trilogy** Onyx Cantor, 2020-03-02 This is the story of one man's triumph over Cult Religion As a preacher's son Jasper Love struggled to comply with the dogma and bigotry of the unpredictably changeable Doctrine of Good Enough dictated by Cult Religion He and four sisters labored to comply with cult demands consistent with their mother's mantra People expect preacher's kids to be perfect The Voice of Truth bestowed on Jasper as a child in a genuine salvation encounter with Jesus Christ conflicts with voices of deception from pulpits and pews

triggering crippling anxiety depression and suicidal ideation Further compounding his confusion is a terrifying awareness of the cult s distortion of scripture concerning his innate identity When a Connecticut preacher detects his private struggle the Bible scholar promises If you marry a good Pentecostal girl this thing will just fade away Jasper foolishly accepts the challenge believing that the pastor s counsel is based on Truth A 32 year battle ensues during which a Pentecostal preacher s daughter who aware of his struggle and trained in Exploitation of Advantage manipulates and controls the miserable husband who strives to suppress and conceal an innate identity which simply won t leave me alone Cultists despise his genuine relationship with God when the Holy Spirit weakens the tenacious grasp of the antiChrist s claim on his soul rescuing him from abominable doctrines through Spiritual Enlightenment to Truth Absolute Spiritual Warfare ensues during which he is molested by authority figures betrayed by cult dishonesty falls into sin is attacked by demons and is delivered by the Holy Ghost through visions of spiritual combat between the demons of Cult Religion and the Angels of Truth In the end his foolish attempt to conform with the Doctrine of Good Enough predictably results in the destruction of everything he wasted a lifetime building marriage family home career material wealth and reputation Yet in losing all he is delivered from the Darkness of cult idolatry whereupon he is finally free to immerse himself in genuine Truth Light and Love breaking the tyrannical chains of Cult Religion Released by the Holy Spirit from cult bondage he is at last unleashed to fulfill his destiny To teach the Truth about Jasper Love that boundless unconditional love known only to those who genuinely experience Spiritual Enlightenment to a people deceived by the hateful harlots of idolatry who are nothing more than power crazed authoritarian self aggrandizing despotic antiChrist heretics who worship only one god CONTROL *Congressional Record* United States. Congress,1999 **Brigham Young University Law Review** ,2003 *A Good That Transcends* Eric T. Freyfogle,2017-02-27 Since the birth of the modern environmental movement in the 1970s the United States has witnessed dramatic shifts in social equality ecological viewpoints and environmental policy With these changes has also come an increased popular resistance to environmental reform but as Eric T Freyfogle reveals in this book that resistance has far deeper roots Calling upon key environmental voices from the past and present including Aldo Leopold Wendell Berry David Orr and even Pope Francis in his Encyclical and exploring core concepts like wilderness and the tragedy of the commons *A Good That Transcends* not only unearths the causes of our embedded culture of resistance but also offers a path forward to true lasting environmental initiatives A lawyer by training with expertise in property rights Freyfogle uses his legal knowledge to demonstrate that bad land use practices are rooted in the way in which we see the natural world value it and understand our place within it While social and economic factors are important components of our current predicament it is our culture he shows that is driving the reform crisis and in the face of accelerating environmental change a change in culture is vital Drawing upon a diverse array of disciplines from history and philosophy to the life sciences economics and literature Freyfogle seeks better ways for humans to live in nature helping us to rethink our relationship with the land and

craft a new conservation ethic By confronting our ongoing resistance to reform as well as pointing the way toward a common good A Good That Transcends enables us to see how we might rise above institutional and cultural challenges look at environmental problems appreciate their severity and both support and participate in reform
