audience experience is affected by motivation performance quality social atmosphere and group and personal identity Drawing on the implications of these experiences and attitudes the authors consider the question of what makes an audience and argue convincingly for the practical and academic value of that question *Spatial Anthropology* Les Roberts,2018-06-20 *Spatial Anthropology* draws together a number of interrelated strands of research focused on landscape place and cultural memory in the north west of England At the core of the book lies an engagement with the methodological opportunities offered by new interdisciplinary frameworks of research and practice that have emerged in the wake of a putative spatial turn in arts and humanities scholarship in recent years The spatial methods explored in the book represent a consolidation of site specific interventions enacted in landscapes located in the north west and beyond Utilising digital tools and geospatial technologies alongside ethnographic performative and autoethnographic modes of spatio cultural analysis spatial anthropology is presented as a geographically immersive and critically reflexive set of practices designed to explore the embodied and increasingly multi faceted spatialities of place mobility and memory From the radically placeless environment of a motorway traffic island to the affective archipelago of former cinema sites or the songlines and micro geographies of musical memory *Spatial Anthropology* offers a rich tapestry of landscapes practices and spatial stories that speaks to both the particularities of place and locality as well as the more delocalised topographies of regional national and global mobility *Mobility and Locative Media* Adriana de Souza e Silva,Mimi Sheller,2014-08-07 *Mobilities* has become an important framework to understand and analyze contemporary social spatial economic and political practices Especially as mobile media become seamlessly integrated into transportation networks navigating urban spaces and connecting with social networks while on the move researchers need new approaches and methods to bring together mobilities with mobile communication and locative media Mobile communication scholars have focused on cell phones often ignoring broader connections to urban spaces geography and locational media As a result they emphasized virtual mobility and personalized communication as a way of disconnecting from place location and publics The growing pervasiveness of location aware technology urges us to rethink the intersection among location mobile technologies and mobility Few studies have addressed the many transformations taking place in mobile sociality and in urban spatial processes through the appropriation of these technologies Chapter 12 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3 0 license *Popular Viennese Electronic Music, 1990-2015* Ewa Mazierska,2018-06-27 The author presents a cultural history of popular Viennese electronic music from 1990 to 2015 from the perspectives of production scene and national and international reception To illustrate this history in depth a number of case studies of the most successful and distinguished musicians are explored such as Kruder and Dorfmeister Patrick Pulsinger Tosca Electric Indigo and Sofa Surfers The author draws on research about electronic music the relationship between music and the urban environment the history of Austria and Vienna music scenes
