Human Anatomy Kenneth S. Saladin, 2005

Accidentally Overweight Dr. Libby Weaver, 2016-05-01 What leads the human body to get the message that it needs to store fat and what leads the human body to get the message that it needs to burn fat In a dynamic fresh approach to weight loss acclaimed nutritional biochemist Dr Libby Weaver discusses the nine factors that cause us to either lose or gain weight These factors include calories stress hormones sex hormones liver function thyroid function gut bacteria insulin the nervous system and emotions Let's face it for many people it is not a lack of education that leads them to polish off a packet of chocolate biscuits after dinner but their biochemistry and emotions Accidentally Overweight explores the role of these two factors in fat storage and optimal wellness Accidentally Overweight was born out of the 14 years Dr Libby spent at

university her strong scientific background in both nutrition and dietics and her PhD in biochemistry Libby has thousands of stories about how what she calls the calorie equation how much you eat versus how much you move is not the only determinant of our body shape and size At the end of the day if it was truly as simple as the calorie equation everyone would be trim taut and terrific and there d be no health consequences because of excess body weight This is not just another diet book it is a life changing way of understanding your body and health      **Visualizing Psychology** Siri Carpenter,Karen R.

Huffman,2013-01-01 This text is an unbound binder ready edition Visualizing Psychology Third Edition helps students examine their own personal studying and learning styles with several new pedagogical aids encouraging students to apply what they are learning to their everyday lives while offering ongoing study tips and psychological techniques for mastering the material Most importantly students are provided with numerous opportunities to immediately access their understanding
